ROOSEVELT VET VETO BEATEN

SENATE PASSES 4 SCHOOL BILLS; TOTAL MILLIONS

Two Are Measures Horner Fought.

BY WILLIAM FULTON.
[Chicago Tribune Press Service.]
Springfield, Ill., March 28.—[Special.]—Groggy after seven weeks of battling, the Illinois senate today suddenly passed four bills which would pour millions of dollars into the state school fund. Then both the senate and lower house adjourned until April 17. Two of the bills passed have been consistently opposed by Gov. Horner. The gas tax for schools bill, backed by Gov. Horner, bore the brunt of the sharpshooting oratory in the senate debate and was the last measure to pass. The emergency clause was struck and the bill carried by the scant majority of 26 votes and 13 against.

If the bill passes the house next month and is signed by the governor it will become effective July 1. In order to pass the measure with the emergency clause, putting it into effect immediately, 34 votes were required.

Other Bills Approved.

Action on the other three bills was as follows:
1. Schenck-Schwartzman bill, diverting state liquor taxes to the schools, passed with a vote of 40 to 5, carrying the emergency clause. It goes to the governor.
2. Seary bill, diverting all above \$2,500,000 in monthly sales tax receipts to the schools, passed by a vote of 41 to 1, carrying the emergency clause.
3. A new tax of 15 cents on each 1,000 cubic feet of natural gas pumped into Illinois, the receipts to go to the schools, passed with a vote of 23 to 5, without the emergency clause.

The last two bills will have to go to the lower house on April 17 along with the gas tax diversion measure for action. The liquor tax diversion bill, however, already passed the house and now will be sent to the governor.

Horner Noncommittal on Veto.

Gov. Horner has vigorously opposed this measure from the start. Last night the question of whether he would wield his veto power was put to him point blank.

"I would not comment," replied Gov. Horner. "I believe that a diversion of the gas tax, which would amount to 10 million dollars, is the only plan that is fair to the school teachers and the state of Illinois."

It was disclosed, however, that the highly touted Republican victory may prove an empty conquest. A companion bill, necessary to make the actual transfer of money from the general revenues to the state school distribution fund, still is in the house on third reading.

This measure provides for the appropriation of \$5,000,000 in liquor revenues to be placed in the school fund. If it does not pass the funds cannot be transferred and the key bill, the one passed today, will be ineffectual. The companion bill yet has to run the senate gauntlet and be signed by the governor or be passed again by both houses over a possible veto.

Accomplishments So Far.
Thus far the third special session of the legislature has passed seven bills requested by Mayor Kelly and the Chicago school board and the enabling legislation for the 1934 World's Fair. Both houses have passed house bill 75, giving downstate sanitary districts the power to charge for industrial waste. The Devine beer law also was passed, but was vetoed by Gov. Horner.

The Horner administration strength was tested first on the gas tax for schools proposal. Sufficient votes could not be obtained during a roll call marked by a hot and at times tumultuous debate. The roll call was then suspended on the motion of Senator Richey V. Graham (Dem., Chicago), president pro tem, until the afternoon session, when the bill finally passed with a scant majority.

Barr and Mason Clash.
The Horner bill was warmly supported by Senator Richard J. Barr (Rep., Joliet), minority leader. Senator Barr ripped into Senator Noah A. Mason (Rep., Chicago) for opposing the legislation. Mason is president of the Illinois State Teachers' association.

Senator James J. Barbour (Rep., Evanston), who was supporting the bill, attempted to interject some remarks about Mason while Barr still had the floor.

"Shut up Foxy Grandpa," shouted Mason, striding down the aisle. "Senator Barr is asking me a question."

Mason Defends Position.
Mason defended his position on the ground that the teachers' association [Continued on page 10, column 1.]

AND BROTHER MARTIN LANDS IN JAIL HERE

Home from Toronto for Trial.

BULLETIN.

ISTANBUL, Turkey, March 29 (Thursday).—(P)—Samuel Insull, fugitive American, arrived in the harbor here at 6:30 a. m. (10:30 p. m. Chicago time) aboard the Greek steamer Maiotis.

The Maiotis, Insull's refuge on the high seas, having passed through the Bosphorus last evening, rounded the Golden Horn, entered the harbor here and dropped anchor.

Shortly afterward assurances were given that the former utilities operator was aboard the vessel.

Turkish authorities maintained harbor restrictions so severe that boats were not allowed within hailing distance of the Maiotis, but assurance of the steamer's identity was readily forthcoming from official sources.

BY CHESLY MANLY.

(Pictures on Back Page.)

Martin J. Insull, 65 year old brother of the fugitive Samuel Insull, and himself a fugitive from justice for seven months, was returned to Chicago last evening from Canada. He was locked in a cell of the Cook county jail where he was to remain until 10 o'clock this morning.

His attorney, John E. Northrup, hopes at that time to gain Insull's release in bond of \$50,000 pending his trial on charges of embezzling \$364,720 from the treasury of the Middle West Utilities company, a concern of which he once was president.

Succession of Technicalities.

A technically one of those things that kept Insull in the dreary Don jail of Toronto, Ont., for eleven days and also caused him to be released from his berth and hauled off a train upon crossing the Canadian-American border at Detroit yesterday morning—prevented his going free in bond last night.

John Irwin, a friend of the Insull family, had offered his residence at 6900 Euclid avenue as security for Insull's bail, but he had not filled out the necessary bond schedule required by State's Attorney Courtney's office. And when Insull arrived in the Criminal Court building at 5:45 p. m. it was too late in the day to fill out the form.

Bail to Be Scheduled Today.

Today, according to Attorney Northrup, the property will be scheduled in the regular manner, with a real estate valuation of \$45,000, and a bail surety value of half that amount—\$22,500. The remaining \$27,500 of the \$50,000 bond will be furnished by the United States Guaranty and Fidelity company before Chief Justice Philip J. Finnegan of the Criminal court.

Insull had expressed confidence on the train bringing him from Detroit yesterday afternoon that his friends would have bond arranged for him upon his arrival, but he exhibited no great disappointment when he learned that he would have to spend another night in jail.

"I was in that Toronto jail for eleven days and nights, and the Cook county jail must be a better place," he said. "Why should I worry about one more night?"

Arrives in Police Custody.

In the custody of Lieut. Frank Johnson of the state's attorney's police, named in the extradition warrant as the official messenger of President Roosevelt, Insull reached Chicago on a Michigan Central train. He and his escort left the train at the 63rd street station at 5:15 p. m. and were taken immediately to the Criminal court building, where the prisoner met Attorney Northrup and was informed that he would have to stay in jail for the first night of his return.

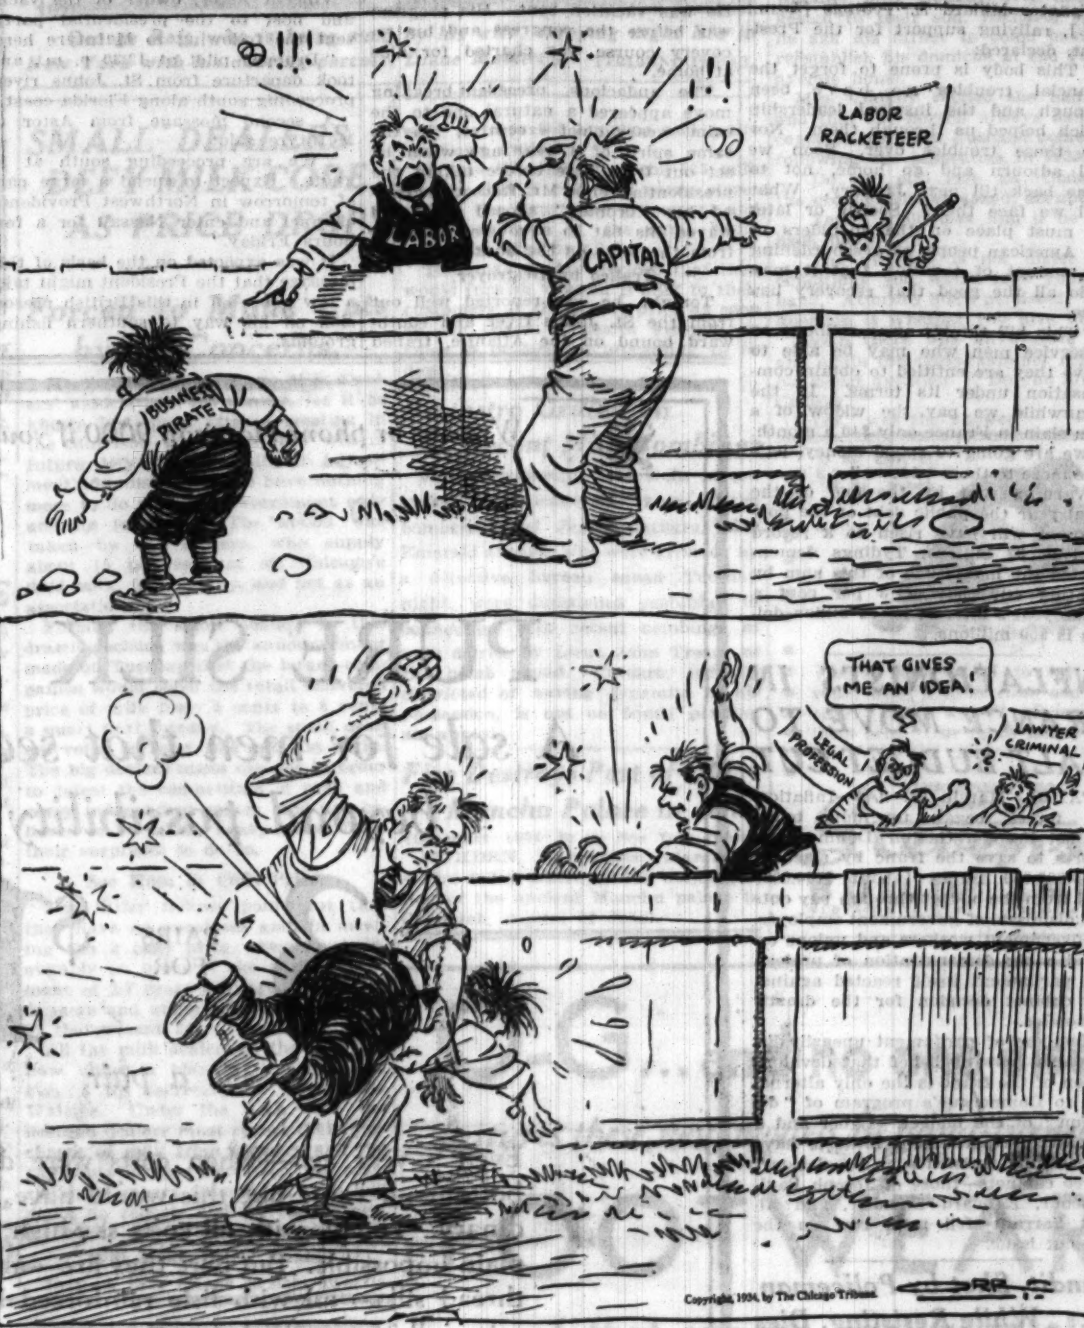

Insull arrived in Chicago—where he had lived for more than 40 years—an alien, technically excluded from the United States but paroled to Detroit, Johnson until the charges against him are disposed of. His arrival ended a sensational trip from Toronto, the most extraordinary entry of an alien into the United States ever recorded in the busy Detroit immigration office.

A Conflict of Authority.
It was an entry that produced a conflict of federal authorities, with Lieut. Johnson, the President's messenger.

It was an entry that produced a conflict of federal authorities, with Lieut. Johnson, the President's messenger.

WE'VE ALL BEEN TOO BUSY BLAMING THE NEIGHBOR'S CHILDREN INSTEAD OF TAKING CARE OF OUR OWN BAD BOYS

IF IT IS A REVOLUTION, ROOSEVELT WRITES, IT'S A PEACEFUL ONE

New York, March 28.—(P)—In the foreword of his forthcoming new book, "On Our Way," President Roosevelt says it is a peaceful revolution.

"It is a peaceful revolution, without violence, without the overthrow of the purpose of established law and without the denial of just treatment to any individual or class."

The proofs of the foreword, given out tonight by the publishers, the John Day company, read:

"Some people have called our new policy 'Fascism.' It is not Fascism because its inspiration springs from the mass of the people themselves rather than from a class or a group or a marching army. Moreover, it is being achieved without a change in fundamental republican method. We have kept the faith with, and in, our traditional political institutions."

"Some people have called it 'communism.' It is not that, either. It is not a driving regimentation founded upon the plans of a perpetuating dictatorship which subordinates the making of laws and the processes of the courts to the orders of the executive. Neither does it manifest itself in the total abolition of any class or in the abolition of private property."

"If it is a revolution, it is a peaceful one, achieved without violence, without the overthrow of the purposes of established law and without the denial of just treatment to any individual or class."

LINK STAVISKY WITH BURNING OF BIG FRENCH LINER

LONDON, March 28.—(P)—The Daily Mail says today the prolonged investigations have resulted in connecting the organization controlled by Serge Stavisky, the late French pawnshop magnate, with the burning of the 41,000 ton liner Atlantic in the English channel a year ago.

The paper also said that insurance underwriters had decided to press to the utmost their appeal against an order of the Paris courts that they pay the total amount of the loss entailed in the vessel's burning.

Looks Like Hoover, So a Stranger Clubs Him

East St. Louis, Ill., March 28.—(P)—Harry Radel, a switchman, is nursing a bruised head.

"I was attending a picture show this afternoon when a fellow whom I do not know began raving at me and said I looked like Hoover," Radel said. "Then he hit me on the head with a club."

A policeman arrested Philip Nicolay. All Nicolay said was, "That fellow looked like Hoover."

Card Swindle Nets \$20,000 and Two Years

New York, March 28.—[Special.]—Card sharks in Atlanta federal prison, if any, had best look out. A seagoing card sharp is on the way there, to become an inmate. He is under a two year sentence, charged with using a variant of the Mississippi heart swindle to mulct an ocean traveler of \$20,000.

The convicted sharper is William D. Frad, native of Zanesville, O. Where he learned his tricks is not material, but how he operated on the high seas supplies a tale.

Called Seagoing Sharper.
Frad was accused before Federal Judge Robert A. Inch of being a professional trans-Atlantic ship card sharp. In the case on trial it was alleged he trapped a wealthy traveler by dealing the following hand:

NORTH.
A. K. Q. J
K. K. Q. J, 10
A. K. Q.
None

WEST.
9, 6, 5, 4, 2
None
10, 4, 7, 6, 5
7, 6, 5

EAST.
None
8, 7, 6, 5, 4, 3, 2
None
A. K. Q. J, 10, 9

SOUTH.
10, 8, 7, 3
None
J, 9, 4, 3, 2
8, 4, 3, 2

As the setup shows, the wealthy traveler, sitting North, picked up what appeared to be a perfect hand. Solid hearts, spades and diamonds! And no clubs!

The traveler was not suspicious, although experts have calculated that a hand such as he held occurs only once in about 100 million deals. The traveler rushed up to a grand stand in hearts, then he and Frad doubled and redoubled until \$20,000 was at stake.

Play Short, but Costly.
The play was short and snappy. North, with the six highest hearts, proceeded to clear up the trumps, but got the shock of his life when he discovered that both South and West were short of hearts, and, therefore, that East held seven, or one more than North. Against any play, therefore, East would come in with the seventh trump. And in the play at issue, the traveler went down seven tricks on a hand that seemed a sure thing.

So the traveler lost \$20,000, and the winner is off for a two year stretch at Atlanta.

MARY PICKFORD'S AGENT TO SEE DOUG ON RECONCILIATION

[Chicago Tribune Press Service.]

LONDON, March 28 (Thursday).—Carl Kitchen, an American, left London by air for Paris yesterday en route to Barcelona with a letter which, according to this morning's Daily Express, will probably result in the reconciliation of Douglas Fairbanks Sr. and Mary Pickford, American film stars.

It has been known for some time that Doug and Mary have been trying to patch their differences and they have spoken to each other over trans-Atlantic telephone.

Kitchen, an old friend of Mary's, arrived here 10 days ago to see Doug and explain. Fairbanks, who has been in Rome, is expected to return to London via Spain. During Easter, in Barcelona, the final scene in the drama is expected to be played. Miss Pickford started action for divorce last summer.

LABOR DISPUTE HALTS WORK ON \$125,000 HOME

A labor dispute yesterday halted construction of the new \$125,000 residence of Leslie Wheeler at 20 South Mayflower road, Lake Forest, ground for the structure was broken on Monday.

Fourteen laborers were engaged in excavating, eleven of them Chicagoans, yesterday afternoon when 125 unemployed Lake county men appeared on the site and informed them they would have to cease. The fourteen workmen, who had been hired by the Dahlstedman company, Chicago contractors, laid down their tools.

Lake Forest's chief of police, Frank Tiffany, went to the scene and arranged a conference for today. Those to be present are representatives of the contracting company, of the Chicago and Lake county labor groups, and Chief Tiffany. Anthony Rosel, business agent of the Lake County Laborers' union, said that he would demand that at least 75 per cent of the workers be from his organization.

His men, he said, needed work and should be given whatever developed in their county. The contractors were reported to be determined to hire men who had been employed by them on other jobs.

For 24 hours ended 7 p. m. March 28: Mean temperature, 28 degrees; normal, 40 degrees; deficiency for March, 12 degrees; excess since Jan. 1, 96 degrees. DO YOUR EASTER SHOPPING EARLY

Jarecki Cuts Taxes 15% on Homes, Flats

BY JOSEPH ATOR.

County Judge Jarecki yesterday granted about three-fourths of the owners of single residences and small flat buildings in Cook county a 15 per cent cut in the 1934 assessments on their buildings. Since the cut does not apply to land valuations, the reduction on the total real estate bills, it is estimated, will average about 10 per cent.

The reductions, however, will be given only to those who filed objections and joined in the petition of the Chicago Real Estate board on which Judge Jarecki made his ruling. There were about 318,000 objections filed, whereas there are about 485,000 properties in the county in the classifications covered by the assessment cut. These classifications include every single residence in the county, from the humblest cottage to Lake Shore drive and north shore mansions, and all two and three flat buildings.

Penalizes Those Who Paid in Full.

The 120,000 property owners who did not file objections, and this includes all those who promptly paid their 1931 taxes in full when bills were presented last year, are denied by the statutes from enjoying the reductions granted by Judge Jarecki. It will require a special act of the legislature to give the same relief to those who paid their taxes in full and others who did not object in the county court.

"It is obvious that some relief must and should be given those home owners who did not object," said Judge Jarecki. "They form the most valuable class of our taxpayers in that many of them paid their bills, as originally rendered, without protest. Under the statutes neither I nor the county treasurer can give them a rebate. The legislature, however, may authorize equitable treatment of these citizens, either by direct rebate or credits on future tax bills. Some such law should be passed."

Courtesy Not to Appeal.

Hayden N. Bell, head of the civil law department of the state's attorney's office, announced that State's Attorney Courtney would take no appeal from Judge Jarecki's ruling. Appeals may be taken by others, but it is doubtful whether they would affect the reduction granted the majority of the objectors.

The ruling thus has the apparent effect of disposing finally of a controversy which has been fought in the courts for a year, and which has constituted a serious impediment to collections of taxes. Its immediate effect is expected to be the payment of millions of dollars by the objecting property owners who have withheld payments pending a ruling in the case.

At the same time the ruling opens the way for new controversies which, unless they are disposed of quickly, will have the effect of delaying collections of 1932 and subsequent tax levies. Also the ruling will cost the state and Cook county taxing bodies millions of dollars in revenue which they have already spent or anticipated.

Remits \$6,000,000 in Taxes.

It was estimated some months ago that the 15 per cent cut would trim \$120,000,000 from the total assessed valuations in Cook county for 1931 and \$69,000,000 from the total for 1932. Judge Jarecki's order directly remits an estimated total of \$5,115,000 in 1931 taxes. If those who have already paid their 1931 taxes in full are given the same treatment by legislative action, the total loss of revenue by all governments, including the state, would be \$6,244,000.

If the same sort of reduction is [Continued on page 6, column 2.]

SENATE VOTES 63-27 TO RAISE PAY; NOW A LAW

Upsets Control of Both Houses.

BY JOHN BOETTIGER.

[Chicago Tribune Press Service.]

Washington, D. C., March 28.—[Special.]—The United States senate today joined the house in administering to President Roosevelt his most crushing defeat since assuming the presidency. By a vote of 63 to 27 the senate overrode the President's veto of a bill which will add 225 million dollars to payments for disabled war veterans and federal employees above the sums recommended in the budget.

The bill is now law, both houses having voted by more than a two-thirds majority to override the chief executive.

Adds to Tax Burden.

The passage of this measure by itself is of high significance, throwing the President's budget estimates out of kilter and adding greatly to the tax burden of the people. The law makes no provision for raising the necessary funds. This was pointed out by the President in his veto message. But of far greater weight in the future of the Roosevelt administration is the fact that the President has lost his firm grip upon congress.

That this was a large issue in today's senate debate could not be questioned, for the challenge was so drawn by the President's supporters. Those Democratic senators who urged the senate to uphold the veto pleaded for continued adherence to the program of cooperation they had heretofore practiced in standing by the President's decisions.

Fear Vets More Than F. D.

At the end it was clear that fear of reprisals by war veterans voters in the coming elections had proved a greater fear with many of the Democratic senators than the ire of the President.

Mr. Roosevelt's whole program was put in some danger not only because of the wrecked budget estimates but because both houses have shown a revolt strong enough to wreck or alter part of the program over an executive veto.

Twenty-nine Democratic senators broke away from their banner leader to join with 33 Republicans and one Farmer-Laborite to send the President down to defeat. Not one Republican voted to support the veto.

Here's the Roll Call.

The roll call on the motion to override the President's veto and pass the bill was as follows:

FOR OVERRIDING—63.

DEMOCRATS—29.
Adams Long
Ashurst McAdoo
Bachman McCarran
Borah McNamara

Burke Pope
Byrd Robinson (Ark.)
Byrnes Sheppard
Connally Stephens
Coffey Thompson
Dietrich Tydings
Fletcher Van Nuys
Glass Wagner
Gore

Pairs were announced as follows: Overrick and Pittman, Democrats, to override veto against Trammell to uphold veto; Metcalf and Hebert, Repub-

icans to override veto against James Hamilton Lewis (Dem., Ill.) to uphold veto.

Deserting Mr. Roosevelt on the veterans issue were such staunch administration supporters as Senator Kenneth McKellar (Dem., Tenn.), who ranks second only to Carter Glass on the senate appropriations committee and who has achieved a reputation through many years as a "watch dog of the treasury."

There was an audible murmur of astonishment from the crowded galleries and some surprised eye raising among senators on the floor when Senator William C. Capper (Dem., Cal.) cast his vote to override the veto, and there was less but still apparent surprise when the usually recalcitrant Henry Fountain Ashurst of Arizona voted "aye" to pass the bill, "the objections of the President to the contrary notwithstanding."

Backing the President were old guard Democrats headed by Senator Joseph T. Robinson of Arkansas, the administration floor leader; Carter Glass, chairman of the appropriations committee; Pat Harrison, chairman of the finance committee, and Robert F. Wagner, who heads the national labor board in addition to his senatorial duties.

Senate Forgets Dignity. Announcement of the vote brought a wild yell of approbation from the galleries, packed with veterans, government employees, and lobbyists for both.

The dignity of the senate was forgotten for the moment and the chair did not even ban the customary demand for order. Senator Bronson Cutting (Rad., N. M.), who started the revolt with a speech early in the session, greeted the overthrow of the President's objections with a broad grin and a nod of his head that said, for all to see, "I told you so."

The issue of restored pay for government employees never once entered into the debate. The senate floor was crowded with members of the house, which yesterday overrode the President's wishes by the overwhelming vote of 310 to 72. At all times during the debate, it was said, there were more representatives on the senate floor than were present in the house itself, where a tariff measure was under discussion.

Seldom in the history of the senate, it was said, has greater pressure been put upon the senate to force them to support a measure. All day long the lawmakers were deluged with messages, coming by telegraph chiefly, but also brought to their offices and even to the senate corridors by veteran lobbyists. Some senators received as many as two and three hundred telegrams insisting that they vote to defeat the veto. Messages received from hundreds of Spanish war veterans' camps and American Legion posts first carried a demand for the senators to override the veto, and then signed the name of the camp or post, adding not how many members but how many "votes" were represented in the organization.

Overcome Obstacles to Vote. Two senators made extraordinary efforts to get to the senate chamber so they might cast their votes against the President's veto. They were Senator Pat McCarran (Dem., Nev.) and Senator Peter Norbeck (Rep., S. D.). Senator Norbeck has not been in the senate for many weeks, due to a throat ailment which kept him at his home in South Dakota. He arrived in Washington two days ago but was resting in his home here. Today he appeared in the chamber, his throat heavily muffled, and received the applause of his anti-veto colleagues.

Senator McCarran, who has been a leader in the fight for doing out government money to war veterans, had gone to Bannock, Me., to make a political speech. Learning last night that the senate was to vote on the veto today, he sought this morning to obtain an airplane to return him to Washington in time to vote.

Unable to get a train even out of Bangor, the senator rode by automobile through a heavy fog to Portland, boarded a train there for Boston. Bad visibility prevented his obtaining a plane at Boston, so he went on by train to New York.

There he succeeded in boarding a regular transport plane for Washington, which made the flight in an hour and 20 minutes.

Rushing somewhat breathless to the chamber, Senator McCarran was a bit chagrined to learn the veto could not take place for some hours. He strolled the length and breadth of the senate chamber several times in pompous parade, smiling expansively and condescendingly at those who would notice him.

Cutting Leads Debate. The debate on the veto message was opened by Senator Cutting, whose crisp tones and ready wit sprang again and again to the onslaught against the President's desires. "The proceedings up to date," said Senator Cutting, "might be called sparring for position. This is the decisive vote. The senate has gone on record so many times this session that it is perfectly apparent what the feelings of the individual members are on this matter."

"Every veteran in the country knows that if the senators stand on the convictions they have expressed in the past, they will vote today to override the veto."

"There is but one exception, Senator Glass is the only senator, on his record, who can justify a vote to sustain the veto."

Rising to defend the President's ac-

DOLLFUSS' PATIENCE AT END; ACTS TO STOP JOKES ON HIS STATUE

(Copyright 1934 by the New York Times.) VIENNA, March 25.—The patience of Chancellor Dollfuss with the many jokes about his diminutive stature apparently has ended. He has taken two steps to stop them.

The first was practical. No longer can he be called the smallest Austrian in uniform, for at the last Helmswehr parade in honor of Maj. Emil Fey, vice chancellor, a figure only half Dollfuss' height appeared and was photographed in full Helmswehr uniform—his 3 and one-half year old son, Rudi Dollfuss.

The second was administrative. A circular has been issued to all schoolmasters telling them that in the future all pupils making jokes at the expense of members of the government must be punished. So far there is no diminution of such tales as those which relate how the chancellor broke a leg falling off a ladder while picking vegetables, how the duchess of Vienna are to be looked over to provide a suitable mount for him for military parades, and how a dastardly plot against his life by the Socialists was foiled when a detective saw a mouse-trap set at the door of the chancellor's flat.

tion, the majority floor leader, Senator Joseph Robinson of Arkansas, asserted no senator could fairly argue that those in support of the President on the veterans' program were not sympathetic to the veterans' rights.

"It is not just," Senator Robinson cried out, "to place the President in an attitude of failing to demonstrate a sense of justice and patriotic recognition for the gallantry, courage, and heroism of those who have worn our uniform in war."

"It is my purpose to attempt to show there is no injustice, rather there is liberality, toward the veterans in full measure in the arrangements contemplated by President Roosevelt in his veto message."

"It is not logical to say that because we have once taken a position on this vote we shall not take the counsel and advice of the President," Asks for Fair Play.

Ripping into the Republican senators, who almost to a man opposed the President's program, Senator Robinson declared passionately: "Some in this chamber, and some outside, will be happy if the senate overrides the President's veto, because in a measure it will discredit the executive. I ask you to give him that fair recognition, that help and cooperation, to which by his great service he is entitled."

Taking the cue of the majority leader, the Republican Senator Robinson of Indiana launched a bitter and personal attack on President Roosevelt. "I don't know if it is true or not that some of us will be happy to see the President's veto defeated," he asserted. "But if so, I'm not surprised. The President has embarrassed this body so many times in connection with veterans' legislation that we cannot determine where he would stand."

Warns of Next War. The Hoosier Robinson raised a cry for the "despised soldier," and warned that denying veterans justice at this time, as he saw justice, might prove dangerous when the next war is to be fought. Then carrying his fight against the President farther than any other senator has dared, Robinson cried out:

"By his own deeds he has shown he does not appreciate the valor and heroism of the men who risked their lives in war. I am reminded of the time when he first assumed his high office."

"From the economy league and Mr. Astor's palatial yacht, the Nourmahal, Mr. Roosevelt came here with his infamous economy act. And after threatening the veterans like dogs for a year, with a veto safely behind him, he returns to the palatial yacht and the arms of Mr. Astor, who will receive him well."

"My God, has the President completely discredited the intelligence of the American people? When he just got through telling the country that we face a 7 billion dollar deficit for this year, he comes now and says: 'I can do nothing for the veterans because it throws my budget estimates out by 228 millions.'"

Answering a plea from the Democratic side that party politics be not allowed to enter the vote on the veto,

Senator Robinson at one point shouted out: "There isn't a whisper of politics in this in the slightest degree." "Here's the acid test," he concluded. "Vote to override the veto. Vote to support the despised man who wears a uniform. Have a care how far you go to make soldiers and sailors and marines despised men, lest you find yourselves unprepared for the dawn of another war."

Harrison to Defense. In withering rhetoric Senator Pat Harrison (Dem., Miss.) rose to denounce the speech of the Hoosier Robinson.

"It is just such language as he has employed, just such tactics as he displays, that precipitate wars in the world," said Harrison. "This is the worst of the speeches he has uttered."

"I say that we have dealt fairly with the veteran, and I cannot excuse the senator from Indiana when, in trying to rouse the prejudice not only of the soldier, but of the senate, he criticizes the President for taking a few days' rest down in a southern climate. No other senator on this floor would make that sort of a speech."

Senator Harrison warned that if the President's veto is overridden it may be said abroad over the land that he has lost his grip over congress and thus then the confidence of the people in the President may be impaired.

Tydings Backs President. Senator Millard E. Tydings (Dem., Md.), rallying support for the President, declared:

"This body is prone to forget the financial troubles we have been through and the inspired leadership which helped us through them. Nor are those troubles over. Soon we will adjourn and go home, not to come back till next January. What will we face then? Sooner or later we must place on the shoulders of the American people so overburdening an amount of taxation that it may undo all the good that recovery has done."

"This bill throws away millions on ex-service men who may be able to prove they are entitled to obtain compensation under its terms. In the meanwhile we pay the veterans' claim in France only \$40 a month. If we are going to spend money, let's give more to those widows."

Warning that by the end of the fiscal year the public debt of the government will have risen to a record total of 32 billions, Tydings demonstrated the magnitude of this sum by pointing out that at 3 per cent a single year's interest on 32 billion dollars is 960 millions.

INFLATIONISTS IN FRANCE MOVE TO HALT BUDGET CUT PARIS, March 23.—(AP)—Inflationary forces began to move today against Premier Gaston Doumergue's efforts to save the franc by slashing 4,000,000,000 francs (about \$264,000,000) from the budget through pay cuts and dismissal of government employees.

Government workers and unions ordered a big demonstration of protest, and parliament itself reacted against the cabinet decision for the drastic economies. Members of parliament unhesitatingly discussed a growing belief that devaluation of the franc is the only alternative to Doumergue's program of "deflation" of the budget. Labor and a sympathetic parliament hitherto have successfully resisted such "deflation."

Three cabinets—those of Joseph Paul-Boncour, Edouard Daladier, and Albert Sarraut—fell in a row on the pay cut issue.

LYON & HEALY NO BETTER CANDY MADE

OFFICIAL DUTIES ARE FORSAKEN AS PRESIDENT SAILS

Roosevelt Is Headed for Southern Waters.

(Pictures on back page.)

Jacksonville, Fla., March 23.—(AP)—President Roosevelt sailed the open seas tonight, keeping his vacation rendezvous with a heavy anchored confidence in the national situation.

On schedule, Mr. Roosevelt boarded the yacht Nourmahal here early today and tonight headed for the warm climates of southern waters, to fish and relax for a week.

The stricken kept him in touch with developments at Washington, but it had any new instructions to give there was no evidence of it on land. He was vacation bent. His program was before the congress and his recovery course was charted for aid at home.

The audacious, precedent-breaking move appeared a natural one to the calm, weary chief executive. In the same spirit of a year ago, when he set out from here before taking the presidential train, Mr. Roosevelt greeted his "cronies" aboard ship and waved his hat to a rousing farewell from the folks on the dock.

Trailed by Destroyer. Tonight, he was reported well out from the St. Johns river and southward bound on the Atlantic, trailed grimly by the gray-coated destroyer, the U. S. Ellis.

Standing by the rail at the dock, the President told newspapermen there was no need for an interview because there was nothing to say beyond the fact that he was looking for a real rest.

With carefree happiness he posed for the photographers and joked the newspapermen. He chatted eagerly with his eldest son, James, who joined him here for the cruise.

Over the five-mile route from the station to the dock, Mr. Roosevelt was greeted by applauding and cheering citizens who lined the entire course. For the next week or more, the President will be fishing and swimming, away from the heavy cares of office. He intends to return to Washington within the ten-day constitutional limit required for consideration of any legislation passed by congress.

Hears of Senate Action. Miami, Fla., March 23.—(AP)—Action of the senate in joining the house to override the veto of the bill carrying increased veterans' and government workers' pay allowances was transmitted tonight to the yacht Nourmahal on which President Roosevelt is proceeding down the Florida coast on a vacation trip.

Marvin H. McIntyre, one of the President's secretaries here, was informed of the senate vote and transmitted it to the President's ship with out comment.

Vincent Astor, owner of the yacht and host to the presidential party, sent the following to McIntyre here: "Dropped pilot at 12:30 p. m., and took departure from St. Johns river, proceeding south along Florida coast."

A second message from Astor to McIntyre said: "We are proceeding south at 14 knots. Expect to spend a large part of tomorrow in Northwest Providence channel and enter Nassau for a few hours Friday."

It was expected on the basis of this message that the President might take a few hours off in this British possession on his way to southern fishing grounds.

FARMER-LABOR FIGHT ON SENATE NOMINEE IS SEEN

Minnesota Party Adopts Platform.

St. Paul, Minn., March 23.—(AP)—The Farmer-Labor state convention turned to its concluding task, the indorsement of candidates for state and congressional offices, tonight after adopting a platform asserting the failure of capitalism and calling for a "complete reorganization of our social structure into a cooperative commonwealth."

After voting speedy approval of Gov. Floyd B. Olson's indorsement for reelection, the convention had before it the report of its nominating committee recommending indorsement of United States Senator Henrik Shipstead, despite attempts of Congressman F. H. Shoemaker, also a candidate for the post, to dissuade the delegates from indorsing any "one" for the senate. Delegates predicted a close fight on this and other indorsements.

Urges Government Ownership. Government ownership and operation of all natural resources, the machinery of production, transportation, and communication facilities was set forth in the platform as the foundation of the party's proposed new order.

The platform seeks protection for the farmer in a plank calling for adequate legislation to insure the farmer's tenure on his land, lower tax-

ESCAPE EASTER SHOWERS

Come to FRENCH LICK

Eight of Chicago's last ten Easter have been ruined by rain or cold. Why risk it? Spend your holiday at French Lick in perfect spring weather. NAZIS OPEN DRIVE TO END REVOLT IN GERMAN CHURCH

Offer Partial Amnesty to Opposition Pastors.

BY SIGRID SCHULTZ.
[Chicago Tribune Press Service.]
BERLIN, March 28.—Reichsbishop Ludwig Mueller, Nazi-designated head of the German Protestant church, in a 1,500 word Good Friday proclamation tonight appealed to pastors who have rebelled against Nazi domination to accept his rule. He spoke of forgiveness and offered partial amnesty to pastors who have been ousted because they objected to church reforms. But he stipulated that all reinstated pastors must promise blind subservience to him.

The proclamation was placed on the front page of all German newspapers by order of the government. The Reichsbishop's proclamation was issued shortly after Chancellor Hitler had given him an ultimatum that the strife in the church must be settled by May 1.

Swedish Archbishop Intervenes.
Chancellor Hitler's ultimatum followed the intervention of Archbishop Edman of Sweden in the troubled German church situation. The Swedish archbishop sent an emissary here with a memorandum to Hitler saying that protestantism throughout the world regards "the persecution and dismissal of opposition pastors as a disgrace to Germany."

Reichsbishop Mueller in his proclamation asserted that the church development because in their "bourgeois mentality" opposition pastors were unable to understand the state's claim for total control of church and state. He made veiled accusations of a lack of the Nazi spirit in the ranks of his opponents.

Pastors who have lost their contact with men in working and academic circles should ask themselves "Why are we not in close touch with the masculine world of our country?" he said.

Appeals for New Start.
"Brothers of the cloth, let us all make a new start. Let us respect the ninth commandment and not continue personal defamations. Let us sacrifice our habit of listening for rumors and our desire for martyrdom. Our Lord did not ask for the cross. Let us not try to be more pious than He."

"Start trying to win men who are estranged from us. Seek laymen who will cooperate with the church; then you will not have time for anything else, and peace will return to the church."

"I have instructed members of the church ministry to negotiate with state bishops on the possibility of allowing discharged pastors who are anxious to do constructive work to resume service. For the sake of order in the church we demand that the men who are reinstated pledge themselves to concentrate on the work of community preaching and abstain from church politics."

Catholic Bishop Protests.

While the Reichsbishop was talking peace the Catholic bishop of Berlin, Dr. Baez, filed a protest with Chancellor Hitler. Hermann Wilhelm Goerring, premier of Prussia, and Minister of Interior Wilhelm Frick against an attack on members of the Catholic Youth organization by Hitler youths in Hennigsdorf, near Berlin.

Dr. Baez complained that 200 Hitler youths assaulted 1,800 Catholic youths who were doing field exercises and tore away their banners and drums. To avoid casualties the Catholic leaders ordered their youths together and entrained for Berlin immediately.

In Mannheim book dealers signed pledges today not to sell sermons delivered by Cardinal Faulhaber, Catholic archbishop of Munich.

TWO HELD AS ROBBERS.

George Welch, 26 years old, 4826 Sheridan road, and James Long, 22 years old, 637 Downing place, were held to the grand jury in bonds of \$30,000 each yesterday by Judge Frank M. Padden on three charges of robbery.

SMALL DEALERS DEFY MILK CODE AS PRICE DROPS

Forced to Make Cuts by Big Concerns.

Members of the Chicago Milk Dealers' association, 125 strong, let it be known last night after a meeting in the Morrison hotel that they will in future defy the Agricultural Adjustment administration and have nothing more to do with the government code and its red tape. The action was taken by the dealers, who supply about 15 per cent of all Chicago's fluid milk, individually, and not as an association.

Forcing the small dealers to this drastic decision was the announcement made on Tuesday that the larger companies would slash the retail delivered price of milk from 9 cents to 8 cents a quart next Sunday. The small dealers voted to meet this cut last night. The big dealers made the cut in order to defeat the competition of cash and carry independent stores, and are believed to be taking heavy losses from their surpluses to do so.

See Milk in Code Price.

The little fellows point out that they have no surpluses and, in meeting the 3 cent price, they must inevitably go broke if the present payment of 4.7 cents a quart is made to farmers and union labor costs remain at the present \$40 a week rate. All the milk dealers in the area are now under a blanket license issued Feb. 5 by Secretary of Agriculture Wallace. Under the AAA code the licensed dealers must report their purchases of milk from farmers and the payments made. Hereafter, the association members announced, they will make no reports and let the government take the initiative if it wishes to.

Will Make Direct Deals.

Instead, they intend to deal directly

with farmers for supplies and make their own deals.

It was the opinion of the 125 milk dealers that if cash and carry stores violate the farm price agreement and get away with it, the same thing should be tried by all.

The small dealers decided that they would furnish vitamin B milk to their customers at the 8 cent price as soon as the board of health amends its rules to permit the processing to be done.

Belcastro Grilled on Recent Milk Bombings

James Belcastro, 1011 Polk street, known in Chicago as "king of the bombers," and James Cattara, 2540 Emerald avenue, who were arrested by a detective bureau squad Tuesday night, were questioned yesterday in connection with recent bombings of milk dairies by Lieut. John Treacy of the bomb squad. Cattara, recently convicted of having dynamite in his possession, is out on bonds pending an appeal.

MRS. CUDAHY TELLS COURT SHE LOVES HUSBAND

[Chicago Tribune Press Service.]
Milwaukee, Wis., March 28.—[Special.]—In a dramatic cross-examination today, Mrs. Alice Dixon Etno Cudahy was compelled to say she still loves her husband, Michael Cudahy, millionaire packer, and to admit in almost the same breath that she hired a detective to trail him and that she had spied on him.

The admissions by Mrs. Cudahy, defending herself in his suit for divorce, was by far the most startling testimony since the millionaire packer stepped into court a week ago to press his divorce action on charges of mental cruelty.

They came directly upon the close of an extensive direct examination in which Mrs. Cudahy pictured herself a dutiful wife, who had washed her husband's socks, treated his hair, and shined his shoes, besides cooking for him and managing the details of a vast household.

Attorney James Shaw, for Cudahy, who conducted the cross-examination, led off with the innocent question of whether Mrs. Cudahy ever had suggested to their son, Richard, 8, that he ask his father to come back and reestablish his domicile at the Terrace avenue home.

Mrs. Cudahy replied she had once and that she herself always had been eager to have her husband come back following the separation in 1929.

"Do you still love Mr. Cudahy?" the cross-examiner asked abruptly.

"Yes, I could love him if he came back home."

"The question is not under what conditions you would love your husband," Attorney Shaw persisted. "The question is whether you love him."

Again there was an evasive reply and again the cross-examiner repeated his direct question: "Do you love Mr. Cudahy?"

"Yes," was the answer.

INSULL'S TRAMP STEAMER HALTS AT ISTANBUL

Brother Spends Night in Cook County Jail.

(Continued from first page.)

senger, and Joseph Als, a young inspector of the immigration service, openly and loudly defying each other. At 3 o'clock yesterday morning, when the train bearing Insull crossed the border from Windsor, Ont. to Detroit, Inspector Als ordered him to get off.

"You can't do this, of course," said Lieut. Johnson. "I'm a messenger of the President of the United States and I have a presidential warrant. This man is my prisoner, and I'm taking him to Chicago for trial."

"I am sorry, but the law is the law," replied the stern young inspector of the department of labor. "Off he goes."

Special Board of Inquiry.

Insull was thereupon taken to the Book-Cadillac hotel in Detroit, where he caught a few hours of much needed sleep. At 9 a. m. he was arraigned before a special board of inquiry headed by Walter R. Brooks, inspector in charge of the Detroit immigration office. This board, after a perfunctory hearing at which Insull was asked the same questions put to him the night before by the inspector, found that young Als did exactly what he should have; that Insull, President or no President, could not make a legal entry into the United States.

Whereupon Insull was formally paroled to Lieut. Johnson for the period which will be required to dispose of the charges against him. If Insull is acquitted, or, if he is convicted, when he has served his time in prison—Lieut. Johnson must personally deliver him to the Detroit immigration office, which will send him across the border to Canada, whence Insull came and where he is domiciled, in the eyes of the law, at the present time.

Still a British Subject.

All this turmoil resulted from the fact that Insull is a subject of Great Britain. He was born in Reading, England, in 1868, and was never naturalized in this country despite his residence here from 1887 until July, 1932, when he fled to Ottawa, Ont. An alien who leaves the country and remains away more than six months cannot reenter without a visa from an American consulate, and such a visa Insull could not possibly obtain because he is accused of a felony.

Wary and worn after his eleven days in the Toronto jail, Insull appeared stupefied by the strange proceedings at Detroit.

"It's the most amazingly silly thing I ever heard of," he said. "One branch of the government, the state department, is demanding that I be brought back to Chicago. Another branch, the immigration service, says I cannot come in."

"It does seem silly," Inspector Brooks declared, "but according to the law it is not silly. Aside from the technicality of his being an alien without right of entry, there is the provision in the law against admitting any one who might become a public charge."

By a "public charge" the inspector meant a person dependent on charity, not an inmate of a correctional institution.

Penalty for Parole Violation.

Insofar as he must report regularly on his occupation, habits and conduct to Lieut. Johnson, Insull's parole is just like that of a prisoner paroled from a penitentiary. But the penalty for violating an immigration parole is different. A paroled convict would be returned to the prison to finish his term, but Insull would not be returned to Canada. The possible penalty for him would be a fine of \$1,000, a year in jail, or both.

Whether Insull will be permitted to leave Illinois under the terms of his parole was not clear to him or his attorney last night, and the settlement of this perplexity will determine his plans for the future. When he gets out on bail Insull will go to a loop

THE WANDERINGS OF SAMUEL INSULL

The heavy line indicates course believed to have been followed by the Greek freighter Maiotis, aboard which Samuel Insull fled from Greece a week ago Sunday. The cross near Crete indicates where official track of the vessel was lost. The cross near Rhodes indicates where Insull was erroneously reported to have transferred to another vessel. At 10:30 o'clock Chicago time last night the Maiotis docked at Istanbul. Insull was aboard.

hotel for a few days and then, if he can legally do so, he will join his wife in the home of their daughter, Mrs. Virginia Rafferty, and son-in-law, Maj. William A. Rafferty, at the Rafferty farm near Morocco, Ind.

Smiles at New Pictures.

On the train coming down from Detroit Insull maintained reserve, but was less sullen of manner than upon being released from the Toronto jail the day before. He smiled when he saw the headlines and pictures of himself in the newspapers of passengers on the train and seemed to derive a genuine enjoyment from this notoriety.

He fixed a wry smile upon Maj. Rafferty, who accompanied him, and said: "At least I have pushed Sam off the front pages."

Story of Extradition Fight.

Insull left Chicago and established his abode in Orillia three months after the Insull holding companies and investment trusts went into receivership and one month after the flight of his brother, Samuel, to Europe. On Oct. 4, 1933, the Cook County grand jury voted three embargoes indicting against Martin Insull and his state began extradition proceedings, resulting in his arrest.

Subsequently he was indicted by the federal government, together with his brother, Samuel, and nephew, Samuel Jr., as well as other officers and directors of the \$150,000,000 Corporation Securities company. In the federal court he is accused of using the mails to defraud and violating the bankruptcy act, but the federal government cannot try him at this time because the extradition treaty limits the charges that may be pressed to those on which extradition is obtained.

Loses His Long Fight.

Insull fought extradition with all the legal powers at his command. Reduced at last to an application for a writ of habeas corpus, he carried this through the lower courts to the Supreme court of Ontario. On March 16 this court ruled against him and he was placed in the Toronto jail to await the formal order of extradition, which came on Tuesday.

In deciding that he should be extradited, however, the Ontario Supreme court limited the charges against him to the alleged embezzlement of \$364,720, knocking out entirely one indictment charging theft of \$46,000 and reducing the counts in the second from \$104,000 to \$20,000. The third indictment, alleging theft of \$344,720, was allowed to stand. The money, which Insull is accused of having embezzled from the Middle West Utilities company, was allegedly used to protect his private brokerage accounts.

It was indicated at State's Attorney Courtney's office before Insull's arrival that he would not be placed on trial for a month or six weeks. First Assistant State's Attorney Wilbert Crowley said the state would wait for the Illinois Supreme court decision on a petition for rehearing in the Lieber case, in which the Cook county grand jury system was declared illegal.

SAMUEL INSULL'S WIFE DECIDES TO STAY IN GREECE

Only Two Countries Open to Her Husband.

Report Mutiny on Ship

(Chicago Tribune Press Service.) LONDON, March 28.—A mutiny is reported to be threatening aboard the freighter Maiotis, on which Samuel Insull fled from Greece, according to the Istanbul correspondent of the London Daily Herald. The paper said members of the crew were discontented over their long, haphazard voyage, and declared they would strike today unless they were given triple pay. The captain retorted with a threat to put the men in irons, it was reported.

BY EUGENE SPECK.

(Pictures on back page.)

(Chicago Tribune Press Service.) ATHENS, March 28.—Mrs. Samuel Insull, wife of the Chicago fugitive utilities operator, is planning to stay indefinitely in Greece. She appealed to the Greek authorities today for a new residence permit after Great Britain had flatly and finally refused her permission to enter that country. Her trunks were moved into the Hotel Grande Bretagne, where she took a room tonight.

Mrs. Insull had waited nearly two weeks for the British answer, which came in the form of a telegram from the foreign office instructing the passport control officers here to grant her a visa on no account.

Then she telephoned the Greek alien control department seeking an extension of her residence permit and was instructed to repeat her plea in writing.

Other Countries Open.

It was pointed out, however, that numerous countries where no visas are required can easily be reached from Greece, including Italy and Switzerland. Mrs. Insull also can obtain a Yugoslavian transit visa any time she likes and thereby travel comfortably to Belgium or Holland by train.

Instead she is attempting to remain in Greece.

There appears to be only two countries open to Insull. They are Bulgaria, which heretofore has steadfastly refused him even a transit visa, and Rumania. That country granted him a nonstop permit to travel through the country, but the rubber stamp put on the American document, which so far as known is still in Athens, is not on the Greek laissez passer (permit to leave) which Insull is carrying.

Faces Arrest in Rumania.

BUCHAREST, Rumania, March 28.—The director of the Rumanian secret service said tonight that Samuel Insull would be immediately arrested if he landed from the Greek steamer Maiotis on Rumanian soil. Advice from the secret service were supplemented by a declaration by Col. Alvin M. Owsley, American minister to Rumania, that he is confident Insull will not be permitted to remain in Rumania or even pass through the country.

SENTENCE 6 FOR PLOT TO END THE WORLD'S SMALLEST REPUBLIC

SAN MARINO, Republic of San Marino, March 28.—(AP)—A council of twelve sentenced six alleged terrorists today to prison on charges of plotting to burn this city and overthrow the republic, the smallest in the world. Only two of the defendants were actually brought to trial. Four others are fugitives. Sentences ranged from 4 to 20 years. One defendant was acquitted.

The two defendants present—Giuliano and another—were arrested last June while taking photographs, and police said documents found in their possession incriminated San Marinense citizens residing in various parts of Italy. According to evidence at the trial, the band planned to set up a reign of terror in San Marino.

ROBBERS SEIZED IN ACT; NAMED IN ANOTHER CASE

Price E. Allison and his wife, Elvira, were robbed of \$13 by three men late last night as they were putting their automobile in a garage behind their home at 2438 West Adams street. They went to the Warren avenue police station to report the stickup. While there they learned that three bandits, captured in the act of robbing a gasoline station at Ogden avenue and Taylor street, had been taken to the Marquette station. Viewing the captured trio a little later, Allison declared they were the men who had robbed him. They are Ray Jennings, 18 years old, 2059 Washburne avenue; Nicholas Catranbone, 17 years old, 2138 De Kalb street, and Bernard Strully, 19 years old, 825 South Erie avenue. They were captured by the police squad of Sgt. Edward Collopy.

SHOOTS HIS WIFE AND HER SON IN QUARREL; FLEES

William Semlow, 43 years old, shot and seriously wounded his wife, Mary, 40 years old, and his stepson, Edward Luckick, 18 years old, during a quarrel at the family home, 7425 Palatine avenue, early today. Each of the victims was struck in the face by bullets. Semlow, alleged to have been intoxicated, fled after the shooting. Neighbors of the Semlows protested to the police because it was nearly an hour after the report of the affair went out before a patrol wagon arrived to carry the victims to a hospital. At the Irving Park station it was explained that as an economy measure the district patrol wagon had been taken away and that one had to be summoned from the Cragin station, eleven miles from the scene of the shooting.

Jarecki Rejects Poverty Plea of Mrs. Blackledge

County Judge Edmund K. Jarecki yesterday denied Mrs. Myrtle Tanner Blackledge permission to file a petition for her release from the county jail under the insolvent debtor's act. Mrs. Blackledge's plea was made on the ground that she has no money to pay a \$7,500 alienation of affection judgment to Mrs. Susanne Nottingham, wife of a policeman. In overruling the petition Judge Jarecki set bond at \$15,000 and allowed 30 days for the preparation of a bill of exception. In default of the bond, Mrs. Blackledge went back to jail.

BODY MISSING, HE GETS 1-14 YEARS FOR KILLING SON

Also Given 20 Years Each on 2 Rape Counts.

Rockford, Ill., March 28.—[Special.]—Although unable to produce the body of the slain boy, State's Attorney Robert E. Nash in Circuit court here this morning obtained a sentence of from 1 to 14 years in the penitentiary for Charles Backus, huckster, who confessed killing his 8 year old son, Charles Jr., in a family quarrel.

Backus had pleaded guilty. He was sentenced for manslaughter. The body of the boy, which the father said he hid, has never been found despite a search of almost two months by county and city authorities and hundreds of volunteer workers.

Claims Memory Is Gone.

Backus claimed at various times that he "choked" the dead boy through a hole in the river ice and that he buried him in various spots. He finally said that his mind was a blank and that he could not remember what he did.

The parents, in an effort to account for the child's disappearance, had first claimed on Feb. 7, the day after the slaying, that the boy had been kidnapped. The wife finally admitted that story was false, claimed her husband had made her and her daughters tell it on the threat of death, and charged Backus with killing his son. He later confessed after several days of constant grilling.

Gets 20 Years for Rape.

Backus this morning was sentenced also to serve 20 years on each of two charges of statutory rape, based on testimony by his two stepdaughters, Dorothy and Pauline Darling, 16 and 14 years old respectively. He had pleaded guilty to these counts Monday.

In passing sentence, Circuit Judge Arthur E. Fisher told Backus he was "not fit to live with human beings." The two rape sentences and the manslaughter term will run concurrently, making Backus eligible for parole in 13 years.

OVERCOME BY GAS; REVIVED.

Overcome by gas while cooking in the kitchen of her home at 3149 Fremont street, Miss Dorothy Fuller, 35 years old, was revived yesterday by artificial respiration administered by Hudson avenue police.

CITY'S CHURCHES
OBSERVE HOLY
THURSDAY TODAYSchools Will Close on
Good Friday.BY THE REV. JOHN EVANS.
(Picture on back page.)

Lenten devotions rise toward tomorrow's Good Friday climax through today's observance of Maundy or Holy Thursday. Today's fast recalls Christ's mandate calling for humility as the mood and mark of His own and His disciples' lives. It is from "mandate" or its Latin form, "mandatum" that the word maundy evolved.

Christ's humility, together with that demanded of His disciples, must be broad enough to lead one to wash the feet of a lowliest neighbor. Some authorities hold that the day recalls two mandates. The earlier mandate of humility is found in St. John xiii, where the story of the washing of the disciples' feet is told, and the other in the institution of the sacrament of Holy Communion or the mass. "This do in remembrance of me," the command as Christ broke the bread and lifted the chalice at the Last Supper.

Feast of the Passover.

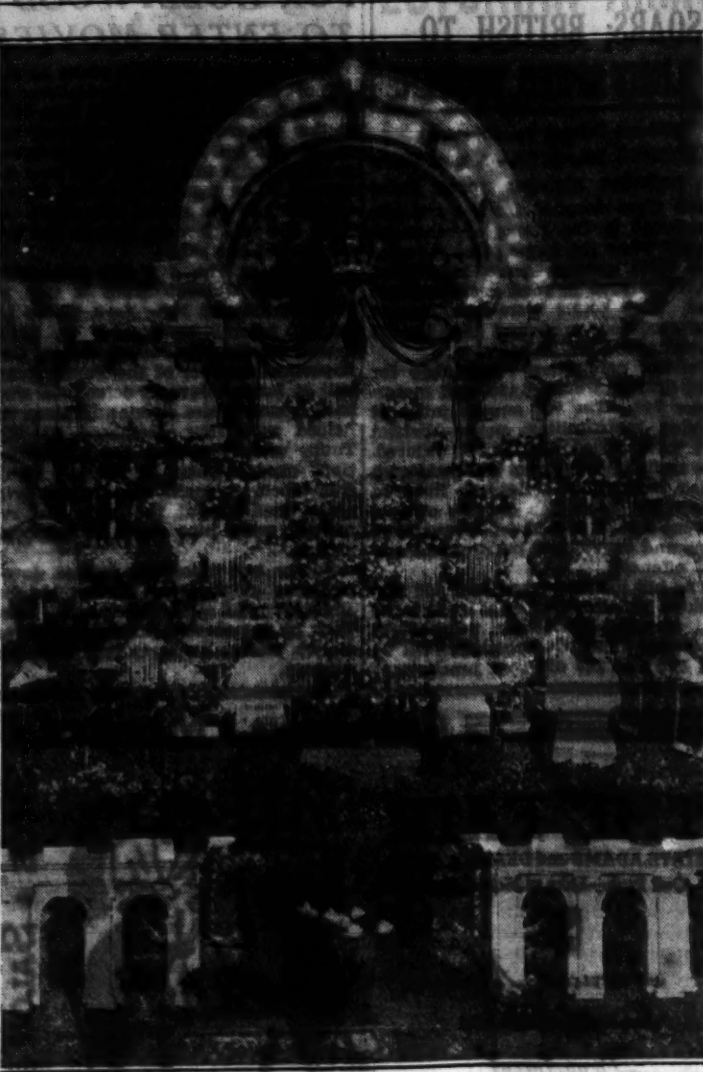

It is generally held that the institution of the sacrament of Holy Communion on the first Holy Thursday is the point, historically, where Judaism and Christianity both met and parted. The Last Supper is believed to have been the Seder or preface to the Feast of the Passover which will be observed by world-wide Jewry tomorrow night. The essence of the Passover is the perpetuation of human liberties, while in the mass a vicarious sacrifice is offered.

The grip on the religious imagination, held by Good Friday is constantly tightening. It not only holds Catholics, Lutherans, and Episcopalians, but Protestants of nearly every denomination. While the three hours' agony of Christ on the cross will be held in simple and informal dignity in all Catholic and Episcopal churches, the three hours' meditations recalling the same fact will be held in many Protestant churches.

At the Chicago temple, the annual Good Friday services of the three hours, beginning at noon, will represent the unity of 19 denominations and 850 churches in recognizing the period. The three hours' devotions were originated by a Jesuit priest in South America. For the past several years, through of three hour worshipers have overflowed the temple.

Schools Will Close.
Superintendent William J. Bogan of the Chicago public schools announced

Ready for Maundy Thursday Service

The repository of the Notre Dame church in Chicago decorated for Maundy Thursday service today. The church is one of the oldest in the city. (Kaufmann & Fabry Photo.)

yesterday the school board had approved the closing of the schools for the day. This action will permit thousands of children as well as their parents to participate in the special devotions. In addition to the services in the Chicago temple, several noon-day services in the loop will emphasize the Good Friday message. Bishop George Craig Stewart will preach at the Grand Opera house, Dr. Preston Bradley at the Erlanger theater, and Dr. Paul W. Rood, pastor of the Lake View Swedish Covenant church, will be the preacher at the Harris theater.

Chatterton-Brent Divorce
to Follow Separation

Hollywood, Cal., March 28.—(AP)—The separation announced Monday night between Ruth Chatterton and George Brent of the films will be made permanent by divorce, the Irish actor said today.

DRAKE ATHLETES
BOYCOTT CO-EDS
AFTER SQUABBLECriticized Their Table
Manners, They Claim.

Des Moines, Ia., March 28.—(AP)—Drake university athletes who wait tables in the girls' dormitory here are boycotting the co-eds whose meals they serve because the women have complained about their "table manners."

A score of boys, including most of Drake's performers at basketball and track as well as football, will now neither speak to a dormitory co-ed, nor will they dance with her.

It seems that there are enough fellows to go around—two to a table—so the men have been accustomed to sit at the tables with the girls at meal times.

All This Is Changed Now.
Relations previously were so happy that the men would come to work early and the girls, too, would come

down to the dining room early and they would dance after lunch and dinner. But that was before some of the girls reported that watching their athletes wait was quite destructive to any here worship on their part. The situation became so acute that a ballot was taken in the dormitory to determine whether the co-eds should request the discharge of all the men and their replacement by women. The proposition did not carry, so the men still have their jobs.

When the athletes heard of this move they, too, held a meeting. And since then the dormitory co-eds are in virtual "Coventry" as far as the waiters are concerned.

Object to Other Ales.
Eating meals together, day after day, people get to know each other as the boys tapping the girls lightly on head or shoulders as they passed around the tables, serving.

The co-eds said they didn't like that

idea, either, and their protests resulted in a lecture to the more persistent men offenders.

The men were told that they should keep their hands off the girls and should stop slapping them here and there.

Children's Home Given
15 Pound Easter Egg

Forty children from 4 to 14 years old, residents of the Home for Convalescent Women and Children, 1873 Washington boulevard, yesterday received with smiling faces a huge chocolate Easter egg, weighing fifteen pounds, presented by its creator, Cyrille Du Mout, pastry chef of the Stevens hotel. Proceeds of a card party to be held April 3 by the Sunbeam League of Chicago will go toward the maintenance of the kindergarten for these children and also for the upkeep of seven other similar institutions supported by the league.

JARECKI ORDERS 15% TAX CUT FOR 318,000 CITIZENS

Ruling Opens the Way for
Further Reductions.

[Continued from first page.]

granted on 1932 taxes, which is almost
certain to happen unless some appeal
is taken from yesterday's ruling and
Judge Jarecki is reversed, there will
be an additional revenue loss roughly
estimated at \$7,306,000.

The loss which the state and the
operating (corporate) funds of the
major local governments will suffer,
on the basis of a cut to the 318,000
objectors alone for 1931 and to all of
the 438,000 properties in the classes
affected for 1932, will be as follows:

	1931.	1932.
State	\$ 340,000	\$ 484,000
City corporate	972,000	1,050,000
County corporate	224,000	230,000
School educational	1,066,000	1,214,000
Sanitary district	116,000	130,000
South parks	63,000	71,000
West parks	45,000	44,000
Lincoln park	63,000	63,000

The various governments, of course,
long ago spent their 1931 and 1932
revenue, or anticipated it by selling
tax warrants and incurring salary
arrears and unpaid bills. The revenue
losses will therefore swell the deficits
which they must meet out of 1934 or
1935 budgets. It is likely that the
15 per cent cut may also be applied to
1933 and 1934 assessments, but since
taxes for those years have not been
extended, the revenue loss can be
avoided by increased tax levies or the
device of "pegged" levies.

Other Complications Loom.
The complications and delays which
loom as a result of Judge Jarecki's
ruling include the necessity of getting
out revised 1931 tax bills for the 318,
000 successful objectors, and of deter-
mining whether a similar cut shall be
granted for 1932 and subsequent years
of the quadrennial assessment period
which began with the 1931 reassess-
ment.

Judge Jarecki announced, following
his decision, that within a short time
he will invite the interested public of-
ficials to attend a conference to dis-
cuss these matters. While the mat-
ters admittedly are not within his
jurisdiction, he said, he feels that it is
his duty to seek every legal method of
eliminating delays in order to prevent
accumulation of new tax litigation in
his court.

County Assessor J. L. Jacobs, whose
office will have to initiate the work
of revising the 318,000 bills could give
no estimate yesterday as to the time
which will be required, but had his
staff making such an estimate. County
Treasurer McDonough announced that
taxpayers will be given thirty days to
pay after the revised bills are mailed.
Thereafter the usual penalty of 1 per
cent a month will apply.

More Serious Trouble Threatens.
A still more serious jam of the tax
collecting machinery is threatened by
the application of the cut to the 1932
bills, which are now being mailed, and
the assessments and bills for sub-
sequent years. While Assessor Jacobs
made a general 25 per cent cut on all
real estate assessments for 1932, this
was without regard to the 15 per cent
cut, which he has always refused to
enter on the assessment roll.

Therefore, proponents of the cut
assert that owners of homes and small
flat buildings are entitled to an addi-
tional cut of 15 per cent of their
building valuations for 1932. George
F. Nixon and Fred W. Brummel,
members of the board of tax appeals,
announced yesterday that they will
allow such a cut to all property own-
ers in the classes affected who file
complaints with their board.

Discarding the possibility of an ap-
peal from and a reversal of Judge
Jarecki's ruling, there is little doubt
that the board of appeals would be
sustained by the courts in ordering
the cut in 1932 bills. This would not
delay collection of the first instal-
ment of 1932 real estate taxes, now

TAX COLLECTIONS.

Real estate tax collections yesterday, in-
cluding those for 1932, were \$500,854,
making a total of \$134,169,583 collected
since enforcement of the Kerner-Skarda
act began on April 25, 1933. The day's
collection of real estate taxes and the
uncollected taxes for four years follow:

	1932.	1933.	1934.	1935.
March 29.....	\$ 41,964	\$ 90,900		
Uncollected.....	14,784,144	39,906,183		
March 28.....	\$ 86,113	\$ 90,345		
Uncollected.....	\$1,154,978	\$9,814,204		

The day's collection of 1933 real estate
taxes totaled \$500,854; of 1934 personal
property taxes, \$1,031, and of 1935 per-
sonal property taxes, \$304,218.

under way, since the statute provides
that adjustments by the appeals board
shall be applied to the second instal-
ment.

Mr. Nixon admitted, however, that
it would be impossible for the board
to receive and grant 438,000 com-
plaints, and for the assessor and other
county officials to enter the changes
ordered, without delaying, perhaps for
months, the second instalment collec-
tions for 1932, for which the statute
now sets July 1 as the deadline.

In his opinion upholding the cut
Judge Jarecki stated that it was his
belief that the assessment methods
of Assessor Jacobs had discriminated
against the "small man" not only in
the matter of the real estate assess-
ments directly concerned in the case,
but in assessments on vacant real
estate and those on personal property.

Mr. Bell amplified the same criti-
cism in his statement that State At-
torney Courtney would not appeal
from Judge Jarecki's ruling. He dis-
cussed the unofficial report of George
O. Fairweather, of the University of
Chicago, which recommended that
a cut be entered on personal property
schedules at 10 per cent of its full
value, and securities at 20 per cent
of their value.

Both Attorney Bell and Judge
Jarecki charged that large taxpayers
were allowed to file returns on the
basis of this report, but that small
taxpayers were not appraised of it
and filed their schedules listing cash
and securities at full value.

History of Tax Cut Suit.
The 15 per cent cut has a long and
complicated history. The board of tax
appeals first entered a blanket order,
early in 1933, requiring Assessor
Jacobs to make a 15 per cent reduction
in the base prices on which homes
and small flat buildings were assessed.
He refused. The state tax commission
held extended hearings on the matter,
and by a two to one vote ordered the
assessor to comply.

Assessor Jacobs still ignored the
order. The late Attorney Lester L.
Falk filed a suit on behalf of a tax-
payer, Kliner Fox Thomas, asking the
Illinois Supreme court for a writ of
mandamus ordering the board of ap-
peals to expunge its order.

The Supreme court first refused to
grant the writ. A rehearing was ob-
tained and after the personnel of the
court had been changed by the judi-
cial election last summer the court
held last October that the board of
appeals had no power to issue a blank-
et reduction order.

Board Enters Litigation.
The real estate board then entered
the litigation, and on behalf of 318,000
properties for which objections were
filed before Judge Jarecki asked that
the reduction be granted. It was
that case, one applying only to those
who filed objections, on which Judge
Jarecki ruled favorably yesterday.

Attorney Homer Cooper, who was
associated with Attorney Falk in the
Supreme court mandamus proceed-
ings, appeared in the real estate board
case as counsel for the New Trier
High School district, opposing the re-
duction. After Judge Jarecki ruled
yesterday, Attorney Cooper asked per-
mission to file a bill of exceptions, the
first step in an appeal, but said that
he was doing so merely to preserve
his record and did not know whether
his clients would order an appeal.

More Cook Co.
TAXES REACH
STATE TREASURY

Springfield, Ill., March 28.—(P)—
State Treasurer John C. Martin today
announced receipt of the second large
payment of 1932 general property
taxes from Cook county. He received
\$300,000 as general property tax for
1932; \$169,507.85 as 1931 and prior de-
linquent property taxes; \$75,000 as the
1932 general tax for Lincoln park
bonds, and \$27,761.61 as 1931 and pri-
or delinquent tax for Lincoln park
bonds. Last week Martin received
\$400,000 from Cook county.

BEGIN CAMPAIGN FOR LAWS TO CURB RECKLESS DRIVER

Meeting in Springfield to
Launch Action.

BY HAL FOUST.

Civic organizations throughout Illi-
nois are rallying for a new campaign
to urge adoption of drivers' license and
financial responsibility laws in the
next regular session of legislature, in
1935. Invitations have been mailed to
900 clubs, associations, and societies
asking them to join in the launching
of this war against reckless and ir-
responsible motorists at a mass meeting
to be held in Springfield within the
next 30 days.

The meeting is sponsored by the
newly organized Illinois conference on
highway safety legislation. Benja-
min P. Alschuler of Aurora, active in
the Fox valley federation, is president
and James E. Bulger, a director of
the Chicago Motor club, is secretary.
Others who launched the move include
C. L. Rice, former president of the
Chicago safety council, and Robert
Nau, representing the Chicago As-
sociation of Commuters.

Aim to Enforce Responsibility.
The drivers' license bill, under the
proposed legislative program, would be
designed mainly to enforce the
financial responsibility law. Features
of other license bills, which have been
successfully opposed in past general
assemblies—such as the creation of a
corps of officersholders supported by
new taxes—have been dropped from
the measure.

The responsibility act would sus-
pend the driver's license of any one
found liable for damages in an auto-
mobile accident suit and who failed
to pay the judgment within thirty
days after the judgment became final.
He must pay the judgment and give
proof of ability to pay damages for
any future accident before the license
is renewed. An insurance policy is
defined as evidence of future financial
responsibility.

"The responsibility act differs from
compulsory insurance," said Joseph
H. Braun, general counsel for the
Chicago Motor club, "in that it pro-
motes safety in traffic rather than
merely assuring compensation for vic-
tims of recklessness. An automobile
owner is not forced to buy insurance
until after he has been proved guilty
in a civil suit.

Curb on Reckless Drivers.
"Similar laws are in effect in
twenty-nine states and the District of
Columbia and have proved effective
weapons against wanton drivers whose
cars are of little value and who ap-
preciate that no judgment for dam-
ages could be collected from them."

Mr. Braun drafted similar bills in-
troduced in the 1932 general assembly
but lost in debates over the relative
merits of several drivers' license pro-
posals.

The responsibility act has been in-
dorsed by the Illinois American Le-
gion, the National Safety council, the
Chicago Safety council, the City club,
the Illinois Highway Users' confer-
ence, the Champagne Exchange club,
the Woodstock city council, the Chi-
cago Association of Commerce, the
Moline Junior Association of Com-
merce, the Quincy and Waukegan
Rotary clubs, the De Kalb, Streeter,
and Waukegan Kiwanis clubs, and
the De Kalb, Logan Square, North
Austin, Northwestern, Waukegan,
Woodstock, and Woodstock Triangle
Lions clubs.

The chambers of commerce of Sand-
wich, Mount Vernon, Ottawa, La Salle,
McHenry Park, Forest Park, East St.
Louis, Griggsville, Bloomington, Lin-
coln, and Champaign have been among
the first to respond affirmatively to the
invitations to the Springfield mass-
meeting where a campaign will be or-
ganized to push the legislation through
the next general assembly.

CONDUCTOR FALLS DEAD.
Harry White, 60 years old, a conductor for
the surface lines, fell dead from heart disease
on the rear platform of a street car yester-
day at Wabash and Armitage avenues as
he was collecting fares.

BROKER, TEACHER FOUND SLAIN IN BROOKLYN FLAT

Police Quiz Ex-Marine
in Mystery.

New York, March 28.—[Special].—
In a top floor Union street apartment
in Brooklyn a mysterious tragedy was
discovered today. Police found the
bodies of a man and a woman, each
with a bullet through the heart.

The dead man was Thomas G. R.
Pierston, 58, president of the T. G. R.
Pierston Insurance company. The
woman was Marguerite Biederbeck, 43
year old teacher in a Manhattan pub-
lic school.

The police were notified when Frank
Hanlon, 39, a former lieutenant in the
United States marines, who saw serv-
ice with Pierston in China, in 1911, re-
ported the bodies. Hanlon, who shared
the three room apartment with Pier-
ston, was examined by detectives and
by District Attorney William F. X.
Geoghan.

Reporters Notify Wife.
Mrs. Anna Pierston, the dead man's
widow, learned of his death from news-
paper men at her home in Cambridge
place, Brooklyn, where she lives with
her aged parents. She denied she and
her husband were estranged and in-
sisted that they were "devoted" to
one another.

The body of Miss Biederbeck was on
a wall in the living room of the
apartment, only partly clad, an unlit
cigarette between her lips, the body of
Pierston, in a pajama coat, was lean-
ing against the wall between the
kitchen and the living room of the
apartment.

About five feet from the bed, on the
floor, lay an old service pistol with
two of its bullets discharged. It was
the distance of the weapon from the
bed which led Dr. M. E. Martin, medi-
cal examiner for Brooklyn, to order
the case investigated as a double homi-
cide rather than as a murder and
suicide. Both shots were fired at close
range apparently, for the fatal
wounds of the man and the woman
were ringed with powder burns.

Veer to Original Theory.
After hours of questioning Hanlon,
the authorities seemed to be veering
to the theory of murder and suicide.
This was after Mrs. Pierston had iden-
tified the murder gun as her husband's
and Ella Troutman, his secretary, had
disclosed that her employer, worried
over business reverses, recently had
talked of suicide. The revolver was
being examined tonight for finger-
prints.

Hanlon said it had been agreed Miss
Biederbeck should sleep there instead
of returning to her room at the Hotel
St. George. He insisted he had heard
no shots. Upon awakening, he said,
he noticed a bullet hole in the kitchen
wall and saw a bullet lying on the
kitchen table. Opening the door from
the kitchen to the living room, he
said, he saw the two bodies and not-
ified the police.

MOTOR DEATH TOLL SOARS; BRITISH TO LIMIT SPEED, DRIVERS

[Chicago Tribune Press Service.]

LONDON, March 28.—A new traffic
bill restoring highway speed limits
which were dropped for a year was
introduced in the house of commons
tonight when the home office revealed
that 7,202 persons were killed and
215,238 injured in road accidents last
year. The totals were the highest
ever recorded, exceeding 1932 by 635
deaths and 9,878 injuries.

Private cars were responsible for
2,187 deaths, trucks 1,418, and motor-
cycles 940. The 700 square miles of
London metropolitan police district
had 1,441 killed and 58,253 injured.
The traffic bills restores the maximum
speed limit of 30 miles per hour in
towns, the imposition of tests on new
drivers and a system of disqualifica-
tions and convictions on first and sec-
ond offenses.

The bill institutes penalties for jay-
walkers and creates special traffic lanes
and crossing places for pedestrians.
No fewer than 270 crossings will be
laid down at 100 different junctions.

FACTOR LEAVES FOR HOLLYWOOD TO ENTER MOVIES

John Factor boarded a plane at the
Airport last night to go to Hollywood,
where, he said, he will take part in a
motion picture which will portray his
career and his harrowing experiences
as a victim of kidnapers. He was ac-
companied on the trip by Sgt. Harry
O'Connell of the state's attorney's po-
lice. His son, Jerome, was at the air-
port to see him off.

Earlier in the day the speculator
arrived in Chicago from a trip to
Washington and New York where he
helped federal authorities in their
search for Frank (Porky) Dillon, last
important member of the Touhy gang
still at large. Several detectives who
have guarded him constantly since he
helped send four members of the
Touhy gang to prison for his abduction,
except when he slipped away from
them to make the eastern trip
alone, met him at the train and re-
mained with him until he left the
airport.

Factor has repeatedly turned down
offers to go into the movies but he
admitted that while he was in New
York he negotiated with executives of
motion picture concerns regarding the
venture.

For your old
Coffee pot

toward the purchase of this Silex Coffee Maker

To make plain the many ad-
vantages of Silex electric coffee
makers—made of Pyrex glass—
we are authorized to make
this liberal trade-in allowance

This is the way to make
good coffee every time:

- 1 Fill the lower bowl with water. If you are in a hurry, use hot water.
- 2 With the strainer in position, spoon finely-ground coffee into the upper bowl. Use one level tablespoonful per cup and "one extra for the pot." A greater or lesser amount will vary the strength to suit your taste.
- 3 Turn on the current. The water rises from beneath to the upper bowl. Then stir with a spoon.
- 4 Turn off the current. This creates a vacuum in the lower bowl which draws the brew down through the strainer. Exclusive Silex quick-cooling stove takes care of this automatically.
- 5 Remove the upper bowl, and serve amber-clear, delicious coffee directly from the lower bowl.

Don't stop with outward precautions against exposure

build up your
resistance also!

Of course you can't afford to
neglect such outward precau-
tions as wearing your raincoat
and rubbers, carrying an um-
brella, keeping bundled up well.

But neither can you neglect
the inner defense against ex-
posure which is so important at
this season. Good general re-
sistance!

Today many people are trying
a new means of helping them-
selves stay well. They take daily
precautions to keep their resis-
tance built up and keep them-
selves in good physical condition.

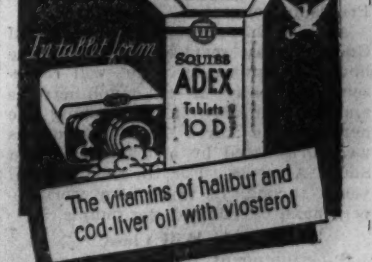

Why not follow their practice?
Try building up your general re-
sistance. Begin to take Squibb
Adex Tablets!

Squibb Adex are a concen-
trate of the resistance-building
factors in halibut and cod-liver
oils and Viosterol! They have
the same building-up effect as
the vitamins in the oil, but they
are easy, pleasant to take.

Each tablet provides you with
1500 units of Vitamin A, 2450
units of sunshine Vitamin D.

Start with Adex now and keep
it up regularly every day.

Get them at any good drug
store. But be sure to insist on
Adex! The only tablets made
from three important vitamin
sources—prepared exclusively
by E. R. Squibb & Sons, man-
ufacturing chemists since 1858.

The Secret of a Clear Skin
DAILY USE OF
Cuticura Soap

Before retiring wash the face freely
with hot water and Cuticura
Soap, using plenty of Soap, usually
best applied with the hands.
Rinse with tepid and finally with
cold water. Containing medicinal
and healing properties, Cuticura
Soap acts as a protection against
skin troubles.

FRANCE HINTS AT RED PLOT TO KILL U. S. SPY COUPLE

Decides to Keep Them in
Jail as Safeguard.

BY EDMOND TAYLOR.
[Chicago Tribune Press Service.]
PARIS, March 28.—The hopes of America's collegiate spies, Mr. and Mrs. Robert Gordon Switz, who are officially described as "harmless prisoners," that their troubles were nearly over were blasted today.

Although admitting that they had supplied information which led to the breaking up of the most dangerous spy ring France has known since the war, the examining magistrate, Andre Benon, today turned down a petition filed by Attorney Klotz, in behalf of his two clients, for their release.

Fears Attempt on Lives.

This unexpected severity, which contrasts strangely with the indulgent references to the Switzes in the conversation of judicial and police officials, is attributed by some well-informed observers to benevolence rather than sternness.

It is suggested that the Switzes are France's star witnesses in the spy case and that France does not want to take a chance on losing them. Judge Benon made it pretty clear that he thought jail the safest place of the couple of amateur spies when he offered as his only explanation for the unexpected decision:

"If I let my star witnesses out of jail and anything should happen to them, where would my case be?"

Moscow has a long arm and many other spies who have tried to save their own skins by betraying the gang have found that it does not pay.

Expect Developments in U. S.

The French are especially anxious to avoid having anything unpleasant happen to their prisoners at this moment, because sensational developments are expected from the American side.

"I am working for the United States," Benon said, raising enigmatic eyebrows.

He refused to clarify the reference further, but one of the secret service men who directed most of the operations against the gang revealed that American police had been put on the trail of a "Mr. Paul," which, it appears, is the name of a Russian author who induced Switz into the gang and is supposed to be the head of the Soviet espionage system in America.

Switzes Appear Unworried.

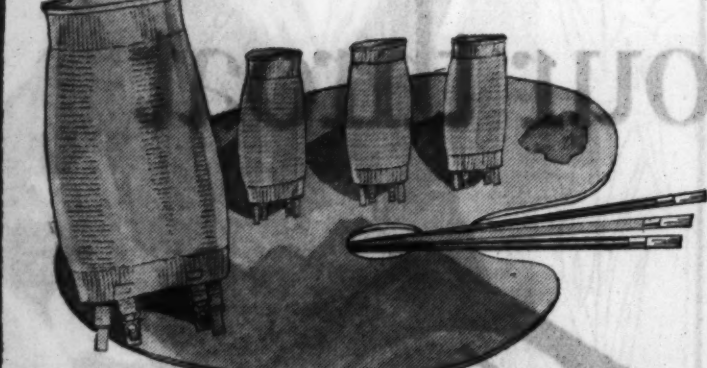

The Switzes, who were taken into the judge's chambers for the formality of identifying some of their papers, did not seem worried about the situation. Mrs. Switz sat in a chair grinning broadly across the room at her husband while waiting for the judge. They had time for a couple of clinches in the best Hollywood manner, but were not left quite so pointedly alone as they were the other day by the gallant French guards.

Husband Abducts Children; Court Orders His Arrest

A contempt citation and an attachment for his arrest were issued by Judge Rudolph Desmet yesterday against Robert Cloonan, who is charged by his wife with having abducted two of their three children, while her bill for divorce was pending. Following the filing of the bill by her lawyer, Norman Becker, Mrs. Cloonan who lives at 1815 North Loma avenue, was given temporary custody of Robert Jr., 8 years old; Jean, 6; and Matthew, 2. Robert and Jean are with the father.

Another Dictatorship

Arrow points to republic of Estonia, which yesterday went under an anti-Nazi dictatorship headed by Gen. Laidoner, commander in chief of the army.

SPENDS 22 HOURS IN DESERT WELL; HOME TO TELL IT

New York, March 28.—[Special.]—Jan MacFarlane, who spent 22 hours at the bottom of an ancient well in the Syrian desert, and lived to tell the tale, came home today on the French liner Champlain. He is the 32 year old son of a Chevy Chase, Md., attorney and a student of international politics.

He and his brother, William MacFarlane, who came home last month, attempted to cross the 613 mile desert on bicycles, as part of a 12,000 mile tour of Europe and the near east, which they recently completed.

A sandstorm came up and we lost our way," he explained today. "We wet our handkerchiefs and put them over our faces, and in doing so used up all of our water. We were lost for 48 hours, and I was getting a little delirious, when we came across some ancient water pits.

"Being light-headed in my thirst, I jumped down one of the wells. It was about 85 feet to the level of the water, and it was stagnant water at that.

"After an hour of treading water I shouted good-bye to my brother. When I thought I couldn't stay afloat any longer I found a tiny ledge and by shifting hands I lasted for 22 hours."

William had quenched his thirst with water drawn from a well in a pouch and had then sought help. He stumbled on a camp of Bedouins who rescued him.

PROFESSOR ASKS VOTES FOR ACT TO UNIFY PARKS

Support of the park consolidation act when it is submitted to the voters on April 10 was urged last night by Prof. Peter T. Swenish of the department of economics of Loyola university at a meeting of the Chicago park district campaign committee in the Palmer house. John C. Bowers is chairman of the committee, Bernard E. Sunny, treasurer, and Douglas Sutherland, secretary. E. O. Griffenhagen, consultant on public finance to the Schnackenberg legislative committee, also spoke in favor of the proposal.

"If we are to move in the direction of sound government we must abandon the idea that government exists for the sole purpose of creating jobs for political hangers-on," Prof. Swenish said.

"Adoption of this act, a vote of yes for consolidation, will simplify our higgaw puzzle of local governments. It will give us one park board to watch instead of twenty-two, as at present. It will limit new park borrowing to 1 1/2 per cent of the taxable value of property of the district, instead of the present 5 per cent. The consolidation will reduce the heavy overhead costs which are now imposed on taxpayers by the multiplication of park administrations."

DILLINGER'S "DOUBLE" SENTENCED.
Rochester, Minn., March 28.—(AP)—Frank D. Carpenter, known as John Dillinger's "double," today pleaded guilty to a first degree robbery charge and was sentenced to 5 to 10 years in prison.

COMMANDER OF ESTONIAN ARMY MADE DICTATOR

Announces Nazism Will
Be Barred.

[Chicago Tribune Press Service.]
RIGA, Latvia, March 28.—(AP)—Months of political unrest in Estonia, Baltic nation of 1,120,000 inhabitants, have culminated in a dictatorship, according to advices today from Tallinn, the capital.

Gen. Johan Laidoner, commander in chief of the Estonian army, and known as "Estonia's George Washington," has assumed supreme authority with the agreement of the president and parliament.

His first public act was to announce: "In 1924 I promised to bar communism in Estonia. Now I shall not permit Nazism to gain a foothold." Conditions have become normal, Laidoner declared, since the suppression March 13 of an attempt by former soldiers to seize the government. The rebels modeled their organization after German Nazis and communists, principles, Gen. Laidoner said.

Indicating that Estonia's foreign policy will remain unchanged, Laidoner declared that cooperation with Poland and other Baltic states will continue. Small countries must cooperate in an era of large armaments among greater powers, he said.

In permitting the general to assume dictatorial powers Prime Minister Constantine Pasts and his cabinet transferred authority granted Pasts Jan. 24. At that time, in accordance with a plebiscite, the prime minister assumed the functions of the presidency until he could be officially elected. He was empowered to issue laws by decree, veto any laws of the parliament, and dissolve the parliament.

The plebiscite provided for direct election of a president and for reducing the members of parliament from 100 to 50.

Fear of the Nazi growth was expressed as early as Nov. 5, when it was charged that a vigorous propaganda campaign sponsored from Berlin was under way.

PAIR ARRESTED IN \$3,200 BOOK CONCERN THEFT

Sidney F. Brown, 35 years old, 7451 Bennett avenue, a lawyer who has offices at 160 North La Salle street, and Eugene Kaufman, 31 years old, 7116 Clyde avenue, collection manager for the Bookhouse for Children, 390 North Michigan boulevard, were arrested yesterday by Sergs. Roy Van Herik and Arthur Wachholz of the detective bureau in connection with the theft of \$3,200 in tax anticipation warrants, money orders, and currency from that book concern.

Herik M. Woldenberg, 7126 Bennett avenue, who is the proprietor of a cigar store on the south side, was arrested two weeks ago when he tried to cash \$1,600 worth of tax warrants which had been stolen from the company.

EXONERATE DRIVES IN DEATH.
Metropolis, Ill., March 28.—(AP)—A coroner's jury today exonerated P. M. Stump Jr., of Chicago, of blame in connection with the death of Calvin Thomas, 40, a Negro, who was killed when he ran in front of Stumper's automobile near Mermet last night.

Stump, 38, was driving a car when he struck Thomas, who was walking across the street. Stump was driving at a speed of 15 to 20 miles an hour.

HASSELL'S PLUS VALUE MEN'S SHOES

For Easter
\$3.95

To help Chicago men keep down expenses, we made a special effort this Spring to produce something extraordinary in shoes of dependable quality and finer workmanship at popular prices. PILES

Reduced without surgery!

Suffer no more! Here's real relief at last for all forms of Piles—Bleeding, Itching and Protruding. Pile Ointment does all the things necessary, in the manner necessary. First, it soothes, calms the soreness and inflammation. Second, it heals, repairs the torn tissue. Third, it shrinks—dries up excess mucus and reduces the swollen blood vessels which are the cause of the trouble.

SERBIA CONDEMNS THREE TO DIE IN PLOT TO KILL KING

Three Other Croats
Seized in Vienna.

[Chicago Tribune Press Service.]
VIENNA, March 28.—Following death sentences passed today in Belgrade, Yugoslavia, against three Croats convicted of plotting to assassinate King Alexander I., three other Croatian immigrants were arrested here today at the request of the Yugoslavian government in connection with the plot.

The attempt on the king's life occurred Dec. 16, when Alexander was in Zagreb. Rumors of it were at that time denied as baseless. When the three doomed men were arrested, it was announced they were held in connection with the slaying of a detective.

Trials Armed with Bombs.

The trio will be hanged. Testimony indicated that they had intended to kill the king upon his arrival at Zagreb, and had armed themselves with bombs and a revolver. One of the trio was near the king, but delayed his attack too long and was nabbed by the police before he could act.

Alexander shortened his stay as a result of the plot.

Alexander, who became regent in 1914 and ascended the throne in 1921, abolished the constitution and dissolved parliament in 1929. Since then he has ruled as a despot. A new constitution was promulgated on Sept. 3, 1931.

Croats Fight Dictatorship.

The Croats have opposed the dictatorship of King Alexander, but the movement for a reform which would grant local self government without destroying the unity of the kingdom has found support among all groups, including Croats, Slovenes, and Serbs.

The aged Croat leader, Ante Trumbich was arrested in the spring of 1933 in the king's police measures against the reform movement. Trumbich had been one of the founders of the kingdom.

MURDER SUSPECT KILLED RESISTING ARREST AT BAR

Los Angeles, Cal., March 28.—(AP)—Three weeks' search for Glenn Harmon, ended today with his death in a gun battle. He was sought by Carthage, Mo., authorities in connection with the slaying of B. L. Van Hoose, retired capitalist. Harmon was shot to death in a crowded beer parlor after resisting the attempt of Detective Lieutenant A. B. Strongwald to arrest him.

The police were informed of Harmon's presence here by Byron Wolff, 19, another suspect in the Missouri murder, arrested in an attempt to rob a tailor shop.

In the tussle with the detective Harmon drew a revolver and fired twice, both shots going wild. His weapon jammed and Strongwald drew his own pistol, firing seven bullets into Harmon's body.

Harmon's brother, L. B. Harmon; Charles L. Napper and Victor Powell are held by Missouri authorities in connection with the Van Hoose death.

Attorney Ordered to Pay
\$5,000 for Auto Fatality

Henry I. Sternberg, an attorney with offices at 127 North Dearborn street, was ordered yesterday by a jury in the Superior court of Judge Paul McWilliams to pay damages of \$5,000 to the estate of Mrs. Alice Schoenaling, 125 North Kilbourn avenue, whom he fatally injured with his automobile at Washington boulevard and Kilbourn avenue on Jan. 20, 1933.

ASK TEMPORARY SLASH IN RATES FOR ELECTRICITY

Arguments in favor of temporary reduction of rates charged to electric consumers by the Public Service Company of Northern Illinois were completed yesterday before the Illinois commerce commission by Attorney Irvin Rooks and Harry R. Booth, Attorney Harry J. Dunbaugh, representing the utility company against the proposed reduction today.

The motion for the temporary cut in rates was made by Attorneys Rooks and Booth, who are counsel for the commission, under a new law providing that such a temporary reduction may be granted if the investigation leading to a permanent rate change is to last longer than 120 days.

Claims of the Public Service company for a valuation for rate making purposes of \$100,000,000, as well as the rate of return demanded by the utility, were attacked by the commission lawyers. Instead of 7 per cent on \$100,000,000, they asserted that 6 per cent on \$125,000,000 would be the fair earnings of the company, which serves most of Chicago's suburbs.

SPANISH STRIKE SUBSIDES UNDER MILITARY ORDER

[BARCELONA, Spain, March 28.—(AP)] A revolutionary general strike which began here today under the auspices of syndicalists and socialists apparently petered out tonight when strikers decided to resume work. The strike subsided under governmental precautions taken to support a state of alarm, slightly less severe than martial law.

Extremists and strikers said the movement was in protest against ill treatment of laborers imprisoned during recent disorders. A few hours before the movement began here the cabinet in Madrid decided to push a bill through parliament reestablishing the death penalty for armed assault and robbery, bombings, and sabotage against public works.

In other parts of the country there were instances of disorder. In Barcelona four gunmen robbed a drug store collector of \$1,650. In Granada a group of persons raised a Fascist flag over a statue of Christopher Columbus. Newspaper and metal workers went on a strike at Palma, Mallorca.

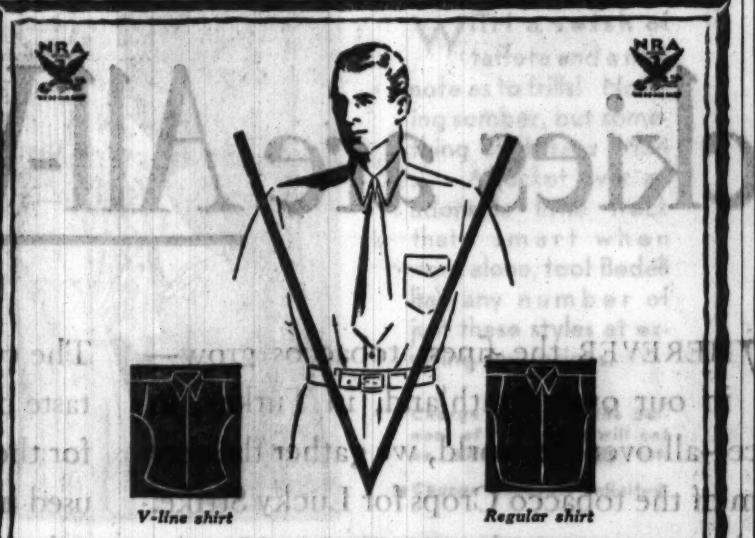

Fellows! here's the style and value opportunity of the whole Easter season

EUROPE PLANS TO INVITE U. S. INTO SECURITY TREATY

Britain and France Ready to Make Proposal.

BY EDMOND TAYLOR.
(Chicago Tribune Press Service.)
PARIS, March 28.—The American embassy here looks for a Franco-British move within the next few days which will offer to Washington an arms convention in return for American adherence to a security pact.

Great Britain and France are rapidly nearing an agreement on the form of this pact, it is understood. A report received at the Quai d'Orsay here today on the conversation yesterday of the French ambassador to London, Charles Corbin, with the British foreign secretary, Sir John Simon, indicates that only one basic point remains to be cleared up.

Debate Nature of Sanctions.
This point is the nature of sanctions to be taken in case the arms convention is violated—whether they should be confined to an economic blockade or would include military measures, and if so, how military.

What the European powers will ask of the United States is whether it still stands by an offer made in President Roosevelt's name by Norman Davis at Geneva on May 22 last year. In this declaration, the United States pledged itself to consult with other nations in case of a threat to peace, and, in case it agreed with a majority decision as to which was the aggressor state, to relinquish all neutral rights that might compromise collective sanctions against that state—in other words, to join more or less actively in an economic blockade against the aggressor.

If the United States still stands by this offer, it is eligible to a sort of associate membership in the security club which the Europeans are now trying to organize. This means that the Geneva arms conference will go on—though not necessarily at Geneva—with the main obstacle in the path of a convention removed.

The Catch in the Offer.
The catch is that Davis' acceptance of a consultative pact was conditioned upon European disarmament. There is now no question about disarmament. An agreement has virtually been reached among all European powers that the only kind of a convention possible is a convention limiting armaments to their present levels. According to the French point of view, this already constitutes disarmament, because Germany's arms are above the treaty levels.

Therefore, the French are a little uncertain as to how the United States, which for years has turned down attempts to invite it into a security pact in return for disarmament, will feel about a security pact with disarmament. Failure of this pact would lead to an armaments race and inevitably to war, and the French hope that this threat will influence the American decision.

It is understood that a certain amount of unofficial sounding out of American opinion has been going on. Regarding the joint move in Washington which the American embassy anticipates, French semi-official sources are dubious. In any case, it is sure that the lead would have to be taken by the British, even if the French tagged along.

Embassy "Paves the Way."
What definite information the embassy bases its anticipations upon could not be learned. The only explanation was that such a maneuver was "in the air" in order to prepare American correspondents for the news, the press bureau of the embassy prepared mimeographed sheets containing the essential excerpts from the Davis speech of May 22.

From French circles, it was learned that security negotiations with the British, following the latest French memorandum, are rapidly narrowing down to the points at issue, and the views of the two governments now show little divergence—probably less than at any time since the signing of the Locarno pact.

The conversations now are directed at limiting each nation's security obligations to a well defined geographical area. In other words, the British might consent to a security guarantee in western Europe, but not as between Japan and Russia. The French government accepts this principle.

Japs Hold British Teacher for Communistic Activities

(Copyright: 1934. By the New York Times.)
TOKIO, March 28.—W. M. Bickerton, a British teacher in the Tokio First high school and author of a scholarly study of Japanese poetry published last year by the Asiatic Society of Japan, has been detained by police for an investigation of alleged communistic activities. Technically, he was not arrested, but he has been incarcerated for several days at a police station. The British embassy is watching the case.

ITALY THREATENS TRADE REPRISALS AGAINST HITLER

Angered by Nazi Ban on Raw Materials.

BY DAVID DARRAH.
(Chicago Tribune Press Service.)
ROME, March 28.—A warning was given to Germany today that it could expect trade reprisals in return for the action of the German government last week in putting new restrictions on imports of raw cotton, hemp, jute and linen.

These new German control measures over imports of raw materials specially hit the United States, with its cotton, and Italy, with its hemp and linen.

It was said here tonight that Italy would study the new German trade restrictions carefully, and "would take adequate and timely measures to protect itself." That means counter restrictions on German products.

Fear Extension of Policy.
It was pointed out here that Italy had sold 35,000,000 lire (currently about \$3,001,250) worth of hemp to Germany in the last year, which will be hit by the new measure.

It was said here that what is feared most is that the new German control system and monopolizing of trade will be extended to other raw materials and finished products.

Although contingent systems have been adopted here, from the views expressed tonight Italy seems to be coming around to the view that it does no good in the long run to reduce your adverse trade balance by restricting imports, because in so doing

you are only killing off the possibility of exports at the same time. Some papers tonight appear to be indignant at too much "repressive management" of foreign trade. This strikes a new note and apparently indicates new tendencies about commercial policy.

Push Farm Production Plan.
ROME, March 28.—(AP)—To make Italy as self-sustaining agriculturally as possible, the National Research council pressed forward today a comprehensive program of experiments to increase production.

Such widely varying studies as the electrical treatment of seeds and the exact relation between nutrient and man's capacity for work are embraced in the investigations.

Already success has been claimed

in an effort to bring wheat production up to the level of consumption and, said Guglielmo Marconi, the inventor, who is president of the council, a satisfactory conclusion is in sight for the related activities.

Tells of 3,000 Experiments.
The treatment of seeds by electricity, Marconi said, has been tried on a wide scale to enhance their productivity. More than 3,000 individual experiments have been carried out in this field under the direction of the council.

Investigations into the possibility of raising medicinal plants, he reported, have led to the assurance that in many instances Italy can cease importing drugs and become an exporter.

Scientists engaging in the council work have formed a chain of 12 university laboratories to study the food values of various farm products and find new uses for them.

New agricultural communities, such as Littoria, which Premier Mussolini has created on reclaimed swamp lands, have been put at the disposition of the council for research purposes among their thousands of inhabitants.

Britain Sends Troops to Protect Mine in China

(Copyright: 1934. By the New York Times.)
SHANGHAI, March 28.—The tense situation among the striking miners at the Kailan coal properties at Tangshan, north of Tientsin, has resulted in the sending of fifty British soldiers there from Chinwangtao. The foreign mine officials and engineers have sent their wives and families to Tientsin for safety. The men, who are remaining, are arming themselves. The striking miners are perfecting a military organization thousands strong and the union leader has assumed the title of commander.

TEACHERS URGE OUSTER OF N. Y. MEDICAL CHIEF

New York, March 28.—(AP)—The dismissal of Dr. Emil Altman, chief medical examiner of the public school system, who said Monday that approximately 1,500 of the city's 36,000 teachers were mentally or emotionally unbalanced, was demanded by a group of teachers tonight.

A resolution calling for his ouster was adopted unanimously by 200 dele-

gates representing 8,500 members of the Kindergarten-13 Teachers' association at their monthly meeting.

Mrs. Johanna M. Lindorf, president of the organization, declared the teachers' union had 39 affidavits last September which alleged Dr. Altman had been rude while examining teachers.

In another resolution the group urged the state medical society to inquire into Dr. Altman's fitness as a physician.

PAIR ROB LAUNDRY DRIVER.

Two women yesterday held up Donald Threlkell, 25 years old, 6421 South Claremont avenue, in the rear of the Draper Laundry, 632 East 43d street, where he is employed as a driver, and robbed him of \$266.

PARAGUAY'S TROOPS PUSH AHEAD; PERIL BOLIVIA'S MAIN POST

(Chicago Tribune Press Service.)
ASUNCION, Paraguay, March 28.—Paraguayan forces captured 1,000 Bolivian troops and considerable supplies in the Canada Tarija area today and moved on in the direction of Villamontes, Bolivia's general headquarters city.

Today's engagement was a surprise, for Bolivians were expecting an attack near Ballivian on the Pilcomayo river. Canada Tarija is on the Camacho-Paucarpata road and is little more than 150 miles directly east of Villamontes. Canada Tarija is considerably north of Ballivian.

The move indicated that Paraguayans intended to drive the Bolivians completely out of the Chaco.

Some papers tonight appear to be indignant at too much "repressive management" of foreign trade. This strikes a new note and apparently indicates new tendencies about commercial policy.

HOUSE TO CALL
WIRT AND MANY
OF BRAIN TRUSTRules Committee Plans a
Wide Inquiry.

Chicago Tribune Press Service

Washington, D. C., March 28.—(Spe-

cial.)—Some, and perhaps all, of the

renowned Roosevelt "brain trust"

may be haled before a committee of

congress within a week for an ac-

counting of their activities in key

positions in the administration.

The rules committee of the house

it was learned today, has decided to

summon to Washington at once to

name the man or men who told him

that President Roosevelt is merely the

"Kerensky of this revolution" and

that the radicals within the adminis-

tration are seeking to foster a revolu-

tion by prolonging misery and destitu-

tion in this country.

May Call Entire Group.

Whatever member of the brain

trust he names, it was understood,

will be summoned before the commit-

tee for an explanation, and indica-

tions were that the entire group of

so-called "young liberals" will be

called to testify before the inquiry

in coming days.

Republican members of the house

were determined today that the in-

quiry will not be confined to the Wirt

allegations alone, despite an apparent

desire on the part of Democratic lead-

ers to narrow the investigation's scope.

Democratic members of the house

were making an effort to confine the

inquiry to the allegations made by the

Gary educator alone. Under pressure

from Republicans, however, it was

agreed by the Democratic leaders that

the men named by Dr. Wirt will have

to be called.

"Brain Trust" Calls It Joke.

Members of the "brain trust" con-

tinued to treat the entire matter as a

laughable one, suggesting that Dr

Wirt had been the victim of a mischiev-

ous practical joke by a mischievous

member of the radical groups. There

were several different stories current as

to the origin of the Wirt allegations, one

version having it that the Gary edu-

cator mistook a newspaper man in

New York for an official of the admin-

istration.

At least one of the better known

"young liberals," however, evidenced

some concern at the prospect of a

summons to testify before the house

committee. It would just take up a

lot of his valuable time, he pointed

out, time he wanted to devote to the

administration's recovery program.

Sees It As Campaign Material.

Before the rules committee, at the

hearing on his resolution, Representa-

tive Alfred L. Bulwinkle (Dem., N. C.)

apprised his fellow Democrats of the

possibility that Republicans would

find excellent campaign material in

the Wirt charges unless they are in-

vestigated at once.

"I take no stock in this talk of

revolution," said Mr. Bulwinkle, "but

if there are men in the government,

as Dr. Wirt charges, who are trying to

prolong suffering and destitution in

the United States, I think it should be

investigated by congress."

Interrupting Representative Adolf

J. Sabath (Dem., Ill.) observed:

"I think this man Rand, who pre-

sented the Wirt memorandum, is one

of the heads of a great propaganda

organization. They are fighting the

stock exchange control bill and the

Dr. Wirt Denies He Heard
of 'Revolt' in Warm Springs

Dr. William A. Wirt, Gary educator,

yesterday denied a story given cur-

rency in Washington and New York

to the effect that he had received his

information on the allegedly forthcom-

ing "revolution of the brain trust"

from two radicals at Warm

Springs, Ga., in November of 1932.

The story sprang from reports that

at that time Franklin D. Roosevelt,

then President elect, had granted an

interview to the two radicals, and that

during this interview one of them,

George W. Christians of Chattanooga,

Tenn., had characterized Mr. Roose-

velt as "the Kerensky of this revolu-

tion." According to the reports,

the incident took place in the presence

of Prof. Raymond Moley and Marvin

McFadyen, one of Mr. Roosevelt's sec-

retaries.

Dr. Wirt Makes Denial.

Dr. Wirt said yesterday that he had

been in Warm Springs about that

time but declared he had not met

Christians there. He spent a few

days in Washington at once to

name the man or men who told him

that President Roosevelt is merely the

"Kerensky of this revolution" and

that the radicals within the adminis-

tration are seeking to foster a revolu-

tion by prolonging misery and destitu-

tion in this country.

May Call Entire Group.

Whatever member of the brain

trust he names, it was understood,

will be summoned before the commit-

tee for an explanation, and indica-

tions were that the entire group of

so-called "young liberals" will be

called to testify before the inquiry

in coming days.

Republican members of the house

were determined today that the in-

quiry will not be confined to the Wirt

allegations alone, despite an apparent

desire on the part of Democratic lead-

ers to narrow the investigation's scope.

Democratic members of the house

were making an effort to confine the

inquiry to the allegations made by the

Gary educator alone. Under pressure

from Republicans, however, it was

agreed by the Democratic leaders that

the men named by Dr. Wirt will have

to be called.

"Brain Trust" Calls It Joke.

Members of the "brain trust" con-

tinued to treat the entire matter as a

laughable one, suggesting that Dr

Wirt had been the victim of a mischiev-

ous practical joke by a mischievous

member of the radical groups. There

were several different stories current as

to the origin of the Wirt allegations, one

version having it that the Gary edu-

cator mistook a newspaper man in

New York for an official of the admin-

istration.

At least one of the better known

"young liberals," however, evidenced

some concern at the prospect of a

summons to testify before the house

committee. It would just take up a

lot of his valuable time, he pointed

out, time he wanted to devote to the

administration's recovery program.

Sees It As Campaign Material.

Before the rules committee, at the

hearing on his resolution, Representa-

tive Alfred L. Bulwinkle (Dem., N. C.)

apprised his fellow Democrats of the

possibility that Republicans would

find excellent campaign material in

the Wirt charges unless they are in-

vestigated at once.

"I take no stock in this talk of

revolution," said Mr. Bulwinkle, "but

if there are men in the government,

as Dr. Wirt charges, who are trying to

PRESS OF EUROPE
FAR FROM FREE,
DR. BUTLER SAYSBlames Politics, Makers
of War Weapons.

New York, March 28.—(Special.)—

Dr. Nicholas Murray Butler, president

of Columbia university, returned from

Italy today on the Italian liner Rex.

In a statement issued by the Carnegie

Endowment for International Peace,

which he directs, he asserted that the

"destruction of the freedom of the

press is the most sinister sign in the

world today."

Rome, Dr. Butler said, is again be-

coming the capital of the western

world. He also found that Mussolini

has an increasingly firm grasp upon

international problems and a greater

sense of his own responsibilities.

Foreign Press Controlled.

In his comment on the censorship

of the press abroad, Dr. Butler did not

except the newspapers of Italy and

Paris. The provinces of France, he

said, had a free press. Holland, the

Scandinavian countries and a few

other places in Europe do not control

their newspapers. In all other places

he intimated, including London, Paris

and Rome, the newspapers are influ-

enced either by the governments or

by selfish interests, notably armament

manufacturers.

"It can be said that in continental

Europe itself an instructed and com-

petent public opinion is made impossi-

ble by the fact that except in Holland,

Scandinavia, the provinces of France,

and parts of Belgium and Switzerland

there is no freedom of the press," he

said. "Everywhere else the press is

either censored by governmental au-

thority or controlled by the huge and

thoroughly organized armament and

munition makers."

Says People Are Fooled.

"It is this fact which prevents vast

numbers of highly intelligent and re-

sponsible people from knowing what

is really going on in the world or

what is really being said and done

either in their own or other lands.

This destruction of freedom of the

press is the most sinister sign in the

world today."

Dr. Butler said he found during his

nine days' stay in Rome a conviction

that there must be an international

monetary standard in order to restore

prosperity. To this must be added, he

said, "an international monetary unit

and an international monetary adminis-

tration, using the Bank for Inter-

national Settlements at Basle as the

Bank of England, the Bank of France,

SENATE PASSES 4 SCHOOL BILLS; TOTAL MILLIONS

2 Are Measures Opposed by Horner.

(Continued from first page.)

wanted to take some of the state's share of the gas tax, but not touch the share of the cities and counties. The bill as drawn would divert a third of a cent from each penny allotted to the three governments. Under the present law, the 3 cent motor fuel tax is divided equally amongst the state, cities and counties, 1 cent going to each.

"Are you the president of the teachers' association?" asked Senator Graham.

"Yes," said Mason.

"Well, you ought to resign," retorted Graham.

"You're not a friend of the teachers."

Senator Ray C. Woods (Rep., Chicago) did not vote either way on the bill. Questioned by Graham, he declared that the bill was unconstitutional and that it was "only a hot air balloon to throw to the school teachers."

At the morning session the roll call showed that the Democratic leaders needed eight more votes to carry their bill with the emergency clause.

"Looks like you need a few votes," remarked Senator Charles H. Thompson (Rep., Harrisburg).

"You'll be short a lot of votes in November," asserted Graham.

The bills providing for diversion of liquor and sales taxes and the new tax proposed on natural gas to the schools passed easily after the big battle over the governor's bill.

The sponsor of the tax on natural gas, Senator Charles W. Baker (Rep., Monroe Center), contended that \$4,000,000 would be obtained for the schools by this legislation. He stated that the bill would prove a boon to the coal industry.

AUTOIST GROUPS TO FIGHT

St. Mayer, president of the Automobile Club of Illinois, and Chester Moore, director of the Illinois highway users' conference, yesterday renewed their efforts to defeat Gov. Horner's measure, which would divert about \$10,000,000 in gasoline taxes to the public schools of the state.

The bill was passed by the senate in Springfield yesterday and will go before the house when the special session of the legislature is resumed April 17.

"The motorists of Illinois," said Mr. Mayer, "should not be called upon to shoulder an obligation that belongs to society as a whole. The governor was elected on a platform of reducing taxation, not of shifting the tax burden to automobile owners."

The sales tax, paid by all of us, is a more equitable source of revenue for the teachers' salaries. So is the beer excise, which is a levy on a luxury."

Mr. Moore cited figures to show that the road fund has already lost \$109,500,000 through diversions for poor relief authorized during the last eighteen months and that about \$48,000,000 more will be lost this fall in an election to approve the use of gasoline money for the interest and retirement of \$20,000,000 relief bonds spent this winter.

**ASKS TAX CUT
FOR TOBACCO
TO LOWER PRICE**

Washington, D. C., March 28.—(AP)—Detailed examination of cigarette manufacturers' representatives on why the most prominent brands always cost exactly the same, followed the request to a House committee today for a 40 per cent cut in federal tobacco taxes.

Junius Packer, New York attorney representing 22 manufacturers, denied the uniformity in price was due to combination.

The so-called 15 cent cigarette Parker said, immediately would go to 10 cents, and the so-called 10 cent cigarette to 8 cents, if the tax were reduced, he said.

Parker predicted a lower tax and lower prices would increase consumption.

**South Bend Jail Turnkey
Kills Self by Accident**

South Bend, Ind., March 28.—(Special.)—Attempt to break open a 38 caliber revolver which he planned to clean, Henry Clay, turnkey at the St. Joseph county jail, was killed this morning when the gun was discharged and shot him through the heart.

TEACHERS ENTER PRIMARY FIGHT TO NOMINATE AIDS

4,000 Will Work at Polls Election Day.

Chicago teachers and their supporting citizens' committees will enter the primary election campaign in an effort to nominate candidates supporting a school expansion program, officials of eleven teacher and citizen organizations announced last night.

Leadership in the two weeks' drive preceding the election April 10, is taken by the Chicago division of the Illinois State Teachers' association, which hopes to have 4,000 teachers working for selected candidates election day.

Second Campaign Launched.

Assisting the state association is the Teacher Voter association with its own separate campaign, a bloc of five teacher unions, a steering committee representing all but one of the teacher organizations, the Principals club, the Subscribers, and the Teachers league.

Formation of ward and precinct organizations, a study of candidate records, questionnaires, and an appeal to teachers to bring out voters favoring their policies are a part of the state teachers' activities.

"While we will work throughout the city we propose to concentrate our strength on one or two senatorial districts, either to aid a friend of the schools or to oppose an enemy."

George Mahlin, secretary in charge of the primary campaign, said yesterday, "We are investigating records of candidates thoroughly and will decide on the districts to be attacked later."

Organize Ward Workers.

Of the 10,000 members of the state association in Chicago, 4,000 have indicated that they will assist in the campaign election day, Mr. Mahlin said. Efforts are being made to organize these workers in the wards.

Mrs. Helen R. Dwyer, speaking for a bloc of five organizations, the Men Teachers' union, Federation of Women High School Teachers, Elementary Teachers' union, High School Association of Teachers, and the Playground Teachers' union, said these groups are forming extensive precinct organizations.

"Next week we will push this regimentation of strength," she said. "We will make our power felt in this primary."

The save our schools committee is aiding the campaign by questioning candidates on school policies. Questionnaires to 250 entered in the primary race were placed in the mails yesterday.

Republicans of State Senate Revolt Against Richard Barr

BY PERRY WOOD.

(Chicago Tribune Press Service.)

Springfield, Ill., March 28.—(Special.)—Senate Republicans today staged a revolt against their long-time leader, Richard J. Barr of Joliet. While they did not succeed in ousting him from his office of minority chief they named Earl B. Searcy of Springfield chairman of the Republican caucus, which may become a powerful post—if the revolt lasts.

Barr, James J. Barbour of Evanston and Adelbert H. Roberts of Chicago have been voting for the gas tax diversion bill which Gov. Horner believes is the best plan for increasing the state school distributive fund.

Other senate Republicans followed the lead of their colleagues in the house and stood back of bills to divert liquor and sales tax revenue. They succeeded in passing both this morning.

Barr and Roberts voted favorably on each, but Barbour opposed the liquor tax diversion.

Say Woods Formed Plan.

Then, following a plan reported to have been hatched last night under the sponsorship of Roy C. Woods of Chicago and N. M. Mason of Oglesby, the Republicans caucused.

The meeting was not open to reporters, but it was said that the Woods-Mason clique first attempted to supersede Barr with Searcy, but upon a roll call the motion fell short.

It seemed that a majority of the senators did not wish to chastise their veteran leader so severely.

A recess was taken for luncheon and then the caucus was resumed, while the Democrats marked time.

Searcy Talks for Caucus.

Searcy acted as spokesman when the meeting broke up an hour later. He denied that his election as chairman meant any sort of denunciation of Senator Barr. "He's still our leader and will continue to act as such," Searcy declared. "It was felt the caucus was needed so that Republican

representation on committees would be spread to include more members."

Reporters recalled no committees, save those for attendance at funerals, have been named recently. In a special session most bills are considered in committee of the whole and the regular committees do not function.

Says G. O. P. Needs Voice.

Searcy also released the following written statement:

"I have been elected by Republicans of the senate to the post of chairman of the caucus during the remainder of the legislative term and I accept the responsibility."

"If ever the Republican party of Illinois needed a medium of positive, constructive expression in the Illinois state senate, it is now. Our group will caucus weekly and seek cooperation with Gov. Horner on matters that affect the commonwealth; but we shall be alert to any subterfuges and extravagances which any one may endeavor to put across under the guise of needed legislation."

Moreover, it will be our aim to further the interests of a healthy, vigorous Republican party throughout Illinois—a party that will stand again for plain, Lincolnian integrity and that will unflinchingly support the American form of government."

Senator Barr said: "I believe the action taken was proper. We haven't had a caucus chairman for several years and we really need one."

Senator Barr has been a power in the statehouse for thirty years.

**ASKS INJUNCTION
ON TAX METHOD
OF ROCKFORD, ILL.**

Rockford, Ill., March 28.—(AP)—An injunction restraining Gus S. Brown, Rockford township assessor, from carrying out his proposed "honor system" plan of assessing personal property, is asked in a suit filed in Circuit court here today.

The suit was filed in behalf of E. Sebring Bassett, taxpayer. It is alleged Brown in making out schedules to the personal property owners of the township would be asking property owners to guess the amount of their assessments.

Quicker Relief Now From Pain

There is now a quicker way to ease pain. A way that often brings relief from even a severe headache or neuritis in a few minutes. Millions are now employing it—the fastest safe relief, it is said, ever known for pain.

These results are due to a scientific discovery by which a Bayer Aspirin Tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence, to start "taking hold" of pain a few minutes after taking.

The illustration of the glasses, above, tell the story. A Bayer Tablet starts to disintegrate almost instantly you swallow it. And thus is ready to go to work almost instantly. This unique Bayer discovery means quick relief from pain for you and yours. Power lost.

hours from headache, neuralgia or the pains of rheumatism. And safe relief—for Genuine Bayer Aspirin does not harm the heart.

When you buy, though, see that you get the GENUINE BAYER ASPIRIN. The best way is never ask for aspirin by the name "aspirin" alone. But if you want Bayer Aspirin's quick relief always say "BAYER ASPIRIN."

Gl

FARLEY ACTS TO FORCE SHAKEUP IN U. S. AIR LINES

Return of Mail Flying Is Used as Bait.

(Chicago Tribune Press Service.)
Washington, D. C., March 28.—(Special.)—Postmaster General James A. Farley moved today to force a complete shakedown in commercial air lines, using the return of the air mail to private planes as a bait.

Thirty officials in private aviation companies must be forced out of office, the whole air mail rate structure is to be rebuilt, and all the old companies carrying mails must reorganize if they wish to share in federal air mail subsidies in the future, the postmaster general announced.

By Friday, Mr. Farley said, the post office department will be ready to launch the return of the air mail to private lines by advertising for bids on 15 routes, comprising 17,826 miles. But he ruled that none of the old companies which had their previous contracts canceled will be allowed to bid unless they completely reorganize and drop all officials suspected of fraud or collusion in past bidding.

New System of Rates.
In addition, he announced a new system for computing rates which are to be paid for carrying the mails. The new rates "will be based upon the average mail load carried per mile over the route during the month," according to the revised contract forms made public by Farley, but a maximum rate also will be set for each route.

The bids for which the postoffice will advertise on Friday or soon thereafter, Farley explained, will be for three months only but may be extended for another six months if necessary. They are intended to provide private flying of the mails pending the settlement of a permanent air mail policy by congress.

Attorney General Homer S. Cummings and his staff will pass upon the eligibility of the bidders, the postmaster general said. Bids must be submitted 15 days after they are called for.

Cover 17,826 Miles.
The 15 routes cover about 17,826 miles compared with 25,248 miles being flown when the contracts were canceled on Jan. 9. The new routes are: New York to San Francisco via Chicago; Chicago to Portland, N. D., via Minneapolis; Chicago to Jacksonville via Atlanta; Chicago to Dallas, New York to Los Angeles via St. Louis; New York to New Orleans; Seattle to San Diego; Washington to Detroit; Boston to Fort Worth; Annapolis to Brownsville; Boston to Hartford; Salt Lake City to Seattle; Salt Lake City to San Diego; Salt Lake City to Great Falls; and New York to Miami.

Postmaster General Farley said that the postoffice department has a list of 30 air line officials whom they suspect of engaging in "fraud or collusion" in connection with private contracts. Unless these officials are dropped, Farley said, their companies will not be allowed to bid on the temporary contracts and will be at a disadvantage when the permanent contracts are awarded.

Get Around 1872 Law.
In order to delude around the old 1872 law stating that no mail carrier which has had its contract canceled can bid again for five years, Farley explained that an aviation company which reincorporated itself and dropped its offending officers would be considered eligible.

Meanwhile, he was writing a letter to companies which had requested a hearing on their contract cancellation, telling them to file briefs. He indicated that he was not anxious to grant such hearings.

Farley insisted that the department was not "back tracking" in permitting bids from old companies that had reorganized. He declared that the department in handling its temporary contract was following closely the permanent policies being drafted into legislation by congress.

SELF-INFLICTED WOUND FATAL.
John Botzenhardt, 45 years old, 512 South Irving avenue, a salesman and war veteran, died in the County hospital yesterday as a result of slitting his throat and wrists on March 19.

NEW AIR TRANSPORT WITH DOZEN BERTHS PASSES FLIGHT TEST

(Picture on back page.)

A new type of twin-engine passenger air transport which will offer sleeping accommodations similar to those in Pullman cars, and a new ten passenger ship which is exceptionally speedy but economical to operate, have successfully passed flight tests, it was announced yesterday by their manufacturers.

The sleeper plane is a development of the Conquer biplane which is in service on a number of airways. It is the product of the Curtiss-Wright Airplane company of St. Louis. The twelve comfortable seats for its passengers can be converted into as many berths, which actually are one inch longer than those in standard railroad sleepers, although not quite so wide.

Performance is not sacrificed, according to the company officials, who said that the ship would cruise at 180 miles an hour and have a top speed of 180 miles an hour. The ship is powered with two Wright Cyclone motors of 715 horse power each. Six of these planes will be placed in service on the American Airways Dallas-Los Angeles route in three weeks.

The other new plane is manufactured by the Lockheed Aircraft company of Burbank, Cal. It is a low-wing, twin motor ship which will seat ten passengers and a crew of two. In tests the plane cruised at 203 miles an hour and had a top speed of 221 miles an hour. It is powered with two Pratt & Whitney Wasp Jr. 400 horse power motors. At cruising speed only 75 per cent of the full power is used.

ONE OF LINDY'S AIR TEACHERS CRITICALLY ILL

Ten Bille, an instructor who is said to have had a part in the solo air landing of Col. Charles A. Lindbergh, is in a critical condition from heart trouble in the County hospital.

Physicians expressed the fear last night that Bille could not recover.

Cheerful despite his affliction, Bille yesterday reminded his 20 years in aviation. He said he first knew Lindbergh in 1922 when Bille was employed as a pilot for the government at Lincoln, Neb. Impressed by the intense desire of Lindbergh to learn to fly, Bille undertook the instruction, he said. After six hours in the air Lindbergh completed his first solo flight, Bille said, and started the career that led to the solo flight to Paris.

Bille said that he himself first flew as a pilot in the army air corps in 1914, and later served as an instructor on the army field at San Diego, Cal. An air mail pilot for several years, Bille was forced out of aviation by falling eyesight in 1920.

Wins Her Husband Back from a "Burlesque Queen"
Having demonstrated that no "burlesque queen" could take her husband away from her, Mrs. Ann Sunde, 28 years old, tore up her bill for separate maintenance yesterday, and she and her husband, Gerhard, walked out of Judge Desart's court, reconciled.

Mrs. Sunde, who lives at 3448 Addison street, had her lawyer, Harry X. Cole, file the bill several months ago, alleging that the burlesque queen, whose name is Mary Sunde, but who is no relation, had won her husband's affections. But, since then, Mr. Cole told the judge, Mrs. Ann Sunde has won him back.

\$100,000 Breach of Promise Suit Dismissed by Judge
New York, March 28.—(Special.)—A suit by Mrs. Helen Page against DeForest Grant, terra cotta manufacturer, for \$100,000 damages for breach of promise was dismissed today by Supreme Court Justice Cotillo because Mrs. Page failed to appear in court.

DR. WYNEKOOP'S TERM IN PRISON TO BEGIN TODAY

Will Leave This Morning for Dwight.

Dr. Allen Lindsay Wynekoop will leave the county jail in a squad car with Matron Mary Kennedy and a deputy bailiff at 9 o'clock this morning for the women's prison at Dwight, where she will begin serving a twenty-five year sentence for the murder of her daughter-in-law, Rheta.

Chief Bailiff James Z. Gabriel announced that Dr. Wynekoop was not to be transferred with other prisoners who will go to Dwight today because of her serious physical condition. She is suffering from a heart ailment. In an interview at the county jail yesterday Dr. Wynekoop maintained her innocence of the crime for which she was convicted by a jury in the court of Judge Harry B. Miller.

Just Like Any Prisoner.
"Dr. Wynekoop will be treated just like any other one of the girls," said Miss Helen H. Hazard, superintendent of the Dwight prison. "First she will be put in one of the twenty-five rooms in our new building which are reserved for newcomers. For two weeks or longer she will remain there in quarantine."

During this time she will be examined by the staff physician, the staff psychiatrist, and the staff psychologist. A resident case worker will take her sociological history. She will be fingerprinted, photographed, and given her new prison clothes, which include four white dresses, each of a different color and pattern.

Whether Dr. Wynekoop will be kept indefinitely in the hospital wing of the building will depend on the results of the physician's examinations, Miss Hazard said.

No Bars on Windows.
If she does not remain in the hospital wing, she will have no bars on her windows.

As a substitute proposed to move Dr. Wynekoop to Dwight, she was named defendant in a suit filed in the United States District court by the New York Life Insurance company. The suit, filed by the law firm of Scott, MacLach & Fells, asked the cancellation of a \$5,000 insurance policy taken out by Dr. Wynekoop on the life of Rheta.

BREAKS BACK IN CHAIR.
Durlington, Ia., March 28.—(Special.)—Mrs. Selma Lindstrom, 50 of Rockford, Ill., is in Mercy hospital here with two fractured vertebrae the result of an auto accident on route 34 near Highville, Ill., today.

AIR LINE CHIEFS SILENT ON U. S. RULES FOR BIDS

Officials of American Airways and of United Air Lines, whose headquarters are in Chicago, refused last evening to comment upon the conditions to be observed by all companies which may bid for new air mail contracts. These conditions were made public yesterday in Washington by Postmaster General Farley. It became known that executive officers of both the air lines have called conferences for today, when all the specifications and limitations on bidders are expected to be announced by the post office department.

Postmaster General Farley has stated that all officials who are held suspect by the postal authorities must be dropped from companies which would bid again, "one month's load per mile also is a very general one. We don't know where we stand until the details specifications for bidders have been set down in black and white."

WOMAN TO PAYABLE PRISON.
Mrs. Rheta Wynekoop, who today began serving a twenty-five year sentence for the murder of her daughter-in-law, Rheta, at the Dwight prison.

EXTRA VALUE in BOYS' EASTER SHOES

Plenty of Boys' and Little Girls' shoes in smart new Spring styles. Black or tan calf, or in black and white, tan and white, silk and tan... patent, split-toe, dress shoes, play shoes or sports shoes. All of enduring quality with solid oak leather soles and Goodyear welts.

Galyak On a Belted Coat \$69.75

Fashion is talking "flat furs," and our collections join in with many new coats that have this important trimming. The coat shown directly at the left has a breeze rippled collar of galyak, set off by a white gardenia. Note the belted silhouette and the plain tailored sleeves. Sizes for women.

Women's Better Coats, Fourth Floor.

Silver Fox On Ribbed Wool

Frames the face to most flattering advantage in this slim coat for women. \$125.

Complete Home Laundry equipment

by **Thor**
\$5 DOWN

Thor 3-piece laundry unit consists of:
1. Rigidspan Chassis Washer
2. Free Rolling Wringer
3. Rotary Speed Ironer

FOR only \$5.00 down you can have a complete electric laundry unit in your home. Three machines—washer, ironer and wringer—make this combination extremely practical and compact.

The 9-lb. capacity washer has the new rigidspan chassis, an exclusive Thor feature which assures great efficiency and long life. The Super-Agitator washes clothes faster, cleaner and safer. The free-rolling wringer eliminates slipping, common in ordinary wringers and harmful to clothes; pressure is constant and automatic. The Thor Ironer is the open-end roll type; simple to operate; you can iron flat or fancy pieces easily and quickly. Wringer and ironer are interchangeable and are operated from one set of controls.

Ask for a home demonstration of this complete home laundry unit. Visit Electric Shops—or call Randolph 1200, Local 535

2nd SOUTH SEAS Exploration Cruise

Sailing from
SAN FRANCISCO - JUNE 27
LOS ANGELES - JUNE 29

44 DAYS over 12,000 miles through seldom traveled sea-ways to ports but seldom seen
FARES from \$400
entertainment and shore excursions included

Cool trade winds calling to romance-ports you've doubtless read about and dreamed about, but couldn't visit. Because ships seldom go there. All the more charming because they have remained uncontaminated in their isolation. And now, actually to be able to visit them... that is opportunity!

It's the kind of vacation that can be had nowhere else, for there is only one South Seas. And only once before has the great "City of Los Angeles" made all these fascinating ports in a single voyage. That was on the notable sailing of January 12, about which so much enthusiasm has been expressed by those who went.

Fortunately this Second cruise is set for the usual vacation time, so that you can make this an unusual vacation. It is the kind of cruise made possible only by an intimate knowledge of the South Seas and years of Cruise Conducting. This is true, not only of the brilliant itinerary, but the unusually low cost. The nearness of the sailing date makes an early reservation important. Just let your travel agent show you a brochure of this remarkable cruise, or write Matson Offices.

COLOR IS KIN

TO

Fragrance

● Color creates and imparts impressions which words alone cannot give.

It acts on the senses persuasively . . . compellingly. It is kin to the fragrance of a rose. It stops a reader like a soft-nose, 45-caliber bullet.

Color can add sales power to *your* advertising. It can give an atmosphere of elegance . . . convey by subtle nuance the intangibles of quality . . . whet interest and appetite by realism.

Why not employ it? Think of the impressive or smashing effect on *your* prospects . . . on *your* dealer organization . . . by using such a full page as this!

Through Tribune run-of-paper color advertising you can tell your story in dominant, memorable way to the 620,000 families in Chicago and suburbs who read this newspaper daily. And tell it on Sunday to an additional 243,000 key families in cities and towns adjacent to the metropolitan district.

The cost of run-of-paper color advertising in the Chicago Tribune is low. Hardly more than for black-and-white reproduction. But what a difference there is in sales results.

Let a Tribune representative show you how run-of-paper color can be successfully applied to your advertising in the Chicago market.

FEEDING THE BRAIN TRUST.

Any decoration of Joseph Ator's story in The Tribune of Charles the milk distributor's plight with the Brain Trust accounting system would be at its outset a futility and a work of supererogation. Nevertheless, the thoughts it stirs are irresistible and the prospect it unfolds is most interesting. Charles, whose predicament is that of every other man with a milk route, finds that if he answers the myriad questions the Brain Trusters ask him he will have to have at least one full time accountant, if not a laboratory specialist and a secretary, and before a month is up he will be in luck if he does not need a keeper to protect him in his less lucid moments and to protect other people from him in his more furious ones. The questionable habit has been developing in an earnest but amateurish fashion in the United States for years. Each year an increasing number of interrogatories, intended to produce information of the smallest consequence to any one and place it in the hands of somebody who wouldn't know what to do with it when he had it, have issued from the fertile brains of various persons, supported by foundations or animated by their own inner fire. But this habit, however much an infirmity it had become, remained dilettante until the planned society began to blossom. Then the gates of heaven were really opened.

The prospect for the American citizen is one of submitting to a scrutiny which will make a goldfish by comparison seem to lead the life of Daniel Boone in his more isolated wilderness experiences. He will need the shorter hours of work which the New Dealers plan for the ideal society, but he will not use his leisure for recreation or enhancement of his spiritual man. He will be at his desk with ink fingers and tousel hair, busy on form 17, anxiously trying to make item 6 deductible from item 41 and give a total which will make general conclusion B square with specifications X, Y, and Z, as modified by subdivision A-1 in paragraph 12. The postman, who has been a friendly person, except possibly at bill time, will soon have the aspect of somebody with a forked tail. Each day will bring the dreaded governmental summons, calling the citizen again into the breach with his ink well or fountain pen. It will be great for the electric light utilities because the consumer will toll late into the night satisfying the New Deal's desire to know whether he changes underwear with the seasons, how long his vest buttons remain without reweaving, what his annual consumption of moth balls is, what he does with his safety razor blades, whether he still does crossword puzzles, whether he and his wife can make partners at contract, how he likes his eggs, and when he ceased to believe in the nebular hypothesis.

It is fortunate the Brain Trust is preparing to support all the citizens of the United States because soon citizens will have no time to support themselves. As for Charles the milk distributor, he may be assured that he has not learned the half of it. His next questionnaire will require him to report the number of infants under three years on his route, their weight as of April 1, the gain as of April 8, and his conclusions as to whether this gain represents an adequate social improvement in the infant's relation to the New Deal, what improvement is ascertainable in its I. Q., and whether it is being fitted for subsistence farming on marginal land or life in the happy valley of the Tennessee Valley authority. The Brain Trust is just warming up.

HELPING RAILROADS.

The National Association of Railroad and Utilities Commissioners has raised the question as to whether "rate payers" or stockholders are to meet the cost of reducing railroad indebtedness as favored in the Eastman report and by President Roosevelt. The term "rate payer" applies to the general public as shippers or travelers, and rates refer to either freight rates or passenger fares. It will be recalled that the President favors compulsory accumulation of liquid reserves by the railroads during periods of prosperity for the purpose of retiring bonds, the interstate commerce commission to take cognizance of such obligation when prescribing freight rates.

The CHICAGO TRIBUNE recently made editorial mention of some of the results that are becoming apparent from widespread reduction in passenger fares between points in southern territory. In one district travel increased by 784 per cent and gross earnings by 471 per cent. This was an extreme case, but there were several districts that reported increased ticket sales that doubled the railway gross.

Let the same sanity be extended to freight rates and the National Association of Railway and Utilities Commissioners need worry no further. As has clearly been shown, many people become railway-minded just as soon as the cost is placed within their means, and the railways themselves must be aware that there are thousands of shippers willing and anxious to lift their horizons of distribution, reach farther for raw materials or

restore their shipments to the railways if business methods will displace theory in rate construction. That the public will not only pay the cost of the sinking funds but will be glad of the opportunity should be sufficiently clear from the 1933 passenger records.

THE CRIMINAL CALENDAR AGAIN.

State's Attorney Courtney deserves the thanks of the community for his determination to keep the campaign against crime in motion. A continuing weakness of all such efforts is in the relaxation of official effort as soon as a peak in public demand is passed. When the present campaign was at its emotional height after the killing of tan or a dozen police officers, the courts moved into vigorous activity and the heavily clogged Criminal court calendar was rapidly, though only partly, cleared. Since then the graph has shown a descending curve and Mr. Courtney has called attention to the calendar and asked for more work in the courts which were once more falling behind. The judges have responded by providing for two calls a day, which will avoid idleness through unexpected completion of the first call.

We think the public would appreciate more initiative on the part of the judges in keeping up with the criminal calendar but will be the more grateful in its absence for Mr. Courtney's intervention. The attitude of at least some of the judges assigned to the Criminal court indicates a regrettable indifference to the importance of expedition in the punishment of criminals. All men of the law ought to realize that prompt trial is the essence of justice, both from the viewpoint of the innocent and that of public safety. It is a truism that the law loses a good part of its influence as a deterrent when it is delayed, but a truism for which some of our judges show little regard.

THE AIR MAIL FIASCO.

It is worthy of note and we think the public will not overlook it that every star flyer consulted by the senate in the aviation contract inquiry has condemned the action of the postmaster general, Lindbergh, Rickenbacker, Chamberlain, and Amelia Earhart. Putnam unanimously protested it as a serious blow at American aviation. All of these aviators have had an important part in giving American aviation the foremost rank in the practical development of the art in the service of commerce and communication. They naturally felt an unjustifiable sacrifice of their years of devoted effort.

The whole affair was and will remain one of the most ruthless exhibitions of unscrupulous politics in our records. What was deserving of correction, if anything, in the contracts has not been disclosed and fair investigation has been denied because the responsible government agency could not afford it. This agency's hope had been to foreclose public question by the savagery of its indictment and the sweeping conclusiveness of its action. It expected that the injustice and destructiveness of its conduct would be quickly forgotten in the success of army operation.

The scheme has not worked politically as its contrivers expected. It has hurt American aviation but it has not helped the political prestige of the administration. If it advertised dramatically its accusation of corruption against the preceding administration, it demonstrated with greater force its want of regard for justice and the public's service. Finally, it offers to the nation's consideration an unmistakable example of that hostility to private enterprise and private rights which is blocking recovery and breeding demoralizing bitterness and dissension in the American household.

GOVERNMENT PLANNING.

The Lakes-Gulf waterway was opened and in operation last year. On Friday the northern stretch from Chicago to Peoria was opened for the season, the Peoria to New Orleans stretch having been opened March 1. But when we say the northern stretch is open there is a reservation. The same bridge obstruction at Morris, half way between Joliet and Ottawa, which prevented large tows from passing beyond the latter point, remains. The new bridge is still unfinished and the old bridge cannot be taken out, according to war department orders, until the new is in operation. That it is promised will be about Aug. 1 and in the meantime traffic will lose five months of freedom.

The ardent advocates of government management as a solution for every problem might make a note of that. At least the public should find some food for thought in it. It is a typical case. There is no excuse for this delay. The waterway has been nearing completion for several years. It was actually opened last year save for this obstruction. It is easy to talk of planning, as if the government were the only agency that plans or can plan satisfactorily. But government is the worst of planners.

Editorial of the Day

SQUANDERMANIA LOYALTY.

(Tucson, Ariz., Star.)

Recent votes in both the senate and the house forecast to some extent the difficulties that will face President Roosevelt in attempting to carry out his recovery plans. During the last year, when he has been asking for vast sums of money to spend which created a large number of political jobs, the President had the overwhelming support of congress. As long as he spent money he was able to drive through his other measures. Congress functioned.

The last few weeks have seen a change take place which forecasts trouble for the future. As soon as the President stopped authorizing new expenditures those who were the loudest in pleading for loyalty to the President have turned about and are now busily engaged in opposing his wishes. The vote on the bonds, the vote on the economy measures, and now the vote on another silver measure, reveal that many of those who used to plead for loyalty to the President are now against him. Nor does their action end there. So far they have been able to bury the President's proposal asking for authority to negotiate reciprocal tariff treaties by which the President hopes to revive trade and natural employment. The mere threat from a selfish minority that now profits from some high tariff is enough to turn those courageous souls who formerly shouted loudly and beat their breasts in support of the President into opposing him.

Nor has this change been a party matter. Democrats more than the Republicans have been the offenders. As long as the President spends money, and thus creates new political jobs that will enhance their political prestige, these loyal Democrats support the President. The very minute he stops they turn on him.

What a situation will face the President a year from now when he will attempt to carry out his pledged word to balance the budget! From whence will come the necessary support? A balanced budget implies a sharp curtailment in expenditures, the authorization of many new taxes. What will these squanderers do then? Will they continue on their irresponsible course? Will they continue to be loyal to the President only as long as he spends money?

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may.

"VET IN HOSPITAL Gets Medal After 17 Years."—Headline. War's a funny thing. When it starts and until it ends it's hurry, hurry, hurry. A youngster is grabbed out of his home and hustled into camp without even being given time to grab a toothbrush or an extra pair of socks. He's jammed into a uniform whether it fits him or not (usually not), rushed through a hasty skelter training with wooden guns and dummy cannon, and hustled off to the front, where he meets the enemy, and the one command he hears is "Go, go, go, and keep going." And then finally the war's over and—well, as the headline says, "Vet in Hospital Gets Medal After 17 Years."

"THE AIR," says Amelia Earhart, "is safer than the ground for speeds of over forty miles an hour." Granted, Amelia; but airplanes don't always keep away from the ground.

"CIVIL WAR LOOMS in France over Masonry Issue."—La Trib. And if it wasn't that civil war would loom in France over the only real way to cook tripe or how sauce should be made to serve with roast snails or whether a painting in the Louvre should be hung on the north wall or the south wall. A crisis can be started in Paris by somebody dropping a plate of glass on the sidewalk or by accidentally stepping on a gendarme's toes. Whenever it thunders over Paris the French grow white and mutter, "C'est la guerre! C'est la guerre!" While if an auto blows out a front tire in the Rue de la Paix everybody begins to shriek "A la barrière, à bas la Colonne Vendôme!"

IF THESE EYES CLOSE.

Must I grow old and weary,

Now I am young and wild,

And must I lose the garlands

I gather when a child?

Why, son, why do you sorrow?

The spring can never stay,

But pluck your pretty blossoms

For fall must have its way.

"Shall love rise up and leave me,

Now she is mine to kiss—

Shall love pass by and spurn me

With warm, red lips I miss?"

Sure, lad, though now you loiter

Beside Love's open door,

Remember Time has bolted

Full many gates before.

"Now tell if these limbs loosen

With clever knots undone,

If these eyes close forever

And lose their sight of sun."

Today you stroll the meadow

And tramp on weed and fern.

Tomorrow, son, the heavy sod

Shall tramp on you in turn.

HAROLD KERN.

A CONTRACTOR repairing a bulkhead on Long Island says that NRA regulations can't be followed because the Atlantic ocean won't obey 'em, but sends in the tide when it gets darn good and ready. All right, wait until Gen. Johnson goes after the ocean. Old King Canute couldn't make the ocean mind him, but that doesn't prove that Gen. Johnson can't. When he tells the sassy old Atlantic to stop right in its tracks and stay there it's going to do it. Yesir, King Canute was a piker. You just watch Gen. Johnson.

THE ONE HUNDRED AND THIRTEEN press agents of Hollywood are again voting for Wampas baby stars. One of the dearest and most insane things that anybody can think of is the one hundred and thirteen press agents of Hollywood voting for Wampas baby stars.

THE NEWSPAPERS have a story from Massachusetts about a letter that was mailed in Boston to Brooklyn, just a few miles away, and was twenty-five years in making the trip. It's different with me. When anybody sends me a bill through the mail it isn't twenty-five years getting to me. Not on your life. It gets to me so quick that I've got an idea that the groceryman or the butcher or the tailor rushes out bareheaded into the middle of the street the minute he makes out the bill and runs all the way to the postoffice. Then he stands at the window and yells "Get some action there!" to the clerks who do the sorting and the stamping, and when the carrier gets the envelope containing the bill and comes out of the postoffice the man I owe the money to is there waiting for him and chases him all the way up to my flat. And then they talk about the Massachusetts letter being twenty-five years on its way. Some people have all the luck.

How to Keep Well By Dr. W.A. Evans

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries under proper limitations, when return stamped envelope is inclosed. Dr. Evans will not make diagnoses or prescribe for individual diseases.

(Copyright, 1934, By The Chicago Tribune.)

HOME GROUND FLOUR.

RECENT newspaper editorial told of a new invention for the household. It is a small, inexpensive machine to grind wheat and other grain, making fresh flour for breads and pastries and fresh cereals.

The power to operate this machine is supplied by the automobile. The editorial says: "The flour may not possess the keeping qualities of the commercial product, but frequent grindings solve that problem." The editorial goes further and suggests that production, instead of being confined to domestic use, be expanded commercially. It says: "Presently, therefore, the sale of butter, eggs, and milk by farmers direct to the city motorists may be supplemented by sales of low priced whole wheat flour."

The editorial approached this subject solely from the economic angle. It was a proposed method for getting around the processing tax and it also offered a way by which the producing farmer and the consumer could be brought together—a means of eliminating an elaborate and costly middleman service of manufacturers, transportation, promotion, and sales. It might have included reference to certain health advantages.

The great advantage of centralized milling, with the machinery of selling and distributing, is the fact that the miller is not liable to be called on in 1934 by a consumer in India with a claim for damages due to musty flour. A miller now makes a good, safe product, puts it in a secure barrel, and sends it forth—never expecting to hear from it afterward.

The disadvantage of the method is that the miller and especially the lime and phosphorus and much of the vitamins, especially vitamin B complex, are removed. The miller's answer to the objection is that people do not live on bread alone. They can get the needed vitamins and minerals from other foods in a mixed diet. The answer to that is that the consumer does not get as much of this vitamin and of these minerals as they need. As a result there has been an increase of the disorders due to these deficiencies since the use of highly milled flours became general. None of these results shows in the vital statistics, but the opinion is general that they are a factor in health and well being.

Among the effects of deficiency in vitamin B complex are neuritis, neuralgia, neuritis, constipation, lessened fecundity, less maternal milk, babies that do not thrive, increased infant mortality rate in the first six months of life. Beriberi and pellagra are more advanced conditions that are not ascribed to eating milled flours.

There are many methods of home grinding of wheat. It can be done with a coffee grinder, a method advocated by Dr. H. W. Wiley; or with a hammer mill. Doubtless the mill referred to in the editorial is an improvement over the older ones.

The Illinois health department—and probably other health departments—supplies recipes for foods made with home milled grains.

SWOLLEN LIPS.

L. C. writes: Please give me a remedy for swollen lips [not gums] and jaws, on inside of mouth. There is no pain, but the swelling is great enough to interfere with plates.

REPLY.

I wonder if you have giant hives affecting the lips. It does not seem probable that so much swelling would be caused by irritation between teeth in your mouth. Your dentist says is the cause and what should be done?

FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

JUDGMENT.

Quincy, Ill., March 23.—[Legal Friend of the People].—About four and a half years ago I had a tenant who was in arrears for four months' rent. I gave him a five day notice to vacate, which he did. I then got a judgment against him for the amount, \$140, but he had nothing that could be found to levy on, so he still owes it. He took out a building permit for \$4,000 about two years ago to build a house, but [1] the property isn't on record at the recorder's office. I now can't find out in whose name the property is, if it is in his wife's name, would it be necessary for me to sue her, or would the judgment against the husband be sufficient? 2. For how many years in the judgment good? 3. Can it be renewed? J. W. E.

1. I assume that you mean other property than that above referred to, and that by saying it isn't on record the conveyance to him has not been recorded. 2. We are not informed as to what indexes are maintained in your recorder's office. We suggest that you take your questions and facts to that office.

3. If subsequently to his becoming indebted to you he has donated his assets to his wife you could have such gifts set aside on your rights as a creditor.

4. By suing on the judgment you could secure a new judgment.

TRIMMERS LAW DEPARTMENT.

IMMIGRATION.

Chicago, March 22.—[Friend of the People].—My brother came out here from Ireland in 1930, and on account of hard times and unemployment he went home again to Ireland at Uncle Sam's expense.

TRIMMERS LAW DEPARTMENT.

FROM ACROSS THE SEA

[Chicago Tribune Press Service.]

LONDON.—There is another side to the all important question of slum clearance in Great Britain. For months past there has been a campaign urging slum clearance in London and other big cities. The new London county council, now controlled by the Labor party, has begun the task.

Many large slum areas have been removed. The inhabitants have been cleared to new houses containing all the latest labor saving devices. And in almost every case these houses are situated in the country just a few miles from London itself.

But there is another side to the question: There is considerable discontent among the women of the 860,000 persons living on these new London county council housing estates, particularly those of Becontree, Watling, and St. Helier.

These individuals, born and brought up in the teeming life of crowded London, are unable to accustom themselves to life in the country. Noise and, in many cases, squallor have been exchanged for new houses, up-to-date sanitation, cleanliness and fresh air. But the irritation bred of loneliness has grown so that many women have nothing good to say about their homes and would willingly exchange the new conditions for the old.

This situation is representative of all the three estates, Becontree, with its 170,000 inhabitants, 90,000 of whom are under age; St. Helier, with approximately the same number, and Watling, with its 20,000.

Two of the three estates are on bleak, treeless high and wind-swept ground. Becontree looks out on the high chimneys of the Ford factories or Dagenham and other factories at Barking. Watling looks out on fields of cabbages and market gardens. Only St. Helier's outlook is relieved by the undulating ground and bushy slopes of Morden.

A small minority appreciate the fresh air for their children, the quiet, the gardens, and a home.

One woman said she was discontented, not so much with her new home, as the district in which it was located. Her complaint was that there was "no life," that she had to walk a mile to the shops and there were no cheap markets as in London. Another thing which annoyed her was that she had to pay a few shillings a week more for her house than she did for her rooms in overcrowded Paddington.

A woman on the Watling estate complained that her household expenses were higher than in London and as a result she was unable to save anything. She explained that where she had lived in London there was a

"LET'S NOT FORGET UNDERWORLD DISARMAMENT, TOO"

[Kansas City Star.]

VOICE OF THE PEOPLE

Writers should confine themselves to 200 or 300 words. Give full names and addresses. No manuscripts can be returned. Address Voice of the People, The Tribune.

A BRAIN TRUST LEXICON.

Evanston, Ill., March 24.—When Dr. Wirt proves his statement about the ultimate purpose of the brain trust, perhaps the American people will better understand the changed vocabulary needed by the New Deal.

In the writings and speeches put forth by the brain trusters in their own names and for the politicians who lean on them we find that radicals become liberals, conservatives become reactionaries, socialism becomes planned economy, inflation becomes reflation, debaselement becomes revaluation, condemnation becomes equitable distribution, greenbacks become circulating bonds without coupons, monopoly becomes codification, initiative becomes propaganda, the constitution becomes an outworn document, dictation becomes collaboration, and Korea from which become technical advisers.

W. E. WAHLMAN.

MOTORISTS' TAXES.

Chicago, March 26.—In answer to a letter printed in today's Tribune by one Taxpayer let me ask where, O where, are the brains he was born with? He states: automobiles pay "little or no taxes."

Boy, when I read that I got hot under the collar and no wonder. I've got a car valued at \$220, for which I pay city and state taxes of \$25, or 10 per cent a year, to own. Then I buy gasoline and must pay a tax of almost 20 per cent a gallon. And he calls that "little or no taxes." Oh? So help me I could cry when I think of it.

It has been my contention for a long time that some smart politician is going to take up the burdens of the poor automobile owner and get elected with a majority that will set a record of no little note.

Before closing let me state that I sympathize with Taxpayer in regards to his problem, but don't ever, ever again say the automobile owner pays "little or no taxes." Shame on you.

A FOOL MOTORIST.

A NEW CODE.

Chicago, March 26.—I would like to suggest a new code to Gen. Johnson. If put in force it would put thousands more to work, including manufacturers, wholesalers, and retailers, way down to the home dressmaker. The new code would prohibit any woman being seen of the street with less than three yards of material in her dress instead of the 18 inches now used by so many. If the general found it necessary to crack down on it, then I would suggest the use of the old style weapon, the slipper. The new code will be the CYN—Cover Your Nakedness. N. ALLEN.

NO MORE AIR MAIL.

Evanston, Ind., March 26.—Now that the government has stopped the air mail, I suggest that instead of resuming it the subsidy given the air liners be paid to the telegraph companies in consideration for reduced rates on night messages. These are much faster and surer than air mail, and as long as the companies are in private hands the confidence of the senders is respected. L. V. WINE.

FASHION NOTE.

Chicago, March 26.—Do all men in the cartoon of Little Orphan Annie who wear light colored suits slip their coats over their heads like a slip-on sweater? I have noticed that not one of the men ever has a button on his coat. Or maybe they are too poor to buy buttons and merely pin them together and they all seem to wear double breasted coats. Can you explain this? C. L. P.

STATIC.

FAIR IS DECLARED BIG STIMULUS TO RECOVERY IN U. S.

Business Leaders Pledge
Aid at Luncheon.

BY EARL MULLIN.

A Century of Progress Exposition, both the 1933 edition and the coming 1934 presentation, has had and will have more to do with local and national economic recovery than any other single factor, 500 members of the Chicago Association of Commerce were told yesterday at a Fair luncheon given by the association in the grand ballroom of the Palmer house. Following the luncheon the business leaders were given cards to sign pledging the full support of the association to the 1934 Fair.

Principal speakers were Rufus C. Dawes, president of the Fair, and Robert B. Upham, city controller and representative of Mayor Kelly. Not only were business men present at the luncheon, but a series of affairs sponsored by the commerce association to advance the Exposition, but representatives of civic bodies and educational institutions also attended.

Invites America to Fair.
"Reopening the Fair for 1934 after a successful presentation in 1933 was a daring step," Mr. Dawes said, "and was done only at the insistence of city and business leaders. So far these same leaders have done all in their power to insure that the coming Exposition will be greater than the one last year."

Speaking over a national radio hookup Mr. Dawes invited America to visit the 1934 Fair. He cited the changes to be made in the Exposition, enlarging the attractions and educational exhibits of last year, and pointed out the many advantages of Chicago as a summer resort city in addition to the attractions offered by the Fair itself. Mr. Upham detailed the advantages accruing to America, in a business, financial, and cultural way from the Exposition, and assured prospective visitors that all the official resources of the city would be utilized to make a visit to Chicago a vacation success.

One result of the meeting was the announcement by representatives of the domestic commerce committee of the association that advance sales of at least a quarter million tickets would be assured through the cooperation of membership firms. Traveling salesmen and other representatives of the companies will be used as additional sales representatives.

500,000 Tickets Sold.
Shortly after the luncheon Fair officials announced the purchase of 500,000 tickets by the American Express company, which paid cash with the order. M. M. Tveit, controller of the Exposition, said advance sales last night amounted to 1,750,000 admissions, with a certainty that the two million mark would be passed by April 2. A goal of five million advance tickets has been set by the Fair and the commerce association.

Among those present at the luncheon were Walter Dill Scott, president of Northwestern University; George Getz, Abel Davis, Ernest J. Krutgen, Robert C. Ross, George W. Young, and other civic and business leaders.

Reopening of the Hall of Religion at the Fair was voted yesterday by the committee on progress through religion of A Century of Progress. A tentative program was adopted, specifying that the religious building must show an assured income of \$20,000 in addition to anticipated profits from the temple. Under the tentative program the present assembly hall, containing the chalice of Antioch and other religious treasures, will be the only portion of the building to which an admission is charged.

Mussolini Gives Medals to Aviators on Chicago Flight

ROME, March 28.—(AP)—Premier Mussolini conferred gold medals today on the 23 aviators who took part in last year's mass flight to Chicago. Medals also were presented to the families of the two flyers who were killed on the expedition, Lieut. Squaglia and Sergt. Quintavalle.

PRESIDENT REQUESTS CONGRESS TO VOTE \$405,000 FOR FAIR

Participation of the federal government in A Century of Progress Exposition for 1934 was believed assured yesterday when it became known that President Roosevelt had asked congress to appropriate \$405,000 to enable the government to continue its exhibit and to maintain the official federal building at the Fair. The President also asked that the unused portion of the million dollar appropriation of 1933 be utilized in addition to the \$405,000 new appropriation.

The 1934 appropriation a few days ago was approved by the special committee appointed to handle federal participation in the 1933 Exposition. Congressmen predicted that the approval of the required appropriation would now be only routine.

LAKE PASSENGER SERVICE, CHICAGO DULUTH PLANNED

Duluth, Minn., March 28.—(AP)—For the first time since 1919 lake passenger service between Duluth and Chicago will be established here this summer when the passenger ship Alabama of the Journeys, Inc., Chicago line will be placed in service.

The ship will make one week cruises, leaving Chicago on Saturday and stopping at Milwaukee, Mackinac Island, Sault Ste. Marie, Isle Royale, and Duluth, arriving here on Tuesday mornings. Leaving here Tuesday on the return trip the ship will call at Fort William, Isle Royale, The Sault, Mackinac, Milwaukee, and then Chicago.

ROBBER IN HOTEL ROOM.
James A. Jordan, 25 years old, a salesman from Gilman, Ark., reported yesterday to police that he was robbed of \$45 Tuesday night by an armed man who entered his room in the Grant hotel, 6 North Dearborn street.

DENY VIOLENCE BY DEFENDANTS IN RACKET TRIAL

Witness Blames Wages
for Plant Strike.

BY GEORGE WRIGHT.

Numerous witnesses testified yesterday in behalf of the eighteen defendants in the racket conspiracy trial before Chief Justice Philip J. Finnegan to rebut testimony of violence previously introduced by the prosecution.

The witnesses called yesterday were mainly in behalf of the labor union defendants, who, the prosecution charges, committed bombings, window smashings, and even physical violence, in order to enforce their edicts.

Blames Wages for Strike.

Among the witnesses was Peter Palestrada, 4858 North Albany avenue, a union driver, who formerly was employed by Jacob Cohen, owner of the Blue Bird Cleaners and Dyers, 1032 North California avenue. He testified a strike was called on the Blue Bird store because the owner was behind in wage payments to the employees.

Cohen, as a state witness, had testified that a strike was called by Jean Franks and Robert Rado, business agents of the Laundry and Dye House Drivers' union, because he had failed to join the Cleaners and Dyers' institute, organized by Dr. Benjamin M. Squires, University of Chicago economist.

Prosecution Evidence Hit.
Several witnesses were also called to contradict prosecution evidence

against James P. Gorman, president of the Retail Cleaners and Dyers union and also labor commissioner of the Squires institute. It was testified during the prosecution side of the case that Gorman had made a speech in which he threatened to break the window of any retailer who failed to stop cutting prices and abide by the Squires ultimatum. The defense witnesses said they attended the meeting, and that Gorman made no such statements as attributed to him by the prosecution witnesses.

The plan to call Dr. Squires to the witness stand yesterday had to be temporarily abandoned because of the sudden illness of his attorney, James E. McShane.

Compromises for \$15,500 After Trial Is Started

The damage suit of Peter Panagoulis, a farmer who lives near Addison in Du Page county, against the Conley Cartage company, 2730 North Austin avenue, was settled yesterday for \$15,500 after the trial was under way. Panagoulis, whose back was injured when his truck was struck by one owned by the cartage company, had sued for \$25,000.

THE STORE FOR MEN MARSHALL FIELD & COMPANY

Last
3
Days

OF THIS IMPORTANT
BOX SALE OF
UNDERWEAR

Up go prices Saturday night on these superb underwear values. Shorts, shirts, athletic underwear... priced by the box in an event that we can't duplicate for a long time to come. Replenish that underwear drawer of yours now with crisp, fresh underclothing for the warmer weather ahead. Look at these:

SHORTS

Plain broadcloths and patterned fabrics.
6 pairs for \$3.60
Broadcloths, madras—white and solid colors.
6 pairs for \$4.80

SHIRTS

Swiss rib shirts cut with extra length.
6 for \$2.60
Flat-knitted shirts made from super-fine yarns.
6 for \$3.60

UNION SUITS

Smart dimity check styles.
6 for \$4.80
Athletic or shoulder button suits.
6 for \$7.20

FIRST FLOOR

To Young Men Home For Easter

Illustrated . . .

The topcoat is of our own Tipperary Tweed fabric, tailored into a swaggar Balmacaan with leather buttons (\$45). The hat is brown with a black band—a style we introduced last Fall (\$5).

The chap in stride has a good-looking gray shetland suit—and if you're interested, he has another pair of trousers at home; they'll be great for early-season golfing or to wear later on with an odd jacket. The coat has our own Free-sway plaited back (\$39.50 for coat, vest, trousers and slacks). His hat is our new Shoreline—a style that has hardly any crease at the top but rather resembles a saucer in the way it is dented (\$6.50). That blue oxford shirt with the button-down collar is (\$2.50). Note, too, that the tan camel's hair coat is still a Campus necessity (\$45).

ASK NATIONAL LABOR BOARD TO ACT ON STRIKE

Two Furniture Factories Affected.

The strike of 1,100 employees of the Kroehler Furniture Manufacturing company's plants at Kankakee and Naperville was referred to the national labor board in Washington yesterday by the Chicago regional labor board, which has been unable to settle the controversy. The national board was asked to take "immediate and drastic action" in the matter.

The decision of the local board, which was made after a number of hearings had been held in an effort at mediation, stated that the Kroehler company had violated section 7 of the NIRA by "interfering with the right of employees to organize and bargain collectively."

Denies Violation of Law.
D. L. Kroehler, vice president in charge of the Naperville plant, yesterday denied that his company had violated the section in question since the inception of the recovery act "or has an intention of doing so in the future."

The two plants were shut down on March 12 when the workmen walked out after their employers refused demands for wage increases ranging from 47 to 51 per cent and a change from a basis of piece work to straight time. Later the workers demanded recognition of furniture makers and upholsterers' unions which are affiliated with the American Federation of Labor.

The regional labor board was asked to take action and suggested arbitration. Several hearings were held and some points were agreed upon by both sides, but a full settlement could not be reached. According to the report of the board officials of the company refused to accept a provision by which the dispute would be submitted for final disposition to an arbitration committee in the event employers and employees could not come to an agreement.

Charge Arrest of Pickets.
"Affidavits and testimony," the board's decision stated, "indicated that Mr. Kroehler [P. E. Kroehler, president of the company] or his representative had brought in men from the outside and had them deputized; that he had in some manner secured the assignment of state highway police to patrol the roads in and about the Naperville plant; that these deputies, highway police, or city police had arrested 20 or more pickets and striking employees."

On March 19, a week after the walkout, about 100 employees returned to the Naperville plant in response to the company's announcement that the strikers would be rehired on their former working conditions. The next day pickets at the plant set upon men and women workers who sought to return to work and slugged a number of them. At present more than 200 employees are working daily at the Naperville plant, but the factory at Kankakee is still closed.

The decision of the regional labor board was not unanimous in the matter. D. M. Compton, industrial member of the board, stating a dissenting opinion. He stated that the Kroehler company was willing to abide by the terms of a settlement obtained by the national labor board in a dispute between nine Chicago upholstery concerns and their employees.

Workers Find Pot of Gold; Government Claims Half
LIMA, Peru, March 28.—(AP)—Brick masons making repairs on a vacant warehouse today heard a shout from one of their companions who had unearthed a small pot filled with more than 300 gold coins. Gathering around, they noticed a gleaming object. The coins were distributed equally among all of them. The dispute attracted police, and now the government, through the courts, will demand a half share in the discovery.

800 Fishermen Drown as Storm Sinks 300 Boats
SHANGHAI, March 29.—(Thurs.)—Eight hundred fishermen drowned, said Chinese officials today, when a storm off the coast of Kwangtung province sank 300 fishing junks. A Chinese customs cruiser hurried to the scene and picked up a number of survivors, the reports said.

LITTLE ORPHAN ANNIE: The Yes Man

Day By Day Story of the Experimental Farm

Goats Offered Homes.

March 28, 1934.
THE two little white billy goats which the experimental farm is going to give away apparently will not lack good homes after they leave their mother, Nanette. Letters from boys and girls, as well as adults, who want the pets are being received every day, all telling of the splendid care which they would give the animals. Just two young billy goats will be given away.

The reader who writes the most convincing letter as to his or her ability to take care of a pet goat will win one of them. Letters must be in by March 31.

Mary Elizabeth Ewing, who is 12 years old and lives near Pontiac, Ill., writes that she lives on a 160 acre farm and has a grand home for one of the goats.

"We have 160 acres of farm," she writes. "I am red headed and I have five red headed sisters. I would like to have a goat to complete my group of pets. When do you want me to come after the little goat?"

Charles Behning, 6223 Gregory street, assures us that he has a big yard and a shed that will take care of a billy very nicely.

Isabelle Curtis, who is 10 years old and lives on a farm near Antioch, Ill., promises a happy home for one of the young goats. She writes: "I always have wanted a little goat."

NEW YORK TENEMENT WAR PROVES TO BE A BOOMERANG TO CITY
New York, March 28.—(Special.)—The shoe was on the other foot today. For several weeks Tenement House Commissioner Langdon W. Post has been ordering tenement house owners to vacate their properties so that they can be torn down by CWA labor, thus eliminating the serious fire hazards in the slum areas of the city.

Several days ago Commissioner Post ordered that nine tenements on East 4th street and 5th street be vacated for purposes of demolition. They are city owned tenements, it developed, and the commissioner was before the sinking fund commission today to argue his point.

But Mayor La Guardia and his colleagues of the sinking fund, faced with violations on their own buildings, argued loud and long against immediate demolition of the buildings.

"It would be manifestly unfair," the mayor said, "to tear down these buildings until we've paid for them." The matter was finally compromised by an order directing the tenement house commissioner to remove the fire hazards from the buildings at once.

Aurora Evangelist's Son Ends Life in Hotel Here
George C. Murphy, 30 years old, son of the Rev. E. C. Murphy of Aurora, a prison evangelist, committed suicide yesterday by shooting himself in the head in a room in the Chateau hotel, 838 Broadway. He had taken the room the previous night. Beside the body was found a note to his mother, Mrs. Mary Murphy, 337 North avenue, Aurora, in which he said he was "in Chicago and going west." The Rev. Mr. Murphy said his son had been dependent over marital and financial difficulties. George separated from his wife a year ago, though he was not divorced.

U. S. COURT UPHOLDS TWO CALENDAR YEAR PRIMARY VOTE RULE

Judge John P. Barnes of the United States District court held yesterday that an Illinois voter who entered the primary of one party in 1932 cannot vote in the primary of any other party this year.

In a test case brought before him, the federal judge declared there was no doubt the statute prohibiting voters from changing parties within two years referred to calendar years and not to election years. The primaries of 1932 fell on April 12. This year they come on April 10—less than two calendar years later.

Attorney General Kerner advised downstate election officials the statute was not based on calendar years. On the advice of Edward F. Dunne, former governor who now is its chief counsel, the Chicago election board's ruling was the opposite. The board is sustained by Judge Barnes. The board will not sanction a change of party by a voter who voted in the primaries of 1932.

EASTER LILIES FEATURE PARK FLOWER SHOW

Easter and calla lilies are predominating posies at the annual flower show of the Washington park conservatory which opened yesterday under the supervision of George La Force, assistant chief florist. The exhibition is open daily from 8 to 4 o'clock. "Attracting most interest, aside from the lilies, are the clustered white eupatorium, ceneraria, chrysanthemum, known as the 'poor man's orchid,' and the yellow genista," Mr. La Force said.

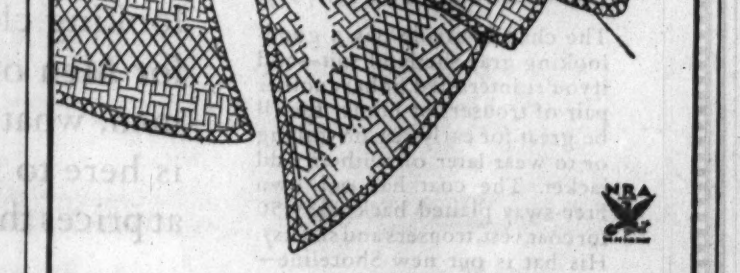

Garfield park conservatory's annual show will open Saturday and continue until April 15. More than 130 varieties of flowers will be shown, including Easter lilies, hydrangeas, and roses. August Koch, chief horticulturist in charge.

Nearly 200 different kinds of flowers are being viewed daily at the Lincoln park conservatory. The display opened Tuesday in charge of William Blasling, horticulturist.

Truck Driver Loses Auto in Indiana Snowdrift

South Bend, Ind., March 28.—(Special.)—Vern Hopkins, truck driver for the Treloar Trucking company of Des Moines, Ia., was transporting three new automobiles on a truck from Detroit to Des Moines. He missed one of the automobiles at Chicago Heights and returned 100 miles to this city searching for it. Word arrived from Varparaiso police that the machine had been found in a snowdrift past which Hopkins had driven on his search.

WOMAN JAILED IN NEW ORLEANS CITY CAMPAIGN

New Orleans, La., March 28.—(AP)—Mrs. Louise Jensen, 45 year old mother and Socialist candidate for the city commission council, tonight pursued her campaign for election from the parish prison.

Smiling broadly, Mrs. Jensen went to jail rather than pay a \$250 fine imposed in Recorder's court for distributing circulars without a permit. The circulars sharply criticized the city administration and called on voters to elect the Socialist slate in the general election April 3.

Unless she decides to pay the fine or appeal the case, Mrs. Jensen will spend 10 days in jail.

Her arrest at noon on busy Canal street was the culmination of a controversy she had waged with city officials since the municipal primary last January, when she was arrested for the same offense, distributing circulars.

Since then Mrs. Jensen has pleaded for a trial, that has been repeatedly postponed, and has vigorously attacked New Orleans politicians, charging that she was arrested for an offense that both Mayor T. Semmes Walmesley's followers and the forces of Senator Huey P. Long had practiced in the campaign.

DIES OF SKULL FRACTURE.
Milwaukee, Wis., March 28.—(Special.)—John Ratajczak, 31, 2808 North Buffum street, an employee of the Milwaukee Sausage company, tonight died of a skull fracture suffered this afternoon in a fall from a ladder in the company's West National Avenue plant.

BREAKS COLDS IN 5 HOURS!

8-Action Relief Fights It Thru "Mass Attack"

Don't let that common cold "lick" you. Fight it! Not with half-way measures which strike at merely one, two or three symptoms. Be modern. Overwhelm your cold with the "mass attack" method. Fight the symptoms in eight different ways at once.

That is precisely what Doctor Platt's Rinex Prescription does. Rinex neglects no symptom, overlooks no evidence of misery. Your head is all clogged up, your nose congested. Sniffle... sneeze... wheeze. Your brain refuses to work. Each of these things means something. Attack them all at once, with Rinex, and see how much better you feel, in every way, in 30 minutes.

Quoting Dr. Platt
The discoverer of Rinex, Doctor M. G. Platt, tells you, from the results of his persistent cold research, exactly how Rinex acts: "A cold should be fought in eight different ways. Rinex actually does this. (1) It quickly clears the head, making breathing easy. (2) It tends to prevent or allay spasms of the bronchial tubes. (3) It reduces attendant fever. (4) It promptly and safely relieves headaches and other associated pains and discomforts. (5) It safely soothes the nerves, without the use of narcotics. (6) It stimulates gently, relieving that dull, depressed feeling. (7) It reduces acidity, which is frequently a contributing cause. (8) It provides the means for adding to the calcium content of the blood, often deficient in cold conditions. A cold is in the system, and that is why, to control it, you must reach it internally."

Easy to Take Rinex
There is nothing unpleasant about Rinex. You have a cold. With a glass of water, wash down two tasteless Rinex capsules and one Rinex tablet... Almost magically your head clears. You stop sneezing and wheezing. No more nose blowing. Your eyes cease burning. You have a sense of freedom. In 30 minutes, see how much better you feel.

Rinex is perfectly safe and is not habit-forming. It is a godsend to sufferers of head colds, nasal catarrh and asthmatic paroxysms.

Be on Your Guard
When you ask your druggist for Rinex, be sure the label on the bottle says Dr. Platt's Rinex Prescription.

YOUR GUARANTEE
If Rinex does not master your cold in 5 hours, your druggist is authorized to give you back every penny you paid for it.

It is true that more than 10,000 druggists recommend Rinex to all their customers. If your druggist attempts to offer you a substitute, it is proof that he is not worthy of your confidence. Be sure of 8-Way relief, insist on Rinex, and nothing but Rinex. In the liberal size bottle, containing both capsules and tablets, it is \$1.

THE WORLD'S GREATEST NEWSPAPER

Society Makes Final Plans for Easter Parade

Orchids and Gardenias to
Be Popular.

BY JUDITH CASS.

UNLESS there is a decided change in the weather fur coats will be more comfortable to wear in the Easter parade than new spring coats or suits, but count on a change, you who want to appear at your best in the parade. The forecast in the weather bureau said late yesterday afternoon that it was too soon to predict how it would be Sunday, and that there is a chance that it will be seasonably warm by Easter morn.

So, perhaps, you will be able to take that new tulle out of your dress bag and put it on Sunday morning, and even if you aren't—if you have a devoted beau—you'll certainly have a corsage of flowers to dress up your old winter coat. You may have a spray of those new and popular small orchids, the cymbidium variety, for they are very hardy and last in any weather for several days; and we understand the fashionable florists are advising perplexed gentlemen to send their lady loves three or four of these lovely blossoms. They come in delectable shades, including a just off white touched with lavender and brownish, a heavenly lilac green, with centers of brown tipped with cerise and various other color combinations.

And—best of all—they are not too expensive for the average man who wants his best girl to have a corsage from him on Easter.

Pure White Ones

Most Expensive.

Of course the "beated bondholders"—if there are any of those proverbially rich men these days—probably will choose pure white orchids for their ladies, for those exquisite flowers are about the most expensive ones available for corsages today. They cost from six to nine dollars apiece and one florist told us yesterday that he already had several orders for corsages of three and even four of them. One makes a good showing, however.

Gardenias will bloom on many a shoulder, for men have learned that almost every woman likes these fragrant flowers and that they go with every costume. The very young sub who receives their Easter corsages from their proud fathers will have tight little nosegays of sweet peas and forget-me-nots or something equally dainty and demure, although they probably would rather have the more sophisticated orchids.

St. James' church, many of whose parishioners are well known Chicago socialites, will figure in the Easter parade even more than usual this year, for Sunday's services will mark in a sense the inauguration of the centennial of this old stone church on Huron and North Wabash avenue whose tower survived the great fire of 1871.

A committee of St. James' people, headed by Joseph T. Ryerson, the senior warden, has been at work for some time making preparations for the centennial program and it is understood that Dr. Duncan H. Browne, the rector, will make the first formal announcement of the plans at the Easter services. Tickets have been issued to the parishioners for admission to the 11 o'clock service and it is certain that the "standing room only" sign will go up before that hour. There will be other services at 8 a. m. and 10 p. m.

Another Episcopal church, St. Chrysostom's, further north, contributes to the Easter parade both before and after church, and so do the Fourth Presbyterian church and the Holy Name cathedral, for they all number many socialites among their worshippers.

Tell Engagement

of Cherie Burnham.

"Mr. and Mrs. Hubert Burnham of Evanston announce the engagement of their daughter, Cherie, to James W. L. Stone, son of Mr. and Mrs. James L. Stone of Bristol, Tenn." was the interesting announcement Mrs. Burnham telephoned to us yesterday just a few hours after she arrived at home from a trip to Mexico City.

Mr. Burnham stopped off in Iowa, La. to meet Mr. Stone, whom her husband had met earlier this winter when she was visiting friends in New Orleans.

No definite date for the wedding has been set, but it is to be fairly soon, perhaps in Evanston and perhaps in the south, for it is hard for young Mr. Stone to get away from his work in the oil fields for more than a few days at a time. He is building a house for his bride-to-be at Lake Charles, which is not far from Iowa and a more attractive residential place than the oil town, according to Mrs. Burnham.

Miss Burnham came home from a lengthy visit in New Orleans recently and has been in quarantine ever since with chicken pox, so she will have to receive the good wishes of her friends over the telephone until she is out of quarantine at the end of this week. She was educated at the Three Seasons school at Lake Placid, and in Florida and at Chevy Chase in Washington.

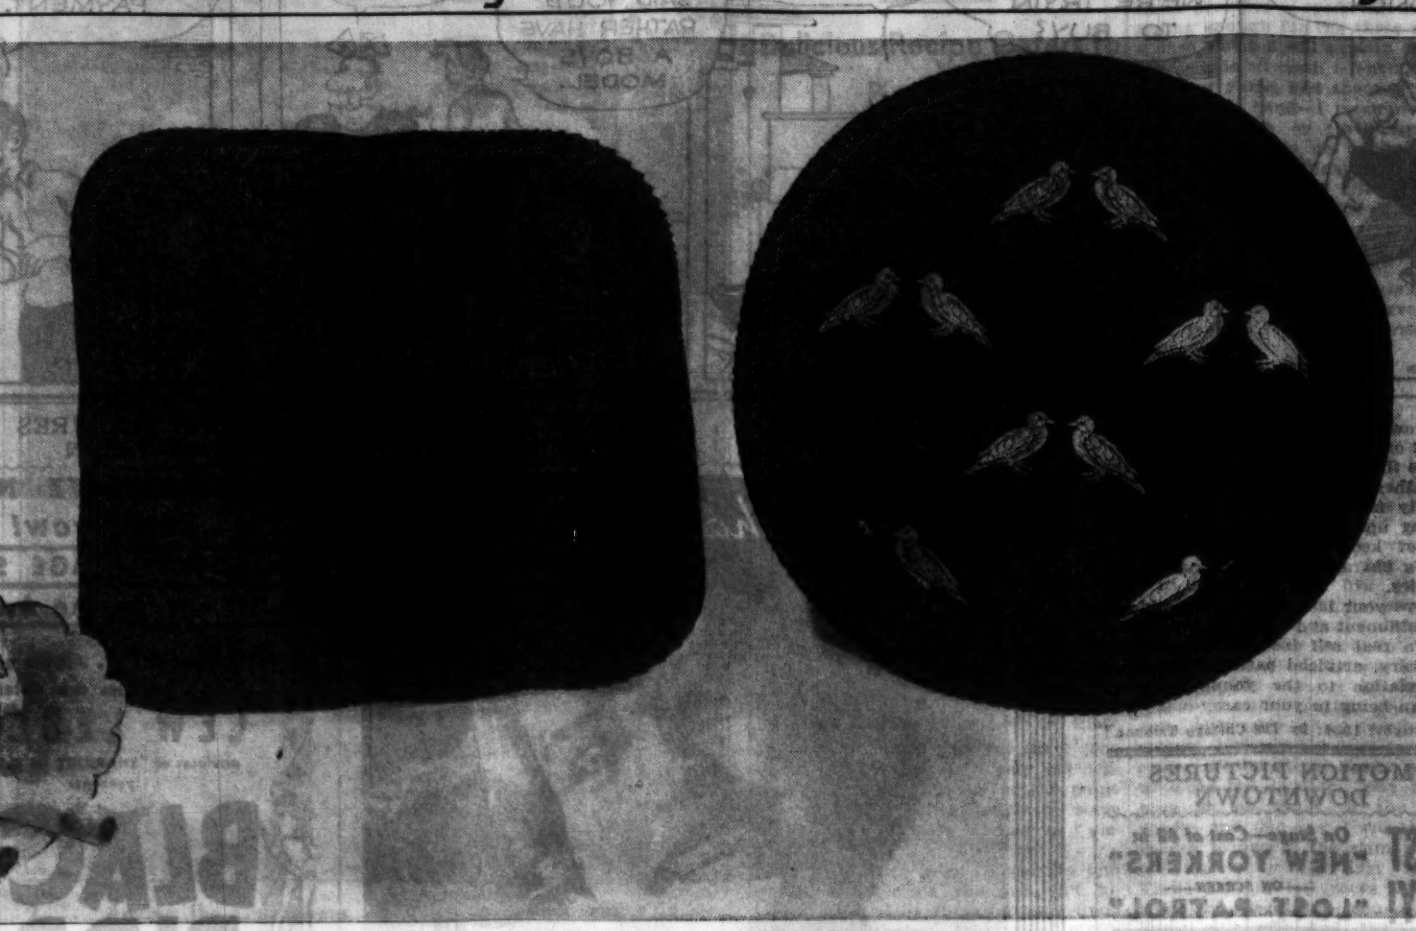

Mr. and Mrs. J. Franklin Nelson, 214 Walnut street, Winnetka, announce the engagement of their daughter, Marjorie Louise, to Richard D. Buck, son of Mrs. Frank H. Gallagher of 228 Woodlawn avenue.

American Designer Presents Afternoon Bags

(TRIBUNE Studio Photos.)

Afternoon Bags Do Double Duty for Evenings

BY RHEA SEEGER.

What the American designer, Elizabeth Hayes, can do with a handbag idea is illustrated in the picture today. The results are now decorative discs called afternoon bags, made of taffeta, corded silks, satin, and crepe. They are modestly priced and can double for afternoon and evening wear.

One model is a square, made of striped taffeta with a narrow fluted edge; another circular shape, also with a fluted edge and the center of printed silk. Still another of narrow corded silk with two loops, and a fourth made of wide waled silk.

All are small, easy to carry, as most of them are fitted with straps that can be slipped well up on the arm. If you are insistent, you can bring in some material of your pet suit and have a bag made in a few days.

Spring knitters have been provided for with some swanky big tweed bags that are about the longest things in town. They are tall and lined with harmonizing crash, have a good sized pocket with a buttoned flap for change, commutation tickets and all the extras you lug around in your usual handbag, plus a deep capacious compartment to hold your knitting and needles.

The zippered opening is on the side, about an inch below the concealed frame. You can buy them in soft pastel colored tweeds that will blend with your new tweed spring suits.

New clips for your Easter blouse or dress are shell effects in green, rose, mother of pearl, and white. They are unusually smart and different and will make nice accents on either silk or cotton.

Another new bracelet! Chanel's pet that looks exactly like a deep old fashioned stiff cuff with cuff buttons. You can have it in either silver or gold metal and you can use a pair or wear one on the left wrist. They are extreme but most effective with a very simple one piece wool dress.

Dots are back to fashion a flat sailor, a rakish neck bow, and a matching envelope handbag. This startling dotted trio will do grand things for your tailored suit of either black or blue. The background is either blue or black with penny sized dots in clear white.

WASHINGTON SOCIETY

Washington, D. C., March 28.—(Special.)—Mrs. Roosevelt had a small apartment dinner with her tonight at the White House. Later they occupied a box at the opera "Anna Bolina," with Mme. Jeritza as the prima donna.

The secretary of the navy, Claude A. Swanson, who has been in the navy hospital for several months, has joined Mrs. Swanson in their R street home.

The Japanese ambassador and Mme. Saito were entertained at dinner tonight by the former military attaché of the American embassy in Tokyo, Col. Charles Burnham.

Mrs. William S. Culbertson, wife of the former American ambassador to Chile, entertained at tea this afternoon for their daughters, Julia and Jane, who are spending their vacation from Bryn Mawr with their parents.

Shorter Skirts Revive Need of Leg Exercising

BY ANTOINETTE DONNELLY.

The skirts for street wear definitely are shorter. Not short, but short enough to show the symmetry of leg and ankle, or lack thereof.

Which means that you and I had better go in for a bit of leg work and right away pronto. The most of us probably need it anyway just to restrain the leg and foot for the work for which it was intended, carrying us hither and yon. We have adapted ourselves too readily to the easy way of transporting ourselves from here to there. Actually, there are women who haven't walked an honest-to-goodness mile in years.

Suppose, if you feel that your leg silhouettes could stand improvement, you take a lesson from the ballet girls. They may get muscle, but they are not caught with fat bulging from calves or ankles. You needn't worry about getting the muscles. You won't work hard enough, nor long enough, to do any more damage to the leg than trim it down and accommodate it in a neater looking bit of hosiery.

You could easily rig up a bar along some wall in the house and with this aid, take a lesson from the ballet girls. You know the kind of bar on which the dancer practices. You need only a short one. But grasp it with the left hand and kick forward with the right leg, bringing foot back to the floor. Kick the leg to the side and to the back. Always raise the leg from the hip. Then grasp the bar with the

THROUGH THE LOOKING GLASS

Just to add to the general Easter upsurge this whole town is in a terrific dither about perfumes. This week everywhere we go an arm reaches out, atomizer in hand, to spray up with some perfume sensation. We find the feminine public stampeding the Chicago perfume counters, too; it's the thing this spring, to give your perfume more careful thought than you've ever given it before.

Going the rounds we'd say that smart perfumes this season are one of two things, naughty or nice. The naughty ones [ask, ask] are most popular, but the nice ones, usually floral scents or blends, are coming right along; doing better than they've done in years. It's this new fashionable femininity we've been hearing about.

Of course you know about the perfume made especially for furs and woollens. We got ourselves sprayed liberally with it yesterday, and at least fifteen people, men and women, have asked us what it was. At first it's pungent to a rather frightening degree but this wears off; almost before you know it your fur duds glow with a teasing scent.

And speaking of being romantic, which is very fashionable this year, don't overlook rose perfumes. If you're the type, there's one rose scent that's the most romantic this mundaing world could offer you. It's the least bit heavy; but lady, it's seductive.

ELIZABETH NANGLE.

Richard Barthelmess Sent to Bed with Ear Abscess

Hollywood, Cal., March 28.—(AP)—It is said to be suffering from an ear abscess and a cold, Richard Barthelmess, movie actor, was ordered to bed for a week by a physician who examined him late today. Barthelmess was laid up with a cold on Monday, but worked yesterday and today.

Altar Society Benefit.

The Altar and Rosary society of Our Lady of Peace parish will have an Easter bazaar Saturday at the church.

Press Agents Name Wampas Stars for 1934

Former Northwestern
Co-Ed Among Them.

(Pictures on back page.)

Hollywood, Cal., March 28.—(AP)—The thirteen Wampas "baby stars" for 1934, selected from a field of 33 nominees by the Western Association of Motion Picture Advertisers, were announced late today. They were: Judith Allen, Hollywood; Betty Bryson, Los Angeles; Jean Carmen, Portland, Ore.; Helene Coban, New York City; Dorothy Drake, Santa Monica, Cal.; Jean Gale, San Francisco; Hazel Hayes, La Crosse, Kas.; Ann Hovey, Mount Vernon, Ind.; Lucille Lund, Buckley, Wash., former Northwestern university co-ed; Lett Anne Meredith, Dallas, Tex.; GIG Parrish, Cambridge, Mass.; Katherine Williams, Seattle, Wash.; Jacqueline Wells, Dallas, Tex.

In addition to the winners the publicity men announced six alternates. They were: Joan Chatburn, Hanover, Mich.; Dorothy Granger, New York City; Neoma Judge, Minneapolis; Leonore Koebe, Indianapolis; Mary Korman, Idaho Falls, Idaho; and Irene Ware, Pelham Bay, N. Y.

In previous years the publicity men had announced only two alternates, but six were named because of a tie in the balloting.

Selection of the thirteen winners was made last night, when the 33 candidates paraded nervously across a stage of the Writers' club here under the critical inspection of 113 publicity men.

Balloting followed the parade of feminine pulchritude, but names of the winners were not announced until today.

This was the eleventh crop of "baby stars" selected by the press agents.

Only free lance actresses were eligible this year, although several of them are being considered for long term contracts by major producers.

All the winners have had some experience before the camera, and some of them have been successful on the stage.

Mary Korman, one of the alternates and a recent bride, was formerly a member of the cast of "Our Gang" comedies.

Ann Hovey, at 37 pounds, is the featherweight of the winners. Betty Bryson, who weighs an even pound, is the niece of Warner Baxter. The winners will be introduced to the public through an intensive campaign of presentation, including a nationwide broadcast, a frolic and a ball to be staged somewhere in the east following the traditional transcontinental junket of the "baby stars."

Miss Judith Allen was born March 18, 1914, in Hollywood. Her real name is Laurette Rutherford. Her parents were of the theater and she started her career at the age of 4. She was a specialty dancer for Fanchon & Marco.

Miss Betty Bryson, born in Los Angeles, attended a dramatic school. She refused offers from films until recently, when she took a role in Will Rogers' "Big Boy." She has auburn hair, is five feet two and weighs 100 pounds.

Miss Jean Carmen was born April 14, 1914, at Portland, Ore. She began her professional career with Fanchon & Marco and got her start in pictures at Universal as a double in athletic events. She is a blonde, blue-eyed, stands five feet two and one-half inches, and weighs 107 pounds.

Miss Helene Coban, educated in private schools in New York and abroad, comes from the prominent Cohan theatrical family. She appeared in numerous Broadway productions and had parts in such pictures as "Lightnin'" and "Penal Code." She has brown hair, blue eyes, and weighs 107 pounds.

Miss Dorothy Drake is a daughter of Grace Wallace, scenario writer, and cousin of Director Richard Wallace. Films in which she had had roles include "Eight Girls in a Boat," "Success Story," "Little Women," and "A Man of Two Worlds."

Miss Jean Gale has been an entertainer since the age of 4. She and three sisters played in vaudeville. San Francisco is her birthplace. She came here to appear in the Fox picture, "Bottoms Up." She is a blue-eyed brunette, weighing 120 pounds and standing five feet six inches.

Camp Reunion.

Girls who have attended Camp Bryn Aton in Michigan will hold a reunion dinner Saturday evening at the Blackstone hotel.

Front Views and Profiles By June Provines

A MAN named Sykes writes that he was in Hammond last Sunday and went to the movie where, in addition to the picture and five acts

ring to Amarillo, Tex., commented that it was a place where not even God could make a tree. He wrote a poem to that effect.

Scenes—of vaudeville. Shot—there was a featured star, billed as "Aloma." Autographs—See All—Flirt.

WE'RE a little late with this story of Dr. G. Bromley Oxnam, president of DePauw university at Greencastle, Ind., because he told it when he was in town recently to talk before the Sunday Evening club. Dr. Oxnam, with former President Hoover and Dr. Ray Lyman Wilbur occupied a box at the Leland-Stanford-Columbia football game, and Babe Ruth was brought to the box to greet the former President.

During her act she demonstrated her occult and psychic powers, and told who stole Mrs. Smith's watch, how, when, and why Elsie J. was going to change her position, and revealed many secrets. After the theater Mr. Sykes went to a nearby restaurant, and pretty soon Aloma came in, seated herself at a nearby table, and addressed the waitress.

He said he gave it to her, and she thanked him and ran away, only to reappear shortly and ask a second time for his autograph. He obliged her, asking no questions, but when she asked for a third and fourth autograph he inquired why she wanted so many.

"Say, have you got any of that good spaghetti left?" the psychic one inquired.

"Well, my friends and I are collecting autographs and we exchange when we get duplicates. It takes three of yours to get one of Babe Ruth's," she answered.

WE do not know how the policeman's horse broke his leg, but he stood at the curb on Kinzie near Clark, on three legs, his fourth hanging limp. His master, with a sad, concerned face, was unhooking the horse's saddle and bridle. He tossed them on the sidewalk, and pulled his gun from its holster. Then his nerve failed him. He couldn't do it, and he handed the gun to a second policeman, and turned away. We didn't see any more either.

WHILE we were sitting here wondering what to print, a friend came up and mentioned a little incident that happened to a Chicago attorney. It seems he is given to philtering, and recently was divorced and remarried. On a recent evening he was driving north and, seeing a girl waiting for a bus, stopped and asked her if she would like a lift. She accepted, and it turned out to be his ex-wife. He gave her the lift anyway.

ORSON WELLS, the young protégé of Dr. Maurice Bernstein, who is touring with Katharine Cornell and her stock company, was in town Sunday, on the way from St. Louis to Ohio. They have been playing the west and southwest, and now are about to start south. Young Wells, referred to as "The Great One," was in town Sunday, on the way from St. Louis to Ohio.

Business Men's Music Groups to Make Joint Concert Annual Affair

Joint concerts by the Chicago Association of Commerce Glee club and the Chicago Business Men's orchestra are to become annual events, according to an announcement yesterday. The two organizations recently gave a joint program at the University of Chicago.

Cross" tomorrow night at 8 o'clock. The soloists will be Anna Burmeister, soprano; Maurice Parsyok, contralto; George H. Riegler, tenor; and Winifred Stracke, bass. Barrett Spach will conduct.

British Ask Germany to Lift Ban on Jewish Actress

(Copyright, 1934, by The New York Times.) LONDON, March 28.—Sir John Simon, foreign secretary, told the house of commons today that the Federation of British Industries was corresponding with German authorities with a view to a reconsideration of the banning in Germany of the British film, "Catherine the Great," starring Elizabeth Berger, an Austrian Jewess.

A Vicious Circle

By ALICE CAMPBELL

Dorinda, known as Dodo Quares, is bound to death following a dinner party in her Paris apartment. Dodo, who was untrammelled by scruples or breeding, had served a drug to her guests. Helen Roderick, who was a friend of Dodo's deceased mother, was sitting with Dodo's sister, the dinner, but awakened early in the morning and discovered the crime and Dodo's guests lying about in deep sleep. She is able to arouse her friend, Tommy Roderick, a journalist. Tommy's dinner partner was Dinah Blake, an American artist, whose engagement to Christopher Loughan, in the American embassy, was according to rumor, broken on account of Dodo. Dinah is not among the sleeping guests. Tommy arouses the others and sends for the police. A doctor at the time of Dodo's death around midnight. Helen sends Tommy to break the news to Dodo's stepfather, Basil Jethro, celebrated Oxford scholar, who was her guardian and trustee and who had long since given up trying to curb his charge. Dinah can't be found. Tommy conducts a search for her and for facts to help clear her of suspicion. She paid a call on the Robert Longhorns shortly past midnight, after leaving Dodo's party. She was in high spirits. Christopher Loughan saw Dinah on the street after 1 o'clock, but when he tried to overtake her she eluded him.

INSTALLMENT XVI

VICIOUS GOSSIP.

At the junction of the boulevards the two men's eyes met. Each knew to a sick certainty what the other was thinking—that if Dinah was not deliberately hiding from justice, she had made away with herself.

Christopher said nothing, but the anguish in his set features forbade the offering of consolation.

"Shall I drive you back to the embassy?" asked Tommy.

"No, drop me here. I'm going to see Hallic Pemberton."

Till now the shared anxiety of their quest had constituted a bond between them, but Tommy imagined that Christopher was fast regretting his bestowal of confidence. The brown eyes searched his face with a look half inquisitive, half resentful, as though their owner suspected he had not been told everything.

"Wondering, I suppose, if I've fallen in love with the girl," reflected Tommy as he drove away. But God knows that's not the case.

No, at eight-and-thirty one doesn't fall in love over night, or even play Don Quixote with any especial fervor. Yet Tommy knew that for some obscure reason he would champion Dinah's cause if she stood in the dock now, charged with a dozen crimes. Besides, did not instinct keep insisting that there was something abnormal about it all, that the red haired girl with her crystal clear gaze and her piquant stubbornness was no less a victim than the one who had been so foolishly butchered?

The noon papers were out. He bought a copy, and devoured the account of last night's sensation. The bare facts, the list of guests, but little more, except, between every statement, the clear implication that the vanished girl was guilty. Here, though, was something which struck Tommy as paradox.

Aimless driving had brought him near the Rue du Bao.

In reference to the stepfather's telephone call Benedetto declared that Mr. Jethro had wished to set forward the hour of a luncheon engagement already made with Miss Quares. Luncheon engagement? It was hard for Tommy, with the tone of a certain discordant conversation still ringing in his ears, to understand how Dorinda could have intended meeting Jethro the following day. Indeed, there must have been some misunderstanding on the butler's part. Certainly, Jethro had said on the stairs, "As I'm not likely to see you again," Tommy's own hearing might have been at fault, but he was inclined to doubt it.

Still, this was neither here nor there. What mattered was that no specific motive for murder was mentioned, a circumstance which brought him intense relief. Motive in a case like this where there could be no eye witnesses was everything. Would it not be a good idea to ascertain just how far rumor had been at work?

Aimless driving had brought him near the Rue du Bao, in which street Peter Hummuck, the most notorious scandal monger in the quarter, had his combined bachelor apartment and shop. Tommy heightened speed, and five minutes later was shown by a charwoman into a room with Genoese velvet and smelling of incense. In a Louis Quinze bed, under a rose canopy, lay Peter, prostrate, unconscious.

"You!" he screamed. "I strictly forbid that old hag to let any one in." he complained in muffled and aggrieved tones. "What does she mean by it?"

"Ten francs," replied Tommy, cruelly, "was the price of admission."

The pale eyes came to the surface to glare balefully. "How dare you speak of that wretched stuff? O, let me forget, let me forget my door."

"I saw your man outside, staring at your showcase, but I thought he was detecting faked antiques. What makes you think he's got his eye on you?"

"It's not just me, it's every single one of us that'll be spied on, followed about, as long as that Blake girl's at large."

"So you feel certain Miss Blake's responsible, do you?" inquired Tommy, coldly.

"How can there be any doubt of it? Didn't she warn her way into that party last night simply because she was in on the dope stunt, and saw her chance to do a murder without getting the blame? It's clear as day, when you know the facts."

"It's not at all clear to me that she expected to take dope," said Tommy between his teeth. "I'm sure she didn't. And if she did know what was planned, why do you imagine she drew definite suspicion to herself by going away?"

"She weakened, I guess. Murder's not a thing you do every day. But the whole quarter's wise to the way she's been absolutely stalking Dodo Quares for the last few weeks. Green eyed over that embassy fellow Dodo took away from her."

"See here, Hummuck," said Tommy sternly. "You know as well as I do how little truth there is in these stories. What I'd like to find out about this case is who started it—how it got started. I want to know it's a lie, and to say that your remarks on the subject are extremely offensive to me. To me—get that?"

Hummuck's jaw dropped. His eyes took on a shrewd look as he protested in an injured voice. "O, well, how was I to guess she meant all this to you? I suppose I'm wrong, then, I dare say none of these fresh young things go in for dope, and that little Cope-Villiers isn't just regularly saturated with cocaine. One hears these yarns, but—"

"That's enough," cried Tommy, furiously.

Kicking over a beaded stool that barred his way, Tommy made a violent exit. What he had heard disturbed him, indicating as it did the suggestions sure to be made to the judge by those frantic to shield themselves at another's expense. A surmise alone would suffice to set fire to the train of gunpowder, and if it were remotely hinted that Dinah had been a party to the drug taking project the presumption of her guilt would be strong indeed.

He regretted now that his hasty temper had forbidden him finding out precisely what that baby fool Hummuck referred to as facts. Still, there was Mowbray, who undoubtedly knew better than any one else just when and how the fatal joke originated. Helen had told him that Dorinda, after knowing no restraining influence would be present, had rung up her principal guest and held a conversation with him. If, as Helen supposed, the affair was arranged then, without previous preparation, the circumstance would tell in Dinah's favor.

"I'll hunt the fellow up now," Tommy decided. "I heard something about him and Cleaves occupying a friend's flat, but—hold on, though! The addresses are all in the newspaper."

So they were, with that of Messrs. Mowbray and Cleaves given as 24 Rue Guymer.

With Hummuck's speech regarding police supervision fresh in his mind, he had little difficulty in placing the shabby lecher who, picking his teeth, leaped against the iron railings along the garden side of the street. It occurred to him to wonder what a single sleuth would do if his two suspects came forth to go in separate directions.

"But that's his funeral, not mine," he reflected, as crossing to No. 24, he made inquiries of the concierge.

A sharp faced man servant in a striped coat showed Tommy into a studio. Mowbray and Ronald Cleaves, wearing dressing gowns, sat, in earnest discussion over bowls of café au lait. At the visitor's approach they abruptly ceased talking and stared with a sort of stilled attentiveness. Mowbray did not rise, and an unobtrusive intermission elapsed before his young companion got up, vaguely hostile in manner.

[Continued tomorrow.]

Doris Blake Answers

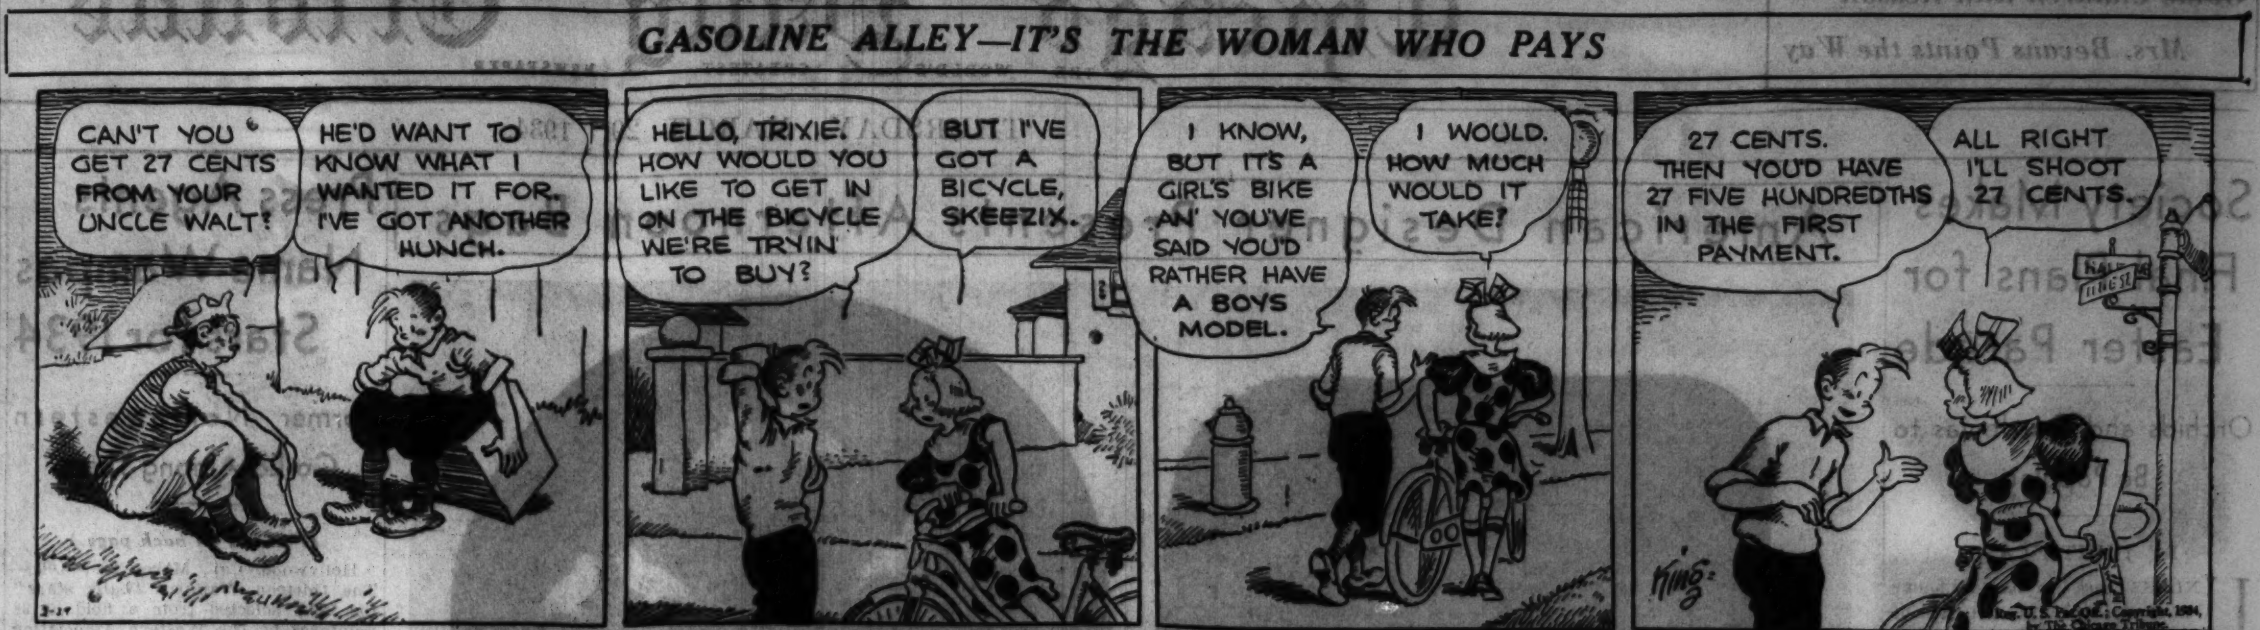

"Dear Miss Blake: In there any harm in accepting a friendship gift from a married man, such as a necklace?"

Tessie.

Unless his wife knows about the gift, you're playing with dynamite when you accept gifts from married men. Why not let the wife have the necklace and you run along about your business?

"Dear Miss Blake: I am 16 and so with a fellow my own age. When with a crowd he passes insulting remarks, although he says it jokingly. Please advise. BLUE EYES."

If you're not over-sensitive and know the difference between a joke and an insult, clamp down on the fellow as hard as you can, whenever he embarrasses you.

Don't Attempt to Make Child a Little Adult

BY GLADYS HUNTINGTON BEVANS

Is your child constantly falling below the ideal of perfection you've set up for him (or her)? And are you constantly conscious of it?

If you are, he knows it—and it's bad for him. And if you're conscious of it and he's conscious of it, then there's something wrong with this picture. What is it?

I'm quite sure I can tell you.

In the first place it's not humanly possible to achieve perfection.

The second thing that's wrong with the picture we're looking at is that the ideal many parents set up is not at all a right ideal for childhood. "I want a quiet, well-behaved child," or "I want my daughter to be a sweet little lady," are only a few of the descriptions I receive of the ideal child desired. Nature has an ideal for childhood—and that's the one every parent and teacher should make it her business to find out. That ideal must not be based solely upon the convenience

of grownups and what grownups will think of the child.

The third thing that causes a mother or father to feel that a child is constantly falling below an ideal is the setting up of an ideal that is utterly out of keeping with the individual child's character and personality and abilities.

Have your ideal but let it represent the fulfillment and development of your child's real self instead of being an arbitrary, artificial pattern that bears no relation to the young, growing human being in your care.

Society Makes Final Plans for Easter Parade

Orchids and Gardenias to Be Popular.

(Continued from page 17, column 1.)

Giuseppe Castruccio, royal Italian consul general; Robert Hall McCormick, president of the Alliance Française, and Lewis Bernays, the British consul general, all will be present to represent officially their countries to-night at the opening reception of the 13th international exhibition of water colors, drawings, miniatures, and pastels at 8 o'clock in the Art Institute.

Mr. and Mrs. Potter Palmer will lead the receiving committee composed of the board of trustees and their wives. A stringed orchestra will play while the Art Institute members wander from gallery to gallery to see the new exhibit.

Junior League Sale to Be Today.
At 7:30 o'clock this morning 45 or 50 Junior League members, more than have ever volunteered before, will gather in a store at 43 East Wacker drive to receive final instructions on how to handle customers and sales at the league's annual spring second-hand clothes sale.

By 11 o'clock the selling will be finished and the girls will be dirty, disheveled, tired, and happy from waiting on hundreds of pushing and grabbing women and "keeping an eye on" the various counters.

The chairman of the sale is Miss Lois Truesdale, and her committee chairman are Miss Jean Hyman, town collector; Miss Marie Louise Gardner, country collector; Miss Joy Fairman, sorting; Miss Jean MacArthur, pricing; Miss Helen Davies, business manager; Miss Helen Johnson, selling; Mrs. William W. Wilt, wrapping; and Miss Susan Badgerow, publicity.

Most of the hardest work in preparation for the sale was done yesterday, when the clothes were transported from the sorting and pricing room at the Drake hotel to the shop. The shop had to be cleaned and the clothes hung and the shoes, bags, linens, hose, and odds and ends placed on long counters.

About the sales girls this morning who are provisionally Mrs. Fairman, Miss Truesdale, Miss Hyman, Mrs. Richard M. Lambert, Miss Virginia Ashcraft, Miss Badgerow, Mrs. John Beale, Mrs. James Norris, Miss Alice Brenner, Miss Elisabeth Bunting, Miss Marion Gordon, Miss Betty Needham, Miss Marjorie Street, Miss Davies, and Mrs. Henry Taylor.

Albert T. Taylors Go to Arizona.

The Albert Thomas Taylors, who started society by eloping Monday night, received the forgiveness and blessings of her parents, Mr. and Mrs. Gustavus F. Swift, on Tuesday and left that night for a wedding trip to Arizona via St. Joseph, Mo., where they will pay a short visit to her parents, Mr. and Mrs. Albert R. Taylor.

Mr. and Mrs. Taylor moved from Milwaukee to St. Joe four years ago and, according to our correspondent in the latter place, they are "socially prominent, members of the country club, wealthy, and have a fine home in exclusive residential section."

Mr. Taylor has spent the summers in St. Joseph and that last fall he was a pupil of Gene Sarazen, after which he went on a short tour with the golf champion.

So it would seem that in addition to being a football star, Germaine Swift's bridegroom is a good golfer, too. Before going to Yale he went to the Country Day school in Milwaukee.

Mr. and Mrs. John C. Pitzer returned to their apartment at 202 Madison yesterday after a two-month vacation at Hobe Sound, Fla. Mrs. Pitzer's mother and sister, Mrs. William L. Burrows and Miss Louise Burrows of Lake Forest, still are in Pasadena and are not expected to arrive at home until near the end of April.

Louis Sudlers at Virginia Hot Springs.

The Louis C. Sudlers have gone to Virginia Hot Springs for an Easter vacation.

Mrs. Charles Barth, widow of the general who was in command of Camp Grant during the early days of the war, has come from her home at Fort Meyer, Va., to visit Mrs. George E. Sevey at the Belmont.

Because this is Holy Week, the Alliance Française is not holding its usual Thursday afternoon causerie. Next Thursday, however, there will be a green kitchen shower for Miss Beatrice Kirk, a former vice president, who is being married on April 14 to Capt. C. Ross Cuthbert.

President and Mrs. Robert M. Hutchins of the University of Chicago will arrive at home Saturday morning from a brief visit to Mr. and Mrs. Charles Brewster at the Titcomb, Ariz. home of Mrs. Brewster's mother, Mrs. Isabella Greenway. The Brewsters are not expected to return from the west for several more weeks.

Dr. and Mrs. Hutchins will entertain at dinner next Tuesday for Sir Arthur Eddington, English scientist, who is coming to the University of Chicago next Monday for a week's visit. Sir Arthur will live in the men's residence halls and discuss scientific and philosophical subjects with student groups.

On Bermuda Vacation

Among the Chicagoans who are taking their winter vacations at a late date this year are the J. Stewart Harveys. Mr. and Mrs. Harvey went to Bermuda, where this picture was taken, with Mr. Harvey's parents, the Byron S. Harveys, and the John R. Winterbothams and their son, John III, to spend ten days on the island.

(Associated Press Photo.)

Help Children Learn to Fly, Earhart Plea

BY RUTH DE YOUNG.

Seven hundred members of the Chicago Woman's club, most of them mothers, heard Mrs. Amelia Earhart Putnam, the gallant lady of aviation, make a plea yesterday for the encouragement of airplane interest on the part of the boys and girls still in their teens.

"Let your children learn to fly if they want to," she counseled. "A quick, thoughtless 'no' may ruin a career for a youngster who has aviation in him. Go with him for his first airplane ride. Then you'll understand. This is my sermon to you and I'm very serious about it."

A delightful heroine to the audience that applauded her, Mrs. Putnam showed herself fundamentally, however, the same retiring youngster that dodged the graduation exercises at Hyde Park High school. For an hour she intertwined serious reflection on aviation with some of the whimsicalities of her own career. At the luncheon that preceded the lecture she limited herself to a small salad and a glass of milk admitting slight nervousness. "Every time I make a speech I vow it will be the last," she commented.

Mrs. Putnam will return east by air today.

"I'm not famous, lots of people don't know me," explained Mrs. Putnam with delicate humor in response to the introduction made by Mrs. Ozora S. Davis, president of the Chicago Woman's club. "One day I was congratulated for swimming the English channel. Then there was the porter on my train coming to Chicago."

"Yes, I have to take a train once in a while," who looked at me and commented, "Ain't I seen you plying somewhere before?" After a moment's reflection, he brightened and added, "Yes, I know, yer Mrs. Roosevelt. Still again there was the young lad who, after seeing my picture plastered over a church billboard, rushed home and asked, 'Daddy, daddy, did you know Col. Lindbergh's mother was coming to our Sunday school?'"

Although almost two years have passed since Mrs. Putnam landed in a Londoner's meadow after her non-stop Atlantic flight, she made it a living experience again yesterday as she described her takeoff from Harbor Grace and "2,000 miles of water with no service stations along the way."

"I did it for my own personal satisfaction," she explained. "The flight itself contributed nothing to aviation for hundreds of people had already crossed the ocean by air, one way and another. If, however, the trip did tend to liberalize woman's point of view toward aviation, it was worth while."

Mrs. Putnam advocated a secretary of transportation for the President's cabinet. "Let the railroads carry heavy freight, airplanes the first class mail and first class passengers. Then let buses and automobiles connect the two over straight concrete highways. This is my Utopia."

In Mrs. Putnam's audience yesterday was Mrs. Arthur White, who was a classmate of Mrs. Putnam's mother at St. Mary's.

Devil's Food Layer Cake with
Peppermint Frosting
Coffee

It certainly isn't a fruit and it's not quite like a vegetable, yet it's served by discerning cooks as both of these things. Can you riddle me that? The answer is the very odd, very old delicacy which registers under the name of "rhubarb." By 11 o'clock the selling will be finished and the girls will be dirty, disheveled, tired, and happy from waiting on hundreds of pushing and grabbing women and "keeping an eye on" the various counters.

Chase it down in the dictionary and you'll discover (if you wouldn't already know it) by thinking back upon grandma's (tonies) that this pinky tongue tingler is really an herb, much used at one time for a variety of internal upsets. But the reason we flavor hunters pursue it to earth is because of its fleshy, acid stalk, which makes most elegant eating in a score of different guises.

It stands first in the hearts of its countrymen, so let's take of it: **MODERN RHUBARB PIE.**
2 cups rhubarb, skinned and cut up
2 tablespoons flour
4 cups sugar
1 egg separated
13 soda crackers, finely rolled
1-3 cup butter
2 tablespoons sugar
1 teaspoon vanilla

Sift the flour over the rhubarb, mixing them. Add the sugar and the egg yolk, which has been slightly beaten. Now blend the softened butter with the crackers and the two tablespoons of sugar. Pat the mixture firmly against the sides and bottom of a buttered pie plate. Turn the rhubarb into the unbaked shell and bake in a hot oven (400 degrees F.) for 20 to 25 minutes. Beat the egg whites until stiff, add the sugar and vanilla, swirling the meringue on over the top of the pie. While this is being done reduce the oven heat to moderate (350 degrees F.) and continue baking for 15 minutes or until the meringue is golden brown. This makes one eight inch pie. There is also to be looked forward to a:

RHUBARB AND RAISIN PIE.
Prepare the rhubarb pie above, sprinkling halved, seeded raisins over the top before the meringue is added. And there are likewise to be considered:

RHUBARB MERINGUES.
6 round racks
3 cups cooked rhubarb
2 egg whites
2 tablespoons sugar
1 teaspoon vanilla

The rhubarb sauce in the first place should be thick. Place spoonful of it on each rack. Then beat the egg whites until stiff and add the sugar and vanilla. Heap this over the rhubarb on the racks, slide them onto a baking sheet and brown in a moderate oven (350 degrees F.) for 15 minutes. The meringues should be puffed and golden brown all over. The rhubarb brown betty has already had itself talked about in these columns, but let us forget:

RHUBARB BETTY.
Make just as you would an apple betty, using equal amounts of cooked rhubarb sauce and crumbs. The crumbs should be buttered and layers of them alternated with layers of the sauce. Season with ground orange rind, nutmeg, and sugar. Bake in a moderate oven (350 degrees F.) for 40 minutes. Likewise a sippy flavor to accompany roasts and things comes out of jars of:

SPICED RHUBARB.
Wash 2½ pounds of rhubarb, skin, and chop the stalks into inch pieces. Simmer together with one quart of sugar, one-half teaspoon cloves, one teaspoon cinnamon, three-quarters cup of cider vinegar, and the juice of one-half lemon. Bring to a boil and bubble very gently until thick and clear. Pour into clean, hot jelly glasses, and seal.

CONQUERING CONTRACT

By R. HAL SIMS

AVOIDING THE MINIMUM RAISE WITH A PROTECTED HAND.

When your partner has opened the bidding with one spade, and your hand provides a spade fit but is not strong enough for the three spade response which I will explain shortly, if the outside strength is enough to give hopes of game, and there is no weak spot in the hand—I mean not worthless doubleton or three small card holding—the two no trump response is very useful to insure another bid from your partner. Since you are going to show spade support anyhow, why not bid two no trumps, and intend the hand to be played in spades eventually, you can shade the requirements slightly as compared to those needed when you have not got four trumps for your partner's opening suit.

In reply to one spade, I would bid two no trumps on

Sp. x x x D. A J x
H. x x C. K 10 x x
S. x x x D. A J x
H. x x C. K 10 x x

and then support spades over his next bid. If his next bid were four spades, a slam try, I would pass, holding only one ace, but with two aces I would bid five spades for him. My four trumps may enable him to drop the spades held by the enemy. He was probably counting on losing a spade, since I had not shown spade support at that point.

If my partner bid four in any other suit, over my two no trump response, I would bid four spades with either of the above hands, expecting to close the bidding. But with two aces in my hand, or the king of spades and one ace, I would bid five spades to accept the slam invitation, on the reasoning just explained.

These bidding inferences are so logical, so essentially sound, that I know you will find them easy to handle if you study my system in pairs or groups, as I originally suggested. Contract is a partnership game, more so than auction, and my methods are devised for partnerships.

Fred Stone May Make a Movie with Will Rogers

Casual Conversation Starts Stars Thinking.

BY GEORGE SHAFER.

(Chicago Tribune Press Service.)

Hollywood, Cal., March 25.—[Special.]—Fred Stone has been Will Rogers' ranch house guest for the last week here, and has been hanging around the watching Will do scenes in "Merry Andrew" for Fox.

Asked what he intended to do, Stone said, "Well, I guess I'll go back to New York. I don't think I'll return to vaudeville. I don't like living in two rooms, a hotel and a stage dressing room."

"Why not make a picture with Will Rogers?" he was asked. "That would be swell for me, but I don't know how Will would feel about it."

"That sounds like a mighty good idea," said Rogers. So an intimate minute's chat on the set may result in forming a new movie team, Rogers and Stone. Marie Dressler and Polly Moran did pretty well in the feminine counterpart.

Rogers' leading woman in "Merry Andrew" is Peggy Wood, to whom Fred Stone gave her first New York stage job in "Lady of the Shipper," in which Peggy understudied Elsie Janis.

Dorothy Dell is out of the hospital after her relapse with laryngitis and is making scenes for "Half Decent" at Paramount, but can't sing for several days. . . . The name of Eddie Cantor's next comedy for Producer Sam Goldwyn is tentatively given as "The Treasure Hunt." Ethel Merman will play a principal feminine part. Cantor will come to Hollywood in about a month to get going.

Reb Russell has finished his first featured movie, a western, with Marion Schilling as the heroine. "I am going to have to buy a third horse," says Reb. "One for the chase. There is so much acting for these horses to do in some of these westerns that they are tuckered out when you want to get on and ride like blazes to rescue the girls."

Speaking of his first film, Reb said "To be frank, I thought I was pretty poor, but the director and the producer said I was all right. It was a dog picture and I guess I was as good an actor as some of the dogs which kept going to sleep on the set." No title is affixed to Russell's cowboy thriller as yet. He starts his second film in about a week.

4 WAYS TO MAKE NEW RUM TASTE OLD DESCRIBED

Aging Process Explained Before Chemical Society

St. Petersburg, Fla., March 28.—(AP)—Four ways to make new liquor taste old in a hurry are being tested by chemists, Dr. Foster D. Snell of Brooklyn, N. Y., told the American Chemical society Wednesday in a joint report with J. Mitchell Fain.

In one method a "liquor-fall" of the fluid is run over a lamp from which artificial sunlight comes. Here the same kind of rays that produce sunburn on the body shine on it and quicken the aging process. A second system produces "liquor soda water" by bubbling air, oxygen, or ozone through the spirits in a process suggestive of the making of ginger ale, but using oxygen instead of carbon dioxide. Oxidation of certain materials in the liquors is hastened and the aging process speeded up.

Electrolysis Process.

In another variety of artificial aging electricity is passed through the liquor and oxygen and hydrogen come off as in the case of water if the same thing is done. This process, called electrolysis, is a common means of separating fluids into their constituent parts. One of the newest uses is to concentrate "heavy water" from the normal, lighter kind.

Finally the aging is speeded by using catalysts, substances in whose presence chemical reactions are accelerated, and which produce unusual results without losing anything themselves by so doing. The liquors are heated and a "fog" of vapor is blown over the catalysts. To hasten the formation of esters, the substances that give whiskey its aroma, oxides of lead, silicon, cerium, and uranium are used. For flavors, the catalysts are copper, nickel, cobalt, and titanium.

Research Going On.

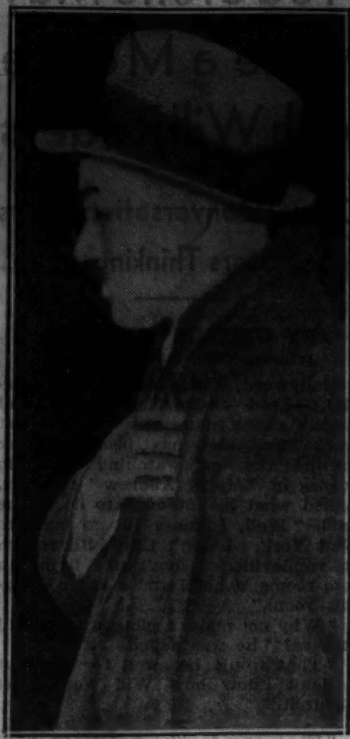

He made no claim, Dr. Snell said, that chemists had attained complete success in aging liquors artificially. Intensive research is going on and there is hope that one-year old whiskey may soon rival sixteen year bonded liquor in taste and smell and at a vastly lower cost.

Chemists are glad that prohibition is ended, he added, for they no longer have to listen to the pleas of bootleggers for synthetic liquor recipes, or for methods of breaking down the government formula by which alcohol was rendered unfit to drink. They can now turn their attention to the problems of the legal distillers.

Negroes Break Into Shop and Then Fall Asleep

Denver, Colo., March 28.—(AP)—Apparently what two Negroes needed most when they allegedly broke into a plumbing shop was sleep. When the proprietor opened the shop today he found the pair in deep slumber. He called the police.

JUDGE CLEARS HARRY F. SINCLAIR IN BANK CASE

Tulsa, Okla., March 28.—(AP)—Harry F. Sinclair, oil magnate, and 27 other former directors of the Exchange Trust company of Tulsa, were cleared of all embezzlement charges against them here today.

Judge Bradford Williams dismissed the 10 remaining counts after more than two weeks preliminary hearing. Seven other counts were dismissed last Friday.

The directors had been accused of juggling accounts illegally, but the state disclaimed any attempt to prove that the \$200,000 involved had been appropriated for their own use.

The defense contention was that the directors operated under state laws had not been tested in any court and were justified by the instructions of a state bank examiner.

The trust company, largest state banking institution in Oklahoma, closed last June with trust and other deposits totaling \$23,000,000 on the books.

Evanston Gets Plaque as Safest City Award

A plaque, emblematic of the grand prize for cities of all classes in the 1933 National Safety council, and was re to the city of Evanston yesterday at a luncheon in the North Shore hotel. The presentation was made by W. H. Cameron, managing director of the national safety council, and was received by Mayor Charles H. Bartlett of Evanston. During the year Evanston had but five auto deaths.

POLICEMAN HIT BY AUTO DIES AS DRIVER ESCAPES

Policeman Oscar Brochert, 37, of Hammond was killed by a hit and run truck driver yesterday as he stepped from his automobile to repair a puncture in a street on the south side of Hammond. Three deaths yesterday in Cook county brought the 1934 motor toll to 291. The victims:

John Kempf, 60 years old, 1445 Victoria street, died in the Edgewater hospital last night of injuries incurred when he was struck by an automobile driven by Alfred Christenson, 24 years old, 6458 St. Anthony's court, at Ridge boulevard and Victoria street.

Harold Vernon, 10 years old, 2520 West 75th street. Killed by a truck yesterday at 70th street and Talman avenue.

George Smith, 69 years old, 9 South Honore street. Died in the county hospital of injuries incurred March 10 when he was struck by a hit and run motorist at Madison street and Hoyne avenue.

Damage was estimated at \$1,000.

Rock Island Trains Crash in Fog and Caboose Burns

Blinded by fog, the engineer of a northbound Chicago and Rock Island freight train ran his engine into the caboose of another freight train at 103d street and Vincennes avenue yesterday. A small coal stove in the caboose was upset by the collision and the car was destroyed by fire before firemen could reach the scene. Damage was estimated at \$1,000.

ENDS LIFE IN LEAP.

John Kocal, 55 years old, of Gary, committed suicide yesterday by leaping from a second story window of the Lake County Tuberculosis sanatorium near Crown Point.

REVOKE LICENSES OF 7 NEW YORK TAXI STRIKERS

New York, March 28.—[Special.]—Further measures to curb violence in New York's taxicab strikes were taken by the La Guardia administration today as the grand jury extended its inquiries into "police laziness" in connection with last week's wild disorders.

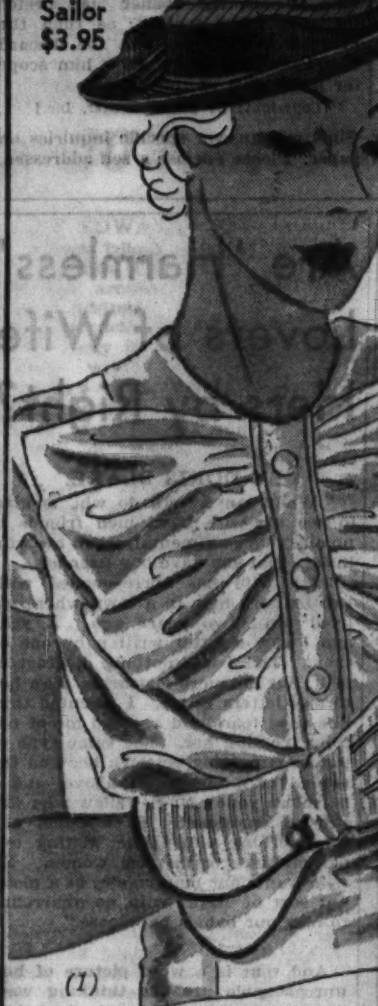

Licenses of seven striking drivers convicted of participating in the riots were revoked and their licenses suspended for periods of from 30 to 60 days.

While the departmental hearings were in progress the Bronx county grand jury stepped into the situation created by the taxi strike by handing a presentment to Supreme court commanding wholeheartedly the special orders issued to the police by the district attorney's office of the Bronx, "to deal with mobs of rioters with their night sticks, and to unhesitatingly put down all violence with an iron hand."

Citizenship for Einstein Is Urged in Congress

Washington, D. C., March 28.—(AP)—A resolution to grant American citizenship to Albert Einstein, noted scientist who left Germany under the Hitler regime, was introduced today by Rep. Kenney (Dem., N. J.).

The Men's Store
Montre at Wabash

Unconventional
Fishes Glorified
Rhubarb

Society Makes
On Belongings
Final Plans for

The men's store, as you will

gather, from these sketches of what's new in style and the new ideas you will see on every side when you come in, is expecting every man to look his best this Easter

The single-breasted jacket suit at the left with two buttons and notched lapels is still by far the preferred style by the majority of men. Noticeable changes in the coat are the softness to the front and more fullness about the chest. Grey—both plain and patterns—continues to lead. The collection here includes, too, many new blues and browns.

\$50

As regards topcoats, the model shown at the right is still decidedly the favorite and there are no signs that point to a waning of its popularity. This one is of soft, long wearing llama, double breasted with half belt, priced at

\$35

Suits with double-breasted jackets are getting more numerous and the answer to this might be because the double-breasted jacket is now being tailored to provide the ease and comfort that always could be depended upon in a single breasted jacket suit.

\$50

Silk crepe neckties aren't going to be the choice of every man that comes in here, we know, but these couldn't be passed up. We were not only struck by their interesting light tone spring colors, but the heavy quality at the price would not let us overlook them.

\$1

White shirts with neat all-over jacquard figures, also in white, is a shirt we men might well take to on an occasion such as Easter and any other time that calls for a bit more formality in our general appearance. With collar attached or neckband styles.

\$2.65

Mocha gloves for spring are lighter in weight and nearly as soft as chamois in quality. These were hand cut, tailored to size and fit with dress glove smoothness and comfort.

\$3.50

Oxfords of black and brown calfskin designed after those styles originated by the foremost custom bootmakers, both here and abroad, judged by the number of well dressed men that are taking to them, will be a sought after shoe style for this spring. These styles are well represented in the C. P. S. special group at

\$6.50

STOPS.
Kerr.....6 10 8-24
Gardner.....14 8 10-32

Montreal, Que., March 28.—(AP)—The Chicago Blackhawks neared the Stanley cup finals tonight with a 3 to 0 victory over the Montreal Maroons in the first game of the semi-final series. They now hold a three goal lead in the series, which is decided on total goals in two games. The second game will be played in Chicago Sunday.

A near capacity crowd of 11,000 groaned in unison as the Hawks rattled in a trio of goals on flawlessly executed plays and then backed checked the struggling Maroons into submission. Charlie Gardiner, acknowledged peer of hockey goalies, played an exceptional game in the Chicago cage. The Maroons hammered shots at him from the opening taceoff, but Gardiner kicked them out as fast as they came and many times dashed out of his net to smother plays.

Hawks Score Immediately.
The Hawks dealt the Maroons a staggering blow in the first minute of play. Paul Thompson slid a pass out from behind the Montreal cage and Doc Romnes scored, just 43 seconds after the game started. The Maroons were put off their stride by the goal and never were able to sweep aside the Hawks' back checkers.

The Maroons were still attacking fruitlessly in the third period when the Hawks struck with two goals in quick succession. Romnes teamed up with Thompson again for one. Thompson dropped a shot between Kerr's body and the goal post to score the minute play started. Two minutes later Johnny Gottlieb stuck under the blue line and Don MacFadyen drove the puck past Kerr after the Maroons' goalie had turned aside two of his shots and Gottlieb fed him a rebound.

Maroons Claim a Goal.
As the crowd began to voice its disapproval of the Maroons' efforts the Montreal team began to show something of the form that carried it to victory over the New York Rangers, present Stanley cup holders, in the first round series. Hooley Smith swung at the puck in a scramble and it seemed to some fans that the disc had gone into the Chicago cage and out again. The Maroons, led by Smith, protested vigorously, but the goal umpire was firm in his denial that it was a goal.

Gardiner handled 32 shots, compared to Dave Kerr's 24 saves in the Montreal cage. Two of Kerr's efforts were sensational stops on shots by MacFadyen and Lola Couture, who broke away in the last few minutes when the Maroons had five forwards up the ice.

The Blackhawks started their best scoring line and went into the lead

TORONTO WHIPS DETROIT, 5 TO 1; TIES UP SERIES

Detroit, Mich., March 28.—(AP)—The Toronto Maple Leafs defeated the Detroit Red Wings, 5 to 1, tonight in the National Hockey league championship series. The victory put the Leafs in a tie with the Red Wings at two games each. The deciding game will be played here Friday night.

Toronto scored in every period, led by its first line of Joe Primeau, Harvey Jackson, and Charley Conacher. The Leafs jumped into a lead in the first period. Primeau scoring with Williams of the Wings in the penalty box. In the second period they scored on a shot by Conacher, with Wiseman serving a penalty, and in the third, Primeau got his second goal, as Goodfellow was serving a penalty.

Sands added another goal in a wot dash half way through the final period before Welland scored Detroit's lone goal, and Jackson drove home the final score late in the game on another solo dash.

Hainworth in the Leafs nets was given great support and had only 14 saves, compared to the 25 by Cude of Detroit. King Klanczy, Leafs defense star, left the game in the second period after a collision with Young. He had a cut over his left eye, which required four stitches.

OPEN STANLEY CUP FINALS ON CHAMPIONS' ICE
Detroit, Mich., March 28.—(AP)—Frank Calder, president of the National Hockey league, announced tonight the first two games of the final Stanley cup playoff series would be played next Tuesday and Thursday on the home ice of the league champions, either Detroit or Toronto.

Detroit and Toronto will decide the title Friday in the fifth game of their series.

If Chicago gains the expected victory over the Montreal Maroons in their semi-final series the third and fourth games will be played at Chicago Sunday, April 8, and Tuesday, April 10. If the Maroons should win, these games will be played at Montreal April 7 and 9.

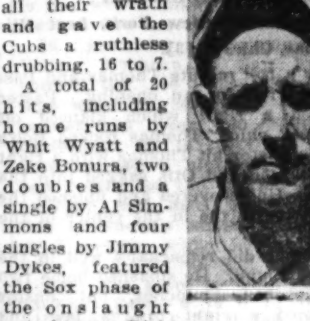

If a fifth game is necessary the teams will return to the scene of their first two contests.

Sox Hammer Ward, Tinning for 20 Hits; Whip Cubs, 16-7

BY EDWARD BURNS.

(Chicago Tribune Press Service.)

Los Angeles, Cal., March 28.—The White Sox, aroused at last after six

WHITLOW WYATT.

straight lickings at Wrigley field, rose up today in all their wrath and gave the Cubs a ruthless drubbing, 16 to 7.

A total of 20 hits, including home runs by Whit Wyatt and Zeke Bonura, two doubles and a single by Al Simmons and four singles by Jimmy Dykes, featured the Sox phase of the onslaught against Dick Ward and Bud Tinning. Bonura also contributed two singles and Wyatt one to the merri-

The Sox made eleven of their runs and twelve of their hits off Ward in the first four innings, then eased off until the last two innings when they cut loose on Tinning for five runs.

Wyatt Fans Fight.
Wyatt, who has refused all year to join the old coach's chain squad of Comiskey pitchers, went all the way. Among his accomplishments was the striking out of eight Cubs, including three after Gabby Hartnett had led off the fourth inning with a triple.

The glorious victory, the Sox's first over a major league foe, concluded the team's work against league teams in this vicinity. Games will be played Saturday and Sunday in Pasadena, against the Pasadena Merchants, after which camp will be broken Monday morning. Then the Sox will go to San Bernardino, 60 miles east of here, to start their gradual trek toward home in company with the Pittsburgh Pirates.

Sox Take Early Lead.
The battles came out of the first round with the Sox enjoying a 3 to 2 lead. The Cubs got their runs on a walk to Galan, singles by Hack and Klein, an infield out, and Babe Herman's fly. The Sox's trio secured on walks to Swanson and Appling. Simmons' double, a single by Dykes, and Jurgens' tumble of Uhl's grounder.

The Sox took a 5 to 3 lead in the second inning on a homer by Wyatt which cleared the wall in deep left center, a double by Swanson and a single by Bonura. The Cubs knotted the count at 5-5 in the first half of the third on a single by Galan, a homer by Hack and singles by Cuyler and Babe Herman, but the Sox took the lead again in their half on singles by Appling and Dykes and an infield out.

Hartnett opened the fourth with a triple to center. Ward then fanned. Galan walked and stole second, after which both Hack and Cuyler fanned. And here is the record of the Sox by fourth, the inning which brought about the demise of Ward.

It Goes On and On.
Uhl singled to center and scored on Bonura's homer over the left field wall. Simmons flied to Cuyler, but Appling walked. Dykes singled, Appling stopping at second. Hayes doubled to right, scoring Appling and putting Dykes on third. When Babe Her-

man made a wide return throw to the infield Dykes scored. Hayes went to third on Ruel's out and scored on Wyatt's single to center.

Tinning took over the pitching job in the fifth and held the Sox to two hits—singles by Bonura and Appling—which netted no runs. In the sixth Ruel singled and Wyatt was hit by a pitched ball, but Bud again succeeded in holding his adversaries away from the plate.

The Sox resumed production in the seventh. Simmons singled with one out, then Appling and Dykes walked, billing the bases. Hayes flied to Herman. Simmons, scoring and Appling taking third. Ruel singled to left, scoring Appling, then Wyatt flied to Herman.

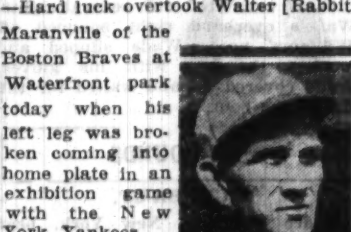

The Sox added three in the eighth in a barrage which included a single by Swanson, a double by Simmons and Dykes' fourth single.

WRESTLER'S WIFE IS HELD AFTER MURDER IN CAFE
Cincinnati, O., March 28.—(Special.)—Jack Reynolds, recognized as welter-weight champion by the National Wrestling association, and four other persons were discharged by Municipal Court Judge Otis R. Hess today for lack of evidence. The five were charged with disorderly conduct following a cafe brawl in which James Meyers, 32, and Philip Clifton, 35, were killed.

Mrs. Alice Reynolds, wife of the wrestler, however, and David Polinsky are being held on charges that they killed Meyers. In addition to Reynolds, Harry Schoo, John Ashe, Harry Stahl, and Frank Smith were released by Judge Hess. Mrs. Reynolds and Polinsky will be held pending grand jury investigation.

BROKEN LEG MAY PUT MARANVILLE OUT OF BASEBALL

St. Petersburg, Fla., March 28.—(AP)—Hard luck overtook Walter (Rabbit) Maranville of the Boston Braves at Waterfront park today when his left leg was broken coming into home plate in an exhibition game with the New York Yankees.

MARANVILLE.

Maranville, who will be 43 years old this year and who was entering his twenty-third campaign in the major leagues, was removed to Mound Park hospital and the knee, tied at 3.3.

At the hospital X-ray pictures showed that it was a multiple break, with both bones in the leg broken between the knee and ankle.

May Be Through with Game.
Although doctors said that he would be able to rejoin the Boston Braves within the next three months, there was some doubt among baseball men whether the Rabbit would ever play again.

The accident occurred in the last half of the eighth inning. Bill Grunwald, Boston shortstop, was on first base, and Maranville, who had beaten out a single to open the inning, was on third. The signal was given for a double steal, and Randy Moore, a pinch hitter, swung at a wide pitch. Norman Kins, the Yankee catcher, rifled the ball to Frank Crosetti, the shortstop, who shot it back without attempting to tag Urbanski.

Maranville, instead of sliding, came into the plate standing up and toppled over Kins. The players of both teams rushed to the side of the injured player. He was stretched out on cushions on the field and his leg was set by Dr. Glendon Timberlake before an ambulance arrived.

Maranville smoked a cigaret as Dr. Timberlake set the leg in an improvised splint.

Joined Major League in 1912.
Maranville had hit a home run inside the park in the last of the fifth, the only hit the Braves registered off Russell Van Atta, young Yankee southpaw, in the first five innings of the game. A runner was on base, and he hit the score.

Maranville went to the major league with the Boston Braves in 1912 from New Bedford in the New England league. He was the shortstop on George Stallings' team of 1914, which won the National league pennant and swept the Philadelphia Athletics into defeat in four straight games.

He served with Boston until 1921. Later he was traded to Pittsburgh. When he was with Chicago, Brooklyn and St. Louis in the National league, returning to Boston in 1929, where he has played since.

Never a strong hitter, Maranville is known as a great money player

19,467 Boxing Fans Roar Applause at Intercity Bouts

(Chicago Tribune Press Service.)

New York, March 28.—Amateur boxing's greatest tournament, the Golden Gloves, tonight for the third time in three weeks filled the world's largest indoor arenas. A brilliant crowd of 19,467 packed Madison Square Garden to see the seventh annual intercity bouts. Two weeks ago another capacity gathering attended the New York finals and a week previous 21,609 jammed Chicago Stadium for the Tribune championship matches. The receipts tonight were \$45,548.

record, occupation, and home town were announced. A roll of drums followed and then the light was thrown across the ring to his opponent's corner where the ceremony was repeated.

The busiest man in the ringside rows was Al Jolson, stage, screen, and radio comedian. Between bouts and during the intermission the Chicago boxers swarmed around him demanding his autograph. He took care of all of them.

Bert Lehr, Buddy De Sylva, Sid Silvers, and Jules Jergens were seated near Jolson in the second row.

Rudy Vallee came early and remained to the finish. One of his neighbors was Gene Buck, widely known for his musical comedies. Gus Edwards and Grover Whalen looked on from a patron's box.

John Reed Kilpatrick, president of the Madison Square Garden corporation, and Jimmy Johnston, matchmaker, stood up to the crowd with an envious eye.

It has been a long time since a professional show drew such a gathering. Harry Mendel, the six day bike publicist, was an impartial observer. One in eight to eight in ten of the crowd had a chance to glance at the trimmings and decorations which go to make this the best dressed boxing show in the land.

The Chicago boys were clad in white silk pants trimmed with blue. They entered the ring with white and blue sweaters thrown over their shoulders. New York's fighting men wore blue and gold trunks and sweaters. The ring ropes were entwined with the city colors for each corner.

Each boy stood alone in the glare of the spotlight while his tournament

GOLDEN GLOVES INTERCITY DUEL TIED AT 3 ALL

Caserio Loses in Upset.

BY FRENCH LANE.

(Chicago Tribune Press Service.)
New York, March 28.—Away up among the smoke clouds above the rafters in Madison Square Garden an electric sign beams out:

"New York, 9; Chicago, 7."

It's the story of the seventh annual Intercity Golden Gloves matches under the sponsorship of The Chicago Tribune and the New York Daily News. The home team won again, making the all time score even once more, three matches to three, and 19,467 persons who had watched the New Yorkers triumph are filing out of the Garden and scattering away into Eighth avenue, 49th and 50th streets weak from the excitement their evening's entertainment caused them to endure.

Caserio Loses Decision.

For nearly four hours they had watched the hardest fought battles Golden Gloves has ever brought. They had seen the tide of battle swing first to Chicago's corner of the ring and then swing back in New York's direction on three occasions.

They had watched Fred Caserio, middleweight star of the Chicago team, go down in defeat before the punching power of Gus Lesnevich to give New York a lead near 11 o'clock which it never surrendered.

Then they watched Mello Bettina of New York City whip Tony Zale, light heavyweight from Chicago. Bettina's was New York's eighth victory. The home team could not lose. The worst it could get was a tie.

Soldati Scores Knockout.

Some of the spectators began to grow restless. They glanced toward the exits. But it wasn't for long. They saw Ario Soldati's flying fist land flush on the chin of Phil Sommesse of New York in another light heavyweight combat, and when the Sommesse went down and out they thrilled at the spectacle again.

Max Marek, from Chicago and Notre Dame, craved through the ropes to battle Larry Green, New York Negro, heavyweight. Within 30 seconds Marek and Green were slamming away at body and head in the greatest punching festival of the night.

For two rounds it was that way. Marek's punches carried the more steam and sting. Green had to slow up under the barrage in the last session and Marek's hand was lifted in victory with every spectator in New York's famous sports palace screaming.

One Victory for a Tie.

Marek's victory for Chicago had brought the score up to New York, 8; Chicago, 7.

Came the two great amateur heavyweight warriors of Chicago and New York into action—Otis Thomas in the blue and white trunks of Chicago and Bob Pastor in the blue and gold of New York.

One of Thomas' terrific punches could throw the great intercity glove carnival into an 8 to 8 deadlock. As in the bout that had preceded theirs, the two youthful giants squared away in the center of the ring and swung punches with all the power they possessed. The crowd by this time was in the greatest turmoil of the night. Pastor's blows landed often. Thomas hit with more power. More than once it looked as if one or the other would have to go down for the count.

Still Battling at Bell.

When the last bell tapped they still were out there in the center of the ring swinging and trying to land the blow that would make it one sided. Such a blow never came. Pastor had peppered the south side Negro boy more often. He got the decision and it was a just one, as were most of the decisions, which were returned during the night.

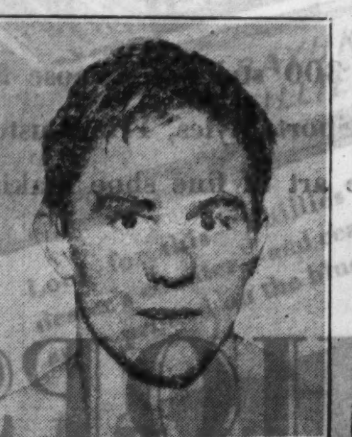

The brave and furious stand which the Chicago boys made came as a surprise to their own team officials. Chicago traveled east to meet New York this year with six of its Golden Gloves champions missing.

These absent champions who had

NEW YORK BEATS CHICAGO, 9-7, IN GOLDEN GLOVES

19,467 Pack Garden for 7th Annual Battle.

(Continued from first sport page.)

won their titles in the stadium at Chicago hailed from Detroit and Cleveland, and New York would not permit them to carry the colors of the Chicago team.

Barely Miss Big Upset.
So what the Chicago coaches and trainers thought was a mediocre team stormed into the Garden tonight and just missed bringing about the biggest upset in this history of intercity competition. The first series between Chicago and New York ended in a tie in 1928 at Chicago.

It was little Patsy Uro, the apprentice printer and flyweight member of Chicago's team who served notice on the New York crowd that things were going to happen in this intercity show. His opponent was Al Reid of New York. In the second round Patsy Reid downed twice for counts of nine. He had him in the rest down again in the last round while the referee counted nine. Reid was soundly whipped and some of the bravado of the New Yorkers was already gone.

Lead Quickly Overcome.
This lead didn't last long, for Richard Librandi and Arminio Bodia of New York came along and whipped Johnny Brown and Ray Harris of Chicago, respectively.

Tommy Barry, the Springfield coal miner with Chicago's team, then hammered Dave Crawford of New York around the ring and tied the score. Irving Goldstein, from Chicago's side, put the invaders in front a few minutes later with his thrilling triumph over Frank Romano of New York.

From then until Lesnevich whipped Caserio first one and then the other was in the center of the ring where the powerful lights were shining down on their perfect physiques fought to the limit of their endurance.

That's always the story of Golden Gloves.

Western Polo Tourney Will Open Saturday

The Sixth Corps Area and 124th Field Artillery will meet Saturday night at the Artillery armory, 52d street and Cottage Grove avenue, in the first game of the western indoor polo tournament. The duel between these high powered outfits will be preceded by a game between the South Shore Remount association and Chicago Shamrocks.

Herbert J. Lorber, chairman of the committee in charge of the tournament, announced that in addition to Sixth Corps Area and the 124th Field Artillery, the 7 to 15 goal class will include teams also from the Chicago Riding club, North Shore Polo and Hunt club, Cleveland and Detroit.

Cleveland Team Enters.
A Cleveland team also will play in the zero to 6 goal class, in which the other competitors, besides the Remounts and Shamrocks, will be Fort Sheridan, 122d Field Artillery, Chicago Riding Club and 124th Field Artillery Cardinals.

The 13 to 18 goal class, it is announced, will enlist two contenders, one of army officers from the Sixth Corps Area and the other a combination of Chicago Riding club and North Shore Polo and Hunt club players.

Fifteen Western Teams to Play.
Together with a picked trio to be named later and to represent the west against the best in the east in the national tournament at the armory, the entry list in all classes gives the west a total of 15 teams.

Saturday night's feature game will bring together the winners and runner-up in the Metropolitan Polo league round robin tournament. Sixth Corps Area, captured the championship from the 124th Field Artillery in the playoff to break the existing tie. Maj. R. G. Hunter of the artillerymen is anxious to reverse that verdict.

REIFF, FARBER WILL REFEREE IN GREEK TOURNEY

Joe Reiff and Sol Farber, members of the Fast Freighters basketball team and former Northwestern university stars, will referee at the fourth annual session of the Hellenic Invitational Basketball tournament Sunday in Loyola university gym.

The tournament has attracted ten Chicago teams besides quintets from Milwaukee, Gary, South Bend, and Rockford. The Chicago teams are Ypsilanti of the Sons of Pericles, Apollo of G. A. P. A., Lord Byron, Lambda Delta, Ahepa, Pindaros, Pindaros Cubs, St. Demetre, Sons of Plato, and St. Andrews.

Du Page County Bowlers to Compete on April 14

The fifth annual Du Page county bowling tournament, sponsored by the West Suburban Alley Owners' association, will open April 14 at the Glen Ellyn Recreation. Entries close April 9 with Frank Bryson, Glen Ellyn Recreation. Competition in class A will be for teams averaging 900 and over, for two man team of 360 and over, and for individuals averaging 180 or more.

Yale's Rugby Team

Defeats Bermuda, 6-3
HAMILTON, Bermuda, March 28.—(P)—Yale's rugby team opened its Easter week visit to Bermuda successfully today, defeating the Bermuda Rugby club, 6 to 3.

VINES BEATS TILDEN.

Albany, N. Y., March 28.—(P)—Ellsworth Vines defeated William Tilden in a professional tennis match tonight, 3-2, 6-3, 6-3, 6-3.

HOW NEW YORK WON INTERCITY BOUTS

BY WILFRID SMITH.

(Chicago Tribune Press Service.)
New York, March 28.—Details of the bouts in which the New York Golden Gloves team defeated Chicago, 9 to 7, tonight in Madison Square Garden follow:

112 POUNDS

RUNNER-UP.

Patsy Uro, Chicago, defeated Al Reid, New York [3].

Reid had the better of the toe to toe slugging in the first minute. He whipped a vicious right to the body but in the last 30 seconds Patsy had Al backing up with a two-fisted attack to the head. They continued the same slugging tactics in the second round. The New York errand boy was cautioned for holding. Uro backed Reid into the ropes and scored three times with a right hand which had the Manhattan boy holding on. Patsy knocked Reid down for a count of nine with a right to the jaw.

Uro tore in and put Reid down again in the center of the ring with a right to the head for another nine count. Reid rallied and made a great comeback. Uro held on. They stood and slugged for a full minute when Reid went down for nine seconds under a terrific bombardment to the body. They clinched repeatedly. They fought blindly in a neutral corner at the finish.

CHAMPIONSHIP.

Richard Librandi, New York, defeated Johnny Brown, Chicago [3].

Brown and Librandi opened at a fast pace. There was a great deal of feinting, little clinching and practically no body punching in close in the opening two minutes. Librandi had the better of the long distances scoring although Johnny landed a solid right to face which Richard immediately repaid with interest on a short overhand right on the side of the head.

Librandi jabbed with his left and flashed in and out before Brown could reach him in the next round. Johnny's right to the face dropped Librandi for a no count along the ropes. Librandi came back with a flurry of punches. Librandi countered with a right and staggered Brown badly.

Librandi backed away and boxed waiting for Brown to lead. Brown was short with a right swing and they clinched. Brown missed with a right and fell partly through the ropes. Librandi outpointed Johnny in a furious mix in mid-ring.

118 POUNDS

RUNNER-UP.

Arminio Bodia, New York, beat Ray Harris, Chicago [3].

Bodia swung hard from a crouch and jarred Harris with a right to the head. Harris, more erect, had difficulty keeping his opponent at a distance. Bodia, swinging like a Levinsky, missed and nearly fell to the floor. Harris, now recovered from his momentary stage fright, brought blood to Bodia's nose and then hammered at the Italian's ribs.

Ray's southpaw pitching showed to better effect in the second round but he failed to follow up his openings. Bodia went down for a no count from a hard left to the jaw. Arminio recovered the lost ground with a series

of wild hooks with both hands to Harris' head. They fought without retreat in the early portion of the final round. Bodia went down for a two count, but before and after he landed many wild punches to Harris' head. Ray also forgot to follow up his advantage when he had Bodia off balance.

CHAMPIONSHIP.

Tommy Barry, Chicago, beat David Crawford, New York [3].

This fight was the best of the series in the first round. Weaving, ducking, slugging with both hands, the pair hammered without halt. In the second minute the New York Negro staggered Barry badly but Tommy rallied, held on and then came back to have Crawford groggy. At the bell Crawford pushed Tommy through the ropes.

The second round continued at the same furious pace. Crawford used a straight right to the head effectively but Barry was outbidding him and twice hooked sharply to the head. Crawford's nose was bleeding and his eyes were puffed from the sharp, stinging left jabs. They traded right hooks along the ropes and followed with a wild body attack at the end of the round.

With the result depending on the last round Barry started the leading. Crawford's right flashed past Tommy's head. Tommy scored with a left and right to the head. The New Yorker hooked weakly and clinched. They wrestled in close. Both were tired. Crawford continued to hold on. Barry again jabbed to the face.

126 POUNDS

RUNNER-UP.

Irving Goldstein, Chicago, beat Frank Romano, New York [3].

Romano, a left handed 11 man, had superior reach on Izzy Goldstein, but Izzy forced the fighting all through the first round. Frank landed several solid punches but Goldstein hammered down the Italian's right and punched harder to the head than his opponent.

Goldstein switched to a left hand stance in the second round but had no advantage although his left crashed through to the body several times. Romano slashed up with a hard left uppercut, his best blow of the bout. Izzy landed a right and left to the head and forced Romano to the ropes.

The boys punched to the body. Goldstein, now back at a right hand form, crossed a hard right to the head. Romano jabbed lightly and backed away. Izzy landed two rights and a left to the head and rocked Romano back on his heels. They clinched after Romano missed a right swing. Romano slammed home two lefts and Goldstein returned the compliment.

CHAMPIONSHIP.

Sedgewick Harvey, New York, beat Andy Scriveri, Chicago [3].

Harvey, a 23 year old Negro veteran of the New York Golden Gloves team, started impressively against Scriveri, outbidding him and also having the better of the exchange to the body. A hard right to the jaw staggered Scriveri, who held on. Andy pumped a volley at Harvey's head without effect. Scriveri matched every punch the Negro threw.

Harvey was stronger in close. Andy backed away from a lead and coun-

tered with left and right. Scriveri's right glanced off the New Yorker's head. Scriveri outboxed Harvey but was beaten around the ribs in close. They traded hard rights to the head and Scriveri showed distress.

Scriveri gave the Negro a boxing lesson for two minutes of the final round. Harvey couldn't touch Andy and his only blows were in a clinch. The crowd cheered repeatedly as Scriveri fainted the Negro and jabbed as many as four times to the face without a return. When Harvey was awarded the decision the crowd had its first opportunity to boo.

135 POUNDS

RUNNER-UP.

Phil Kennedy, Chicago, beat Pat Robinson, New York [3].

A pair of fast boxers flashed for three minutes without letup when Kennedy, Chicago C. Y. O. champion, met a West Indian, Pat Robinson. By spurs the advantage shifted from one to the other. Robinson was a bit more effective in close while Kennedy several times rocked Robinson's head with lefts.

The second round continued without change of tactics. Midway Phil flashed out with a left and then caught Robinson as he attempted to crouch. Pat's overlapped right arm in the clinches beat at Phil's ribs, but Kennedy stepped back and came in with a two fisted drive to the body.

Kennedy had the better of the drive in the last minutes. He jabbed to the head and smashed his right to the body to build up a decided advantage. Robinson held on whenever he had the opportunity.

CHAMPIONSHIP.

Frank Williams, New York, beat Aaron Wade, Chicago [3].

Frank Williams, twice New York's lightweight champion, had difficulty catching up with Aaron Wade of Peoria, Ill. Wade jabbed, retreated and backed away to pile up points while his rival, who knocked out four boxers in the Manhattan preliminaries, missed with a score of right hand punches.

Williams resorted to a jab in the second round but Chicago's Negro continued to keep out of the way of New York's colored standard bearer. Williams finally landed a hard right to the jaw which staggered Wade badly. They exchanged punches along the ropes.

Wade countered with several rights. Wade's overhand right bounced off Williams' nose. Wade slipped and touched the floor with his gloves. Wade covered up and waited for the end of the bout.

147 POUNDS

RUNNER-UP.

Andre Jessurun, New York, beat Robert Lamonte, Chicago [3].

Lamonte stepped under Jessurun's lead and hooked his left to the face. Lamonte fought cautiously, Andre having a longer reach. As the boys stood in the Chicago corner, they unleashed the longest sustained rally of the bouts. Punch for punch, they smashed to the body and head with honors equal. Jessurun's left hook to the body hurt Lamonte badly as the round ended.

Lamonte started another rally and

drove Andre across the ring. Lamonte tired near the end of the round and Andre punished him in the body.

They stood together and slugged. Lamonte was hit low, but not hurt as he sidestepped. Jessurun forced the milling and ripped in with a long, hard right to the jaw.

CHAMPIONSHIP.

Fred Tyus, Chicago, beat Joseph Ferrone, New York [3].

Ferrone outboxed Tyus easily in the first round. Fred, however, came in with two good rights to the face although he couldn't corner his retreating opponent. In close, Joseph pounded at Tyus' head. None of the blows slowed the Peoria Negro.

In the second round Tyus continued to force the action and hooked sharply to the face. After a minute, both apparently wished the other to lead. Tyus scored with a short right to the body as the round ended.

Tyus hooked his left to Ferrone's face and rocked the Italian back on his heels. Fred drove in with a right which glanced off the jaw. They boxed cautiously with Tyus getting in a blow for each he received.

160 POUNDS

RUNNER-UP.

Gus Lesnevich, New York, beat Fred Caserio, Chicago [3].

Caserio and Lesnevich put up the best fight of the night for the first two rounds. Gus depended on a solid right to the body which jarred Caserio repeatedly while Freddy had his sharp left in Lesnevich's face and cut open a mark above the eye.

Caserio started slowly and took much body punishment, but Lesnevich also tired from the rights and blows to the head which Caserio tossed in the second round.

In the final round Gus continued to shoot for Freddy's body with a return fire to the head. In the last 30 seconds Caserio twice rocked Lesnevich's head with left hooks. The closest decision of the series was awarded to Lesnevich.

CHAMPIONSHIP.

Mark Hough, New York, beat Bill Treest, Chicago [3].

Hough and Treest started slowly. Hough used Bill's body for a target and failed at it in half-clinches. Hough missed badly with an over hand right. Treest swung his first right and staggered Hough into his own corner. Mark clinched.

Hough was the aggressor again in the second round using a jab to the face and a hook to the body. Bill landed a solid right to the body but Mark paid him back. Treest ducked into a short right which landed on the jaw.

Treest went on the attack in the third round and landed a series of rights to the face, hammering Hough around the ring.

175 POUNDS

RUNNER-UP.

Mello Bettina, New York, beat Anthony Zale, Chicago [3].

Bettina smashed at Tony Zale of Gary, Ind. in the opening minute but Tony stepped under and planted a hard right on the jaw. Tony landed a right and followed it up with an

other right to the jaw to put Bettina on the floor. The bell ended the round at the count of four.

Zale tried to land a knockout. Twice he reached over his opponent's guard but he couldn't get to the jaw. Zale missed and Mello hammered several punishing blows to the body. Zale's hat right swung out a deep slash over Bettina's eye.

The final round was a bid for a right hand finishing punch. Neither tried to box. Zale had Bettina hanging on at the finish.

CHAMPIONSHIP.

Ario Soldati, Chicago, stopped Philip Somme, New York [1].

Soldati came out throwing his right hand. In the first 20 seconds he staggered Somme and after a couple of minutes he tagged Somme for a count of nine. Soldati closed in and knocked the New Yorker to the lower rope in a neutral corner. As Somme struggled to his feet Referee Sam Hennessey of Detroit stopped the bout. The knockout was scored in 1 minute 20 seconds.

HEAVYWEIGHT

RUNNER-UP.

Max Marek, Chicago, beat Lawrence Green, New York [3].

Marek scored first with a hard right to the side of the head. Max closed in again on his Negro opponent, who drew back partly dazed from a series of blows to the head. Just before the bell Green caught Marek with a long right and bounced him back into the ropes.

Marek missed a left hook. The Negro backed up and caught Marek with a hard right to the body. They stood toe to toe and slugged. Max hammered to the body with both hands and Green rocked Max's head. Max caught Green with a left and right to the head and then hammered the stomach in a half clinch. Marek finished fast with a body attack.

Marek had all the better of the last round until in the last 30 seconds a hard right to the stomach landed below the Negro's belt line. Green sank to the canvas, but Referee Hennessey did not start a count. After a rest of about 15 seconds Green regained his feet and Hennessey ordered them to finish the round. Marek had a wide margin at the time of the low blow, offsetting the loss of the round because of the foul.

CHAMPIONSHIP.

Bob Pastor, New York, beat Otis Thomas, Chicago [3].

For a full minute Thomas and Pastor sparred for an opening. Pastor crossed a right which glanced off Thomas' chin. Thomas rocked Bob's head. Pastor hit Thomas with a right to the face and Otis sagged into the ropes. He recovered and finished the round toe to toe in the center of the ring.

Thomas did remarkably well in the second round. He smashed home two terrific body punches, but Pastor slammed a right to the jaw and Thomas went into reverse until the bell.

Thomas rushed Pastor into the ropes. Pastor shot a hard right to the body. Thomas countered with a left to the jaw. They traded blows along the ropes. Pastor crashed a short right to the face. Pastor was the aggressor at the finish.

HAWKS DEFEAT MAROONS, 3-0, IN SERIES GAME

(Continued from first sport page.)

almost before the capacity crowd had settled back in its seats. Lionel Conacher headed a rush with Rommes and Paul Thompson. Mush Marsh blue line on the corner play and passed the puck out to Rommes. The Hawks' center then passed across to Thompson on left wing and Paul raced behind the Maroons' net. Rommes was completely unseated in the front of the cage and Thompson passed the puck out to him. He drove it into the net in 43 seconds.

Blanco, Robinson and Trotter went down and started a mix up on Gardner's doorstep. Blanco's pass went wild to end the foray. Robinson was right back on Chuck, though, on a pass from Dave Trotter. Gardner made a wild dive six feet out of his cage to smother the last shot.

Fans Get Troublesome.
Cy Wentworth fanned a pass from Jimmy Ward as the Maroons skinned deep inside the Hawks' blue line to open the scoreless second period. Blanco missed a pass and Trotter kicked the puck past an open net instead of shooting it in.

March and Frew were penalized for banding sticks at each other. It brought a protest from the fans and coins and debris showered down on the rink. Play was held up until the ice was cleared.

Ring Up Two More.

The Hawks got their second goal in the first minute of the third period and two minutes later added the third. Paul Thompson picked off one with a neat shot to the top corner of the net. Doc Rommes started the play, carrying the puck over the Maroons' blue line and passing diagonally to Thompson on left wing as MacKenzie and Wentworth rushed to block him.

Thompson swung out of the corner and flung a quick shot at the corner of the cage. Kerr jumped over, but the puck dropped cleanly into the twine between his body and the goal post.

The Maroons were skirmishing desperately in Chicago territory when Johnny Gottselig whirled down the ice on a play that brought the Hawks their last goal. He crossed the blue line with MacFadyen sliding along behind him. Johnny stick handled in a circle and passed as MacFadyen crossed the blue line. MacFadyen shot, and Gottselig passed the rebound back to him for another shot. Kerr cleared straight out and MacFadyen rifled it home.

Maroons Use 5 Men.

The Maroons put four forwards on the ice to press their advantage when Coulter was penalized, but their skirmishes brought them no score. Gardner was playing sensational hockey in the nets, and Gottselig and MacFadyen were back checking furiously, snarling up the Maroons at every turn. The Maroons started another mad struggle inside the Hawks' blue line with two minutes left to play, putting five forwards on the ice, all to no avail.

Talking it Over

BY ARCH WARD.

(Chicago Tribune Press Service.)

NEW YORK, March 28.—Clarence Rowland, former White Sox manager and now a scout for the Cubs, was asked in a radio interview to name the player he considered the greatest and most valuable in his time. . . . His reply was that for greatness alone it was Ty Cobb, but for greatness linked with team value he gave the honor to Eddie Collins. . . . Ring Redie, White Sox fence buster of other days, is playing first base on the team representing Paramount studios in Hollywood.

Fred Clark, sports editor of the Daily Illini, urges a post-tournament basketball game between the Indiana and Illinois state prep basketball champions to settle the argument which state produces the better players. . . . He advocates an annual game played alternately at Indianapolis and at the University of Illinois. . . . Edgar Manske, star end on Northwestern's 1933 football team, is assisting Coach Dick Hanley in spring practice. . . . His job is to develop an end to take his place. . . . Henri Desjard, the current wrestling rave along Broadway, once went an hour to a draw with Primo Camera. . . .

Alvin Jackson, the colored athlete who is to Michigan State's track team what Willie Ward is to the University of Michigan's, spent his freshman year at the University of Chicago, but could not manage to combine an eight hour day job with studies and athletics. . . . Augustana college football players called signals in Swedish in 1933 to confuse the opposition. . . . Pinkie Griffith, former University of Iowa football captain, is vice principal of Washington High school in California. . . . Maxie Rosenbloom, boxing's play boy, appeared at the Glants' training camp a few days ago for a workout and immediately the rumor spread that all the night clubs in Miami were closed. . . .

Nate Lewis managed some of the greatest fighters in the game, but never had a champion. . . . The closest he ever came was at Tompkins, N. Y., on Jan. 2, 1907, when Joe Gans knocked down Kid Herman after the bell in the third round of a lightweight title match. . . . Before the referee could call a foul Herman jumped up, patted Gans on the shoulder and said: "That's all right, Joe. I know you didn't mean it." . . . Gans then knocked out Herman in the eighth round, as he had promised and bet. . . .

Ten Years Ago Today—Spalding in situ of Peoria, Ill., won the national Catholic interscholastic basketball championship at Loyola gym. . . . Harry Greb was seriously injured in an automobile accident. . . . The Cubs split a double-header with Oakland.

St. Philip Boxing Team Beats St. Bede, 9 to 2

An amateur boxing team representing St. Philip High school whipped a squad from St. Bede academy of Peru, Ill., 9 bouts to 2, last night at St. Philip High school.

A Florsheim Customer Record File—where a card stands guard insuring your shoe satisfaction.

FOR THREE GENERATIONS...

THE ELAND—a conservative Custom Style. In black and brown calf. \$8.75

THE RECENT—a half brogue Custom model in vegetable tanned Custom Leather. \$10.00

● The record cards shown are typical of many families in our files. Father, son and grandson, all are Florsheim customers. The most convincing proof of Florsheim performance.

The individual satisfaction of each customer is the 42-year-old cornerstone on which Florsheim has built the largest fine shoe business in the world. That satisfaction is the reason for customers returning year after year, through three generations.

This Easter choose Florsheim Shoes! More than 300 styles to choose from... Feature Arch Shoes, Streamlined French Toes, Authentic Sport Styles, Trim Custom Models... all backed by the experience of 42 years in the art of fine shoe making.

AMERICAN DERBY DATE SET AT WASHINGTON PK.

Retain \$25,000 Purse for Classic.

The American Derby will be run at the Washington Park race track on June 9, it was announced yesterday by Col. M. J. Winn, president of the Washington Park Jockey club. No reduction was made in the value of the classic, Col. Winn said, and the purse will remain at \$25,000.

The Derby will be the only important stake event not reduced this year. Col. Winn, who also serves as president of the American Turf association, several months ago cut the Kentucky Derby purse to \$30,000.

Set \$800 Minimum.

With the exception of 1923 when the American Derby was run at Arlington Park, the classic has been held at Washington Park from 1884 to 1904 and resumed in 1926 when racing became legalized in Illinois.

Mr. Khayman, which finished third in the Kentucky Derby, won the American Derby last year.

Col. Winn also said no race during the meeting will be for less than \$800.

Two stake events, the Debutante stakes and the Francis S. Peabody Memorial handicap, which last year were run at Lincoln Fields, have been restored to the Washington Park program.

Many Seek Stables.

According to reservations received thus far Washington Park will be taxed to capacity. More than 400 applications for stabling facilities have been received by Tom Young, track superintendent. Other stake events announced by Col. Winn and the purses they will carry follow:

The Washington Park handicap—3 year olds and up, 4 furlongs, \$2,500.00.

The Debutante stakes—2 year old fillies, 5 1/2 furlongs, \$2,500.00.

The Francis S. Peabody Memorial—3 year olds and up, 1 1/4 miles, \$2,500.00.

The Robert M. Swenson—3 year olds and up, 1 1/4 miles, \$2,500.00.

The American Derby—3 year olds, 1 1/4 miles, \$25,000.00.

The Illinois Oaks—3 year old fillies, 1 1/4 miles, \$2,500.00.

The Francis S. Peabody Memorial handicap—3 year olds and up, 1 1/4 miles, \$2,500.00.

NEWS FROM THE RACE TRACKS

EPSON DOWNS RESULTS.

FIRST RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

SECOND RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

THIRD RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

FOURTH RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

FIFTH RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

SIXTH RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

SEVENTH RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

EIGHTH RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

NINTH RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

TENTH RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

ELEVENTH RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

Twelfth RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

Thirteenth RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

Fourteenth RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

Fifteenth RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

Sixteenth RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

Seventeenth RACE—Purse \$500, claiming, 3 year olds and up, 4 furlongs, 5.30 3.20 2.30. Winner, 101 (W. J. Miller), 5.30 3.20 2.30. Runner, 102 (W. J. Miller), 5.30 3.20 2.30. Third, 103 (W. J. Miller), 5.30 3.20 2.30.

Sportsmen to See Hunting Dogs at Show

BY BOB BECKER.

Sportsmen in Chicago and will be given the opportunity to see the greatest collection of sporting dogs ever brought together at a Chicago bench show when the annual classic of the Chicago Kennel club opens tomorrow morning at the Fourth Regiment armory, 16th street and Michigan avenue. A checkup of entries indicates that just about every breed in the sporting group will be represented by outstanding dogs. Beautiful specimens of many of the red Irish setters, a breed which many of us who like upland game shooting have hunted over, will be shown. The setters will not be backed by men alone, since Miss Elizabeth Coolidge of Highland Park will show two Irish setters, Shannon Inglefree and Kings' Patsy Raneagown.

Another Chicago Irish setter which will be competing for honors at the show is Royal Coat of Boys, to be shown by Miss Vera Lowry. Visitors to the show also will see a fine group of English setters compete for honors in the ring.

Cocker spaniels, English springers, spaniels, pointers, English Labrador retrievers, and possibly an Irish water spaniel or two will be other breeds in the sporting classes which should interest outdoorsmen. A few golden retrievers have come into Chicago in recent years, and these may be shown. Sportsmen have had a better chance to get acquainted with the Labradors since the Thomas Howell kennel of Barrington, Ill., managed by Martin H. Hogan, usually exhibits a few dogs although, as a rule, there is little competition for them. The Labrador retriever, a husky, black retriever of great strength and of excellent disposition, has been slowly gaining in popularity and numbers in the Mississippi valley, but it still is far from being a common dog among waterfowl hunters.

A few golden retrievers have come into Chicago in recent years, and these may be shown. Sportsmen have had a better chance to get acquainted with the Labradors since the Thomas Howell kennel of Barrington, Ill., managed by Martin H. Hogan, usually exhibits a few dogs although, as a rule, there is little competition for them. The Labrador retriever, a husky, black retriever of great strength and of excellent disposition, has been slowly gaining in popularity and numbers in the Mississippi valley, but it still is far from being a common dog among waterfowl hunters.

Sportsmen will see springer spaniels, pointers, English Labrador retrievers, and possibly an Irish water spaniel or two will be other breeds in the sporting classes which should interest outdoorsmen. SWENSKI, CURRY DISQUALIFIED IN WRESTLING BOUT

Disqualifications of both contestants halted the windup wrestling bout between Bull Curry and John Swenski after 25 minutes 25 seconds at the Rainbo Fronton last night. Both wrestlers were repeatedly warned by Referee Walter Evans for rough tactics. The disqualification came as both were wrestling on the floor outside the ring. In the semi-final match Alex Karaboski threw Ted McNeill in 16:45. A crowd of 1,800 saw the bouts. Other results:

Foota Exista won a decision over Dick Costello in 30 minutes.

Jack McAdam threw George Jonason in 16:56.

Rudy Kay threw Bill Smith in 4:14.

BASEBALL LEAGUE MEETS.

The Chicago Industrial Baseball league will hold its next meeting this evening at 153 West Madison street.

Lott, Stoen Reach 2d Round of Atlanta Tennis

Atlanta, Ga., March 23.—[Special.]—George Lott Jr. of Chicago and Lester Stoen of California advanced to the second round of the Atlanta tennis tournament today. Lott defeated Howard Moss, Atlanta, 6-1, 6-0, while Stoen eliminated Molly Williamson, Atlanta, 6-4, 6-1.

RODACK SIGNS FOR WHITE CITY WINDUP APRIL 23

Eddie Shea Is Sought as Leo's Opponent.

Leo Rodack, promising south side featherweight, has signed to meet the veteran Eddie Shea in the 16 round windup bout at White City on April 23. Shea, who recently returned from Florida, where he engaged in a series of contests, is unsigned, but Johnny Coulon expects to obtain his signature soon. Rodack, who has won 14 matches in as many professional appearances, left yesterday for Miami, Fla., for a 10 days' rest.

Five matches compose the card tonight at the Covenant club, 12 North Dearborn street. Young Joe Walker, welterweight, stablemate of Barney Ross, is to meet a substitute for Jack Elvortillo in a four rounder. Jimmy Cummings and Matt Dore, middleweights, meet for the second time in four rounds. Other contests:

Nicky O'Shea vs. Chuck Reed (4), 145.

Carl Scalise vs. George Schreiner (4), 135.

Lou Talbot vs. Swede Hanson (wrestling), 155.

The 45 year old former bantamweight champion, Johnny Coulon, will box a three round exhibition at the Rainbo Fronton on April 20.

Joey Esposito, veteran amateur lightweight, is seeking his first professional match... Jagat Singh, Punjabi, India, heavyweight wrestler, started fights yesterday for an affair on the next Stadium wrestling card, tentatively set for April 18.

Harry Pterro, bantamweight, has returned from an invasion of the Philippine islands, Mexico and California after two years... The second amateur meet between boxers from St. Philip High school and St.

Francis Schmidt Takes Up New Ohio State Job

Columbus, O., March 23.—[Special.]—Francis Schmidt, head football coach at Ohio State, took over his new job today and started management of the largest squad he has ever directed.

More than 100 freshmen and held over from last year's squad took the field this afternoon, as the annual spring football season opened. Regular workouts are scheduled for each day during the training period which will last about five weeks.

Schmidt indicated that he would employ some of the veteran back field material left from the 1933 season on the line to take the place of Edgar, Conrad, Gailus, Vuchnich, and Gillman, who graduated from the first string.

The first scrimmage session is planned for late next week. Ernie Godfrey and Floyd Stahl are acting as assistant coaches.

Bede academy of Peru, Ill., will be contested soon at St. Bede gymnasium... An Illinois State inter-scholastic boxing tournament is to be staged at St. Philip gymnasium on May 11.

Charles Bidwill, president of the Chicago Stadium operating company, is scheduled to return today from a business trip to Louisville... A substitute will be named to replace Henry Fuscaldio against Mickey Seal in the amateur charity show to be presented at Waukegan High school next Wednesday.

TANFORAN SPRING RACE MEETING TO OPEN TODAY

San Bruno, Cal., March 23.—[Special.]—Featured by the \$1,000 added inaugural handicap, Tanforan's spring racing meet will open tomorrow for a 31 day

The first stake event of the meet will be over the A. B. Spreckels course, 170 feet less than three-quarters of a mile. It will bring together a field of three year olds and up.

Handsome HAIR

—healthy Scalp with VITALIS

USE THE 60-SECOND VITALIS WORKOUT!

MEN of all ages are learning that Vitalis—and the 60-Second Workout—works wonders for their hair. They know that Vitalis keeps hair neatly in place—without any "patent-leather" sheen.

Most men—no matter how healthy their hair looks—suffer from a tight, dry scalp, which is often the forerunner of brittle and falling hair.

Correct this condition! Use the 60-Second Vitalis Workout! Vitalis and massage sends new circulation tingling through your scalp. It supplies nourishing vegetable oils to the hair roots without any stickiness or gumminess. It eliminates loose dandruff.

After the 60-Second Workout with Vitalis your hair looks just the way you've always wanted it to look. It combs quickly and easily into place—and stays that way all day.

See your barber. He'll tell you what's what about your hair. Get Vitalis from your druggist—and start in with your 60-Second Workout today!

10 SECONDS TO BRUSH... Your hair looks handsome, groomed. No "gumminess." No "patent-leather" look.

ASK YOUR BARBER

Your barber knows what Vitalis will do for your scalp and hair. Tell him to go ahead—with Vitalis.

VITALIS

KEEPS HAIR HEALTHY AND HANDSOME

BONDS ADVANCE IN ALL TRADING U. S. LIST IS EASY

Rails and Utilities Display Best Strength.

BOND AVERAGES

DOMESTIC	Yest.	Net
Govt.	77.44	+20
Industrial	88.67	+10
Utilities	88.86	+40
Combined	81.48	+67
FOREIGN		
Yest. av.	112.00	
Net change	+24	+17

(Chicago Tribune Press Service.)
New York, March 28.—With trading full, bond prices on the stock exchange today moved irregularly higher. Domestic corporation bonds moved irregularly higher, and United States government bonds irregularly lower. Net changes for the day in the latter ranged from 7.32d point losses to 3.32d gains.

In the foreign group, German issues were generally weaker, the setbacks ranging from small fractions to more than 4 points. Dutch East Indies loans declined 1/4 to 4 1/2 points.

French, British Issues Firm.

French government and municipal bonds and United Kingdom issues were firm, as were Austrian bonds which were slightly down. In Latin American issues were steady to firm in quiet trading.

As far as domestic corporation bonds were concerned, the rails and utilities showed better average strength than did the industrials. Traders who specialize in the secondary lines took some bonds on the strength of moderate improvement in the stock list during early trading. Such operations added a little to some loans of the Chicago and Eastern Illinois, Chicago and North Western, Federal Light and Traction, Interborough Rapid Transit, International and Great Northern, Missouri Pacific, New Haven and a limited group of low priced industrial and utilities.

Rail Issue Moves Higher.

A feature of the rail group was the heavy trading in obligations of the Denver and Rio Grande Western on the plan offered by the management to keep the road solvent by deferring part of the interest due. The bonds of the road were up 1/4 point to 4 1/2 points. A similar plan for the Western Pacific caused heavy trading in the road's first 4 1/2 point bonds with a resultant fractional gain on the day.

COTTONSEED OIL.

NEW YORK, March 28.—(COTTONSEED OIL.)—Bushels, W. & S. today October, promoted by the easy tone in cotton and heaviness in grain, had a net gain. Final prices were 11 to 13 points net lower. Final prices were 11 to 13 points net lower. Final prices were 11 to 13 points net lower. Final prices were 11 to 13 points net lower.

INVESTORS' GUIDE

U. S. Gypsum.

Investors' Guide: Would you advise me of the status of U. S. Gypsum and oblige?—C. H. J.
Answer: United States Gypsum company is the largest domestic manufacturer of gypsum products. These include wallboard, insulation, plastic paints, woodboard, and other products. Ordinarily the bulk of the company's output is used in construction of residences. In the absence of new building, however, the management has developed new products and these have been a major factor in maintaining operations profitable when there was practically no building. The company has also been helped by government contracts.

Operations are highly efficient. In January, 1933, it was estimated that the "pay point" (lowest point of profitable operations) was 14 per cent of capacity.

On March 7, 1934, Sewell Avery, president, said that net profit for the first two months of 1934 was approximately \$53,000, against a loss of \$37,000 for the corresponding 1933 period. Net income in 1933 was \$1,729,000, which was 3.18 times preferred dividend per common share, or equal to \$1 per common share. This compared with net income of \$1,599,000, or 66 cents per common share, for 1932, and \$3,447,000, or \$2.48 per common share, for 1931. Net income in 1930 was \$4,609,000.

During the last six years working capital has never fallen upon \$100,000. On Dec. 31, 1933, 1932, 1931, 1930, 1929, 1928, 1927, 1926, 1925, 1924, 1923, 1922, 1921, 1920, 1919, 1918, 1917, 1916, 1915, 1914, 1913, 1912, 1911, 1910, 1909, 1908, 1907, 1906, 1905, 1904, 1903, 1902, 1901, 1900, 1899, 1898, 1897, 1896, 1895, 1894, 1893, 1892, 1891, 1890, 1889, 1888, 1887, 1886, 1885, 1884, 1883, 1882, 1881, 1880, 1879, 1878, 1877, 1876, 1875, 1874, 1873, 1872, 1871, 1870, 1869, 1868, 1867, 1866, 1865, 1864, 1863, 1862, 1861, 1860, 1859, 1858, 1857, 1856, 1855, 1854, 1853, 1852, 1851, 1850, 1849, 1848, 1847, 1846, 1845, 1844, 1843, 1842, 1841, 1840, 1839, 1838, 1837, 1836, 1835, 1834, 1833, 1832, 1831, 1830, 1829, 1828, 1827, 1826, 1825, 1824, 1823, 1822, 1821, 1820, 1819, 1818, 1817, 1816, 1815, 1814, 1813, 1812, 1811, 1810, 1809, 1808, 1807, 1806, 1805, 1804, **STEEL TRADE'S
WAGE BOOSTS
BENEFIT 210,000****Two U. S. Company's
Units Join Move.**

Virtually the entire steel industry has approved a wage increase of 10 per cent, effective April 1. Numerous independents and the Bethlehem Steel company, the nation's second largest producer, announced yesterday they had joined the movement to increase wages without changes in working hours.

The United States Steel corporation, by far the largest producer, made no announcement, but two of its subsidiaries informed workers that the increase would be paid as of April 1, and various subsidiaries would boost wages in line with the general movement.

210,000 Men Affected.
With pay rolls now listing about 420,000 workers, the increases already announced affect more than 210,000 men. It is estimated that the cost of the increase, at the present rate of operations, will be between \$30,000,000 and \$40,000,000 a year.

As many steel plants are still operating at a loss, executives said yesterday that higher prices for steel products would have to follow, if the increased labor charges were to be met.

It is estimated that a 10 per cent increase in pay for wage earners will result in increasing the cost of producing steel by about \$1.30 a ton, when operations average 40 per cent of capacity.

Many steel authorities believe that operations will not average much more than 40 or 45 per cent for the current year.

National Tube Acts.

The National Tube company, a subsidiary of the United States Steel corporation, announced that it is lifting the pay of its 7,000 workers at its Lorain, O., plant 10 per cent, effective April 1. In addition workers of the Carnegie Steel company's plant at Youngstown were advised that the wages would be increased 10 per cent on April 1. Carnegie also is a United States Steel subsidiary.

Officials of the Illinois Steel company, another United States Steel subsidiary, refused to comment on wage plans, saying any announcement must come from New York headquarters of the corporation. Reports in Gary, however, were to the effect that a 10 per cent increase involving all workers getting \$3,000 or less annually might be expected. It was estimated that about 30,000 workers in steel corporations subsidiaries in the Gary area would be affected and possibly about 9,000 at the South Chicago works of Illinois Steel. United States Steel subsidiaries in the Gary area include Illinois Steel, National Tube, American Sheet and Tinplate, and American Bridge.

Republic Steel Joins.

The Republic Steel corporation, the largest company in the steel industry, announced that it is raising pay 10 per cent effective April 1. This concern has approximately 22,000 workers in its plants at Youngstown, Pittsburgh, Chicago, Cleveland, Buffalo, and Erie, Pa., and in the Canton, Warren, and Niles, Chicago offices of the concern refused to state how many workers here are involved.

Other companies to announce 10 per cent wage increases yesterday included the following: Sheet and Tube company, with around 15,000 workers at its Youngstown and Chicago plants.

The Sheffield Steel corporation plant at Kansas City, with 1,000 workers. This is a subsidiary of the American Rolling Mill company of Middletown, O., which previously announced a 10 per cent wage increase for its 10,000 workers there.

The Timken Steel and Tube company, with 3,000 workers.

The Sharon Steel Hoop company, with 2,100 workers.

The Empire Sheet and Tube company, with 1,600 workers.

Ludlum Steel company, with 1,000 employees at Watervliet and Dunkirk, N. Y.

The Reeves Manufacturing company at Dover, O., with 800 workers.

The Greer Steel company, with 450 workers.

Ryerson Not in Move.

The Chicago offices of Joseph T. Ryerson & Son, Inc., largest independent steel distributor in the country, stated that no wage increase was in sight at the moment for employees of the distributing branch of the steel industry. It was asserted that wages in this division have been running higher than those in the producing section.

Thomas N. McCarter, president of the Public Service corporation of New Jersey, announced yesterday that effective April 1 all employees will receive an increase of 5 per cent of what their pay was prior to July 1, 1932.

Officials of the Hupp Motor Car corporation at Cleveland announced that the branch plant there will be reopened within two weeks, with 350 to 500 employees. The plant has been idle since December.

Employees of the Hughes Tool company at Houston, Tex., were informed that effective April 1 they would receive the peak wages of 1929.

E. M. Ramsey, head of the executive board of the company's union, said that the pay increase would affect approximately 1,600 workers and would add \$5,000 to the weekly pay roll.

Soft Coal Operators Agree to Wage Boost, Less Hours

Washington, D. C., March 28.—(P)—A subcommittee of agricultural coal operators and miners negotiating a new wage contract agreed today to a seven hour day, five day week, and an increase of wages from a major portion of the Appalachian region. The agreement, however, is subject to ratification by the general wage conference.

**Gold Continues
as Nucleus of
Money Riddle**

BY HOWARD WOOD.

Gold continues to be the center of attention all over the world. In this country there are rumblings ever and anon that the government will have to reduce still further the gold content of the dollar. The first dose of devaluation, the currency fixers insist, wasn't enough. Prices rose a little, but must rise more, they say, and the only way to raise them is to dilute the dollar still further.

Typical is the following paragraph taken from the Chicago and an fact is a broker's private wire yesterday. The message was from New York: "There is growing belief that, with the increased expenditures of the government, we will eventually be forced into some greater inflation than we have yet seen. This undoubtedly is the reason behind the heavy buying in gold stocks which has been going on for some time."

In Germany the gold problem is becoming acute. Germany is nominally on the gold standard, but in fact is nothing of the sort. According to only 8 reichsmarks' worth of gold to marks in gold for every 100 reichsmarks of currency outstanding, or the same gold coverage ratio as the United States. Actually she now has only 5 reichsmarks' worth of gold to cover each 100 reichsmarks' worth of currency.

Today Germany has only about a third the amount of gold she had a year ago, and she's losing more each week. A report from Berlin this week shows that in the week ended March 23 the Reichsbank lost nearly 21 million reichsmarks' worth of gold, leaving a total of only 245 million reichsmarks' worth.

Germany is desperately trying to retain her remaining gold and avoid the type of "managed" currency experiments which wrecked her eleven years ago. She is making every effort to boost exports and prohibit imports and is refusing to permit German debtors to pay in full interest and principal on their just debts abroad, even where the debtors are financially able to pay.

The continued drain on Germany's gold supply, however, is ominous.

In China, too, the gold problem bobs up. According to dispatches from Shanghai, the Chinese economic council has adopted a proposal to set aside 40 per cent of the proceeds of the month's loan negotiated with the United States last year for the purpose of trying to put Chinese currency on the gold standard.

Just how the plan is supposed to work hasn't yet been made clear on this side of the Pacific, but the general idea is that the Chinese are seeking to prevent manipulation of the price of silver to higher levels. The Chinese money is mostly silver, and if the price of silver goes up the prices in terms of silver of other commodities that the Chinese buy with their silver will go down.

China may be on the other side of the world, but the fact remains that when the price of a nation's money goes up the prices of its goods go down, and even a Chinaman knows that dropping price levels mean depression.

All of which will be of interest to the silver inflationists in this country—the politicians and mine owners in Rocky mountain states who have been fishing up the theory that if the United States government will only peg the price of silver at higher levels China, India, and other silver using nations would be rendered more prosperous by reason of the increased value of silver and would be able to buy more goods in the United States.

CHICAGO BANK DEVELOPS PLAN TO AID BUSINESS

The Halsted Exchange National bank, Halsted street at 19th place, announced yesterday that it had set up machinery to cooperate with the federal administration's plan of facilitating the extension of bank credit to business enterprises.

In this connection the bank has organized a business cooperation division under the direction of Karl E. Wehrly, formerly in the steel industry. Associated with him are Joseph P. Mangano, former vice president of the Live Stock National bank, and George V. Campbell, formerly with the Equitable Trust company.

The bank proposes to assist commercial and industrial enterprises not only in the extension of bank credit but in arranging credit facilities in other channels when the usual ninety day banking credit is not permissible.

MARKET SUMMARY

NEW YORK STOCKS—Steady. Mining issues steady market.

CHICAGO STOCKS—Firm in slow trade.

NEW YORK BONDS—Steady. Government issues.

FOREIGN EXCHANGE—Steady. Sterling high.

WHEAT—Lower. Trading dull.

CORN—Lower. Rural offerings fair.

CATTLE—Steady. Higher, top \$7.65, average \$6.30.

**RATE OF STEEL
ACTIVITY EASES
A HALF POINT****Operations Sag to
48% of Capacity.**

While bookings of steel by automobile manufacturers have recovered following the avoidance of a major strike in the automotive industry and while business from the railroads continues to increase, national steel works operations last week eased a half point to 48 per cent of capacity, according to the Iron Age.

Throughout this month operations have been maintained on a slightly tilted plateau; in the first week of March they were at 49 per cent, the highest rate for this year; then in the two weeks they held at 48 1/2 per cent.

Operations Steady Here.
Mills in Chicago and Pittsburgh, though they have been receiving heavier tonnages from the railroads, operated at about the same rates last week as the week before—47 and 32 per cent, respectively. Production in the Philadelphia district rose 3 points to 36 per cent. In the Wheeling district a decline of 5 to 70 occurred.

Commenting on the 70 page report of the federal trade commission, released March 20, which claimed that the steel code was designed to foster monopoly and discriminate against small manufacturers, Iron Age declares:

"The federal trade commission's attack on the steel code is regarded as a political move designed to discredit the National Recovery administration, which had preempted the industry's powers to discipline industry."

"Evidence offered to prove that small enterprises have suffered under the code does not impress an industry which has been under constant pressure from its larger customers because of the present policy of price parity for all buyers, regardless of their size."

Six Railroads in Market.

Six railroads either bought or were getting ready to buy rails or other equipment last week, according to the report of the National Steel Association. The New York Central will soon place orders for 40,000 tons of rails and has taken bids on its requirements of plates, shapes, bars, and sheets. The Great Northern is expected to buy 30,000 tons of rails. The Norfolk and Western is receiving bids this week on 4,500 tons of plates and shapes.

The Pennsylvania has taken bids on various finished steel products for next quarter. The Great Northern is to buy 30,000 tons of rails and 4,000 tons of accessories. A governmental loan has been made to the Chicago Great Western for construction of 500 freight cars.

Fabricated structural steel awards amounted to 12,000 tons, including 2,400 for a state hospital on Long Island, compared with awards of 29,200 in the preceding week. Plate awards totaling 11,000 tons for second quarter for a welded pipe line for St. Louis. Plate inquiries were 12,000 tons.

GREYHOUND CORP. CAPITALIZATION PLAN CRITICIZED

Three stockholders who attended the meeting of the Greyhound corporation yesterday expressed opposition to the company's recapitalization plan and the proposal for issuing stock bonuses to officers, approved last November.

Besides the officers and directors these three were the only share holders present, but their criticism of the plans were forceful. They declared that after the stocks had been scaled down on a one to twenty basis it was shown that the earnings of the company had been greatly improved.

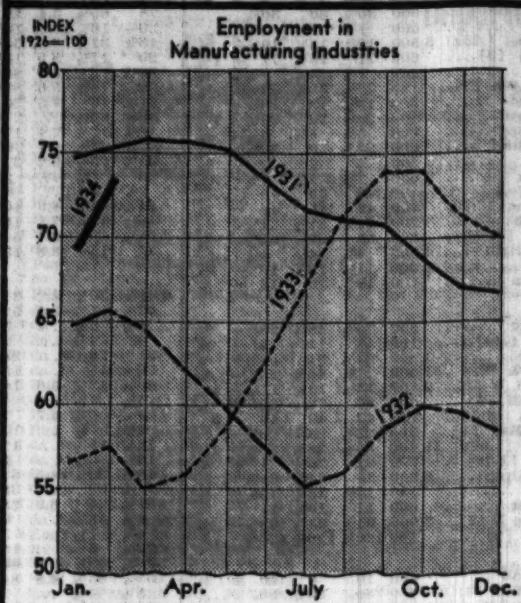

One of the complainants demanded that most of the \$417,000 cash held by the company at the close of 1933 be distributed to the common share holders.

C. E. Wickman, president, and other officers defended the recapitalization plan, declaring that the common share holders were favored in the new set up. They also insisted that they had lost money on their investments.

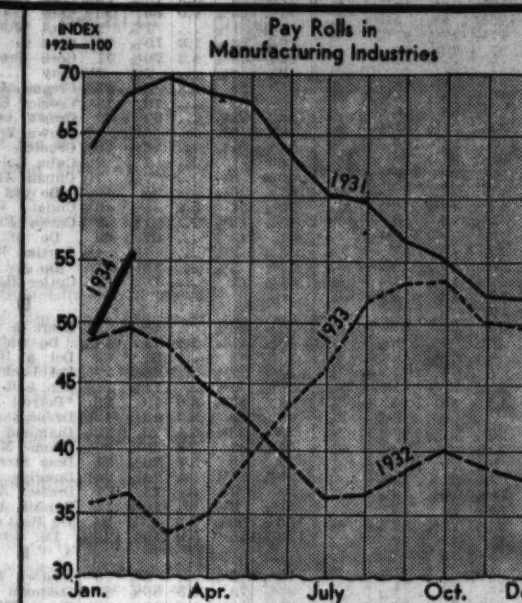

Mr. Wickman said after the meeting that the complaining stockholders held only a few shares each and that the majority of the stock was in only a few hands.

Evanston Man Heads State Auto Retail Code Committee

W. D. Reagan of the North Suburban Sales company, Evanston, was elected chairman of the state advisory committee under the motor vehicle retail code at a meeting yesterday in the Congress hotel. Lafayette Markle, president of the Chicago Automobile Trade association, was elected vice chairman; R. C. Thomas, secretary of the Northern Indiana Automobile Trade association, secretary, and A. M. Russell of Pierce-Arrow Motor Car corporation, treasurer.

**Employment and Pay Rolls Rising—
Government Report Shows**

SOURCE: U. S. BUREAU OF LABOR STATISTICS

**Power Output
Rises; Margin
of Gain Lower**

National electricity output last week was moderately higher than that of the preceding week. However, the margin over output in the corresponding period of last year was somewhat less than the margin of the preceding week.

Production in the United States for the week ended March 24 amounted to 1,658,383,000 kilowatt hours, or 17.6 per cent over the total of the parallel week of 1933, according to the Edison Electric Institute. In the week ended March 17 the margin was 20 per cent.

Rise Below Last Year.

Last week's aggregate was 0.4 per cent higher than 1,650,013,000 kilowatt hour total in the preceding period. Between corresponding weeks in 1933 there was a rise of 2.4 per cent.

In the Chicago district output for the week was 300,665,000 kilowatt hours, or 11.3 per cent in excess of the total of 269,826,000 in the corresponding week of 1933, compared with 14.7 per cent in the week ended March 17. Output for the preceding week was 299,500,000 kilowatt hours.

"Electricity output continues to make an excellent showing, having been fairly uniform for the last 12 weeks, compared with the usual downward seasonal trend," declares the announcement of the Commonwealth Edison company.

Comparison of Output.

Following are the output and percentage comparisons with last year for the Chicago district:

KILOWATT HOUR OUTPUT.

Week 1934. 1933. Per cent.

March 24...1,006,665,000 90,226,000 11.3

March 17...1,007,710,000 88,388,000 11.3

March 10...1,007,710,000 88,388,000 11.3

March 3...1,007,710,000 88,388,000 11.3

The tendency in the major territorial divisions was mixed last week. Electricity production in New England maintained a margin of 19.3 per cent over production in the like period of last year, compared with 18.2 in the preceding week. In the Rocky mountains 18.4, against 18.8, and in the Pacific coast 12.3, against 13.

On the other hand, the gain in the middle Atlantic region was reduced to 12.7 from 14.7; in the central industrial region to 27 from 30.1; in the west central to 11.3 from 13.8, and in the southern states to 12.1 from 17.5.

LAZY DEPOSITORS DELAY CLOSING OF THORNTON BANK

The Thornton State bank, Thornton, Ill., which told customers to come and get their money nearly three weeks ago because it wanted to liquidate, still has \$150,000 belonging to some 300 depositors which is unclaimed.

"It was easier to get than it is to get rid of," W. C. Bielefeld, cashier, said yesterday, "but we are staying open regular hours in the hope that our depositors come in."

Funds which are unclaimed ultimately will be turned over to the state auditor as provided by law. The auditor holds the money for five years and if it is still unclaimed it is turned back to the bank's stockholders.

Invite 25,000 Merchants for Market Week in April

Invitations are going to 25,000 merchants and buyers in thirty-nine states and six Canadian provinces to come to Chicago for the midseason market week, which will be staged by local wholesalers and manufacturers from April 9 to April 14 under the auspices of the Chicago Association of Commerce.

MAJOR MARKETS CLOSE TOMORROW

Principal security and commodity markets throughout the Chicago world will be closed tomorrow, Good Friday.

The leading U. S. markets, including the Chicago Board of Trade and the New York Stock exchange, will resume normal trading Saturday. New York commodity markets, however, with the exception of the produce exchange, will remain closed until Monday.

In some foreign centers, notably London and Liverpool, trading will be suspended at 3 p. m. today and will not be resumed until Tuesday morning.

All banks in this country will stay open Friday.

As customary, the live stock market here and in other cities will operate.

**FEBRUARY IMPORTS
OF GOLD, \$452,622,000,
SET NEW HIGH RECORD**

Washington, D. C., March 28.—(P)—

The stream of gold pouring into the nation's coffers because of the government's foreign gold purchases and returning capital reached the highest monthly total in the country's history in February. This was disclosed today by foreign trade figures of the department of commerce.

Gold imports were \$452,622,000 in February, compared with the previous high total of \$188,000,000 in December, 1931. The February record applied both to dollar value and weight, despite the fact that it was calculated on the devalued dollar, which contains about 40 per cent less gold than prior to devaluation.

Silver imports in February were \$2,128,000.

**DOLLAR WEAKER
ON SWISS STAND
FOR GOLD BASIS**

[Chicago Tribune Press Service.]

New York, March 28.—The reaffirmation by the Swiss government today of its intention of clinging to the gold standard and of preserving its balanced budget lifted pressure on the gold bloc currencies and provided the impetus for a general advance in foreign exchanges against the dollar.

In terms of the French gold franc, the dollar dropped 5 points to close at \$34.49.

Swiss francs were up 4 points to 32.30 francs. French francs gained 1/2 point to 6.53 1/2 francs, Belgians gained 3 points to 33.34 francs, and guilders were 5 points higher at 67.35 cents. Sterling rose 1 1/2 cents at \$5.11 1/2 cents and the Canadian dollar rose about 1/2 cent to a shade over par.

Further gold imports of \$5,262,000 were reported today by the Federal Reserve bank of New York, and in addition, there was a release of \$350,000 gold from earmarking for foreign account, making a total net gain of \$5,612,000. These transactions brought to \$443,883,900 the total of gold imports reported since Feb. 1.

The London open market price for gold was dropped half a penny to 136 shillings 3 pence, equivalent to \$34.74, at \$10 for the pound. Metal worth \$2,448,000 was offered for sale.

**Middle West's
No. American
Holding Slips**

The interest of the Middle West Utilities company in the North American Light and Power company will be further diluted as a result of action taken yesterday by shareholders of the latter concern. Stockholders approved an increase in the capital stock, which additional shares will be sold to the North American company. Control of property formerly vested with North American company and Middle West Utilities. Because of Middle West's inability to subscribe to new shares, however, control is swinging to North American.

The new stock is being issued to take up \$2,000,000 of notes which North American Light must meet April 1. The notes are part of a \$10,000,000 issue sold in 1931.

Stock Issue Each Year.

At that time it was provided that new common stock would be issued each year to take up the serial maturities. The stock was to be offered first to all stockholders and North American company and Middle West Utilities agreed to purchase all stock that the other shareholders did not take. Because of its receivership, Middle West has been unable, however, to live up to the agreement and the other stockholders have waived their subscriptions rights in favor of North American. This operation will bring North American's holdings in North American Light and Power common to considerably more than two-thirds of the outstanding shares.

North American Light is an important holding company in the central states controlling directly or indirectly operating properties in Illinois, Iowa, Missouri, and Kansas. Its most important operating subsidiary is the Illinois Light and Power company.

Has 3,625,000 Shares.

Yesterday's action increases the common stock of North American Light from 3,600,000 to 3,625,000 shares. At the same time the stock was changed from no par shares to shares of \$1 par. This action was taken to effect tax economies for the company as well as stockholders.

Yesterday's meeting was a special meeting of stockholders. The regular annual meeting will be held next Saturday, J. D. Mortimer, president, said.

**HOLC Reports
\$400,000,000
Loans Granted**

[Chicago Tribune Press Service.]

Washington, D. C., March 28.—Close to \$400,000,000 in home mortgage loans have been granted in bonds and cash to date by the Home Owners' Loan corporation, it was announced today. Since the beginning of operations last summer the corporation has closed loans on 138,175 individual urban homes to an aggregate of \$392,296,732. During the week ended March 23 the rate of activity continued to climb, 11,777 loans being contracted for a total of \$54,489,000.

Up to March 23 the corporation had obtained 732,074 "mortgagee's consents," or signed agreements by lien holders to accept bonds of the corporation in stated amounts in exchange for their mortgages. Detailed fee appraisals of \$37,984 homes of applicants had been completed.

Many Held for Adjustment.

A total of 181,504 applications, upon which first appraisals have been made, are temporarily held for adjustment, with a possibility of disapproval. These are divided as follows: 54,382 applications after preliminary appraisal, 75,672 applications after fee appraisal, and 49,352 after final management appraisal.

Included are applications on which mortgagees' consents to take bonds have not yet been given, those in which reductions in the amount of the lien must be negotiated to bring the loans within the limit authorized by law, and those held to determine the necessary expenditure for repairs and for other causes. It is estimated that the majority of these applications will be cleared for approval later.

Other applications to the number of 30,719, on which all appraisals have been ratified by the district managers, are being held currently on account of defects of title.

\$6,991 Rejected Unappraised.

Applications numbering 6,991 have been rejected to date without appraisal since they disclosed facts which render them ineligible, and 21,453 have been withdrawn voluntarily by the applicants, in many cases because refinancing had been arranged elsewhere or because of their misunderstanding of the purpose of the act.

In addition, 98,331 applications are listed as ready for fee appraisal as of March 23 with all preliminary investigations completed, and 22,889 applications are in the hands of loan closers for the formalities of executing and cancellation of the old mortgage and the writing of new obligations to the corporation.

Loans closed to date by states vary from 23,399 in Ohio, to 32 in Hawaii. The average amount of all loans is \$2,839.

PART OF FOREST PRESERVE BONDS TO PAY 40 PCT.

A pro rata principal payment of 40 per cent on all Cook county forest preserve district bonds bearing maturity dates between Feb. 1, 1932, and April 1, 1933, will be made Saturday. The payment aggregates \$704,000 and will be made through the First National bank.

Emmett Whealan, president of the board of forest preserve commissioners, yesterday gave instructions to Rudolph Mulino Jr., controller of the district, to make the distribution.

Bradstreet's Food Index Lowest Since February 6

The weekly food index of Dun and Bradstreet declined 3 cents in the last week, following declines of 1 cent in each of the two preceding weeks. The index stood at \$2.11 on March 27. The index since Feb. 6 when it stood at \$2.08. Compared with a year ago, however, it was still 20 per cent higher.

**STANDARD OIL
CUTS GASOLINE
1 TO 1 1/2 CENTS****Other Sellers Likely
to Meet Price.**

BY PHILIP HAMPSON.

Announcement was made by the Standard Oil company last night that it is cutting the price of gasoline in the Chicago metropolitan district 1 1/2 cents a gallon on its two top grades and 1 cent a gallon on its third grade, both at the service stations and the tank wagons.

Martin Insull Returned to Chicago for Trial; Samuel Insull at Istanbul—President Sails on Astor Yacht

(Tribune Photo.)

INSULL LEAVING TRAIN UPON RETURN HOME.
Martin J. Insull, brother of Samuel Insull, leaving Michigan Central train yesterday. Behind him is a policeman. He was extradited from Canada to stand trial for embezzlement.
(Story on page 1.)

(Associated Press Photo.)

FRIEND WHO AIDED INSULL IN ATHENS.
Mme. Helen Kouyoumdjoglou, Greek wife of a Bagdad date merchant, who was the friend and advisor of Samuel Insull and his wife during Insull's stay in Athens.
(Story on page 4.)

(Associated Press Photo.)

SCENE AT INSULL'S FLAT JUST AFTER FLIGHT.
Here is a view of the street in front of the Insull apartments in Athens just after it had been learned that the former Chicago utilities magnate had escaped.
(Story on page 4.)

(Associated Press Photo.)

PRESIDENT STARTS ON FISHING HOLIDAY.
President Roosevelt waving to crowd as he left Washington for Florida, where he yesterday boarded the yacht of Vincent Astor for vacation cruise.
(Story on page 2.)

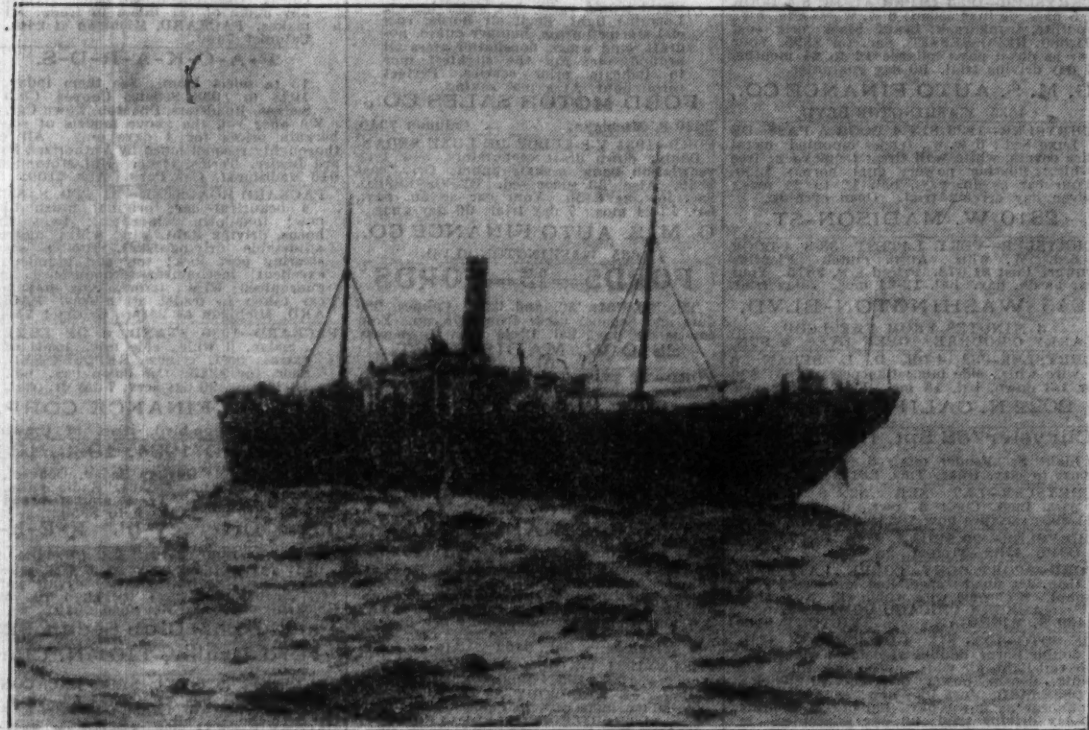

(Tribune Photo.)

STEEL DOORS OF COUNTY JAIL CLOSED ON INSULL; BOND IS DELAYED.
Martin Insull entering the jail last night after attorney had been unable to complete arrangements for \$50,000 bond. Lieut. Frank Johnson is at the left and in the foreground is James Gabriel, bailiff of Criminal court.
(Story on page 1.)

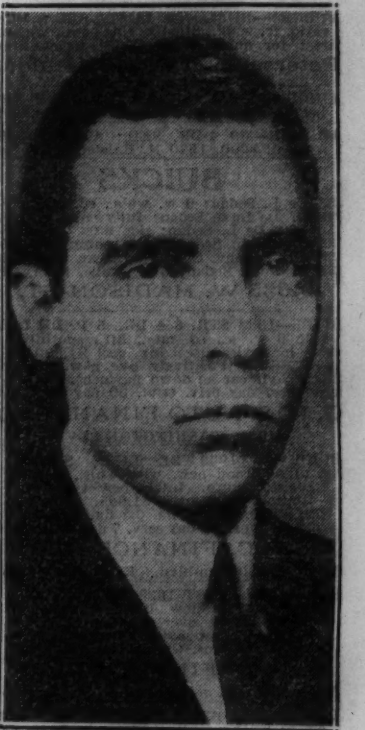

(Copyright: Paul Thompson Photo.)

REORGANIZING NRA.
W. Averell Harriman, aid to Gen. Johnson, in charge of shakeup.

(Associated Press Photo.)

GREEK FREIGHTER, MAIOTIS, WITH SAMUEL INSULL ABOARD, AT ISTANBUL.
The Greek ship, Maiotis, photographed under full steam off Piraeus shortly after Samuel Insull fled from Athens. The Maiotis arrived at Istanbul early this morning with Insull still aboard, after being at sea since a week ago Sunday.
(Story on page 4.)

(Blank & Stoller Photo: From Associated Press.)

HOST TO PRESIDENT.
Vincent Astor, upon whose yacht President Roosevelt is now cruising.
(Story on page 2.)

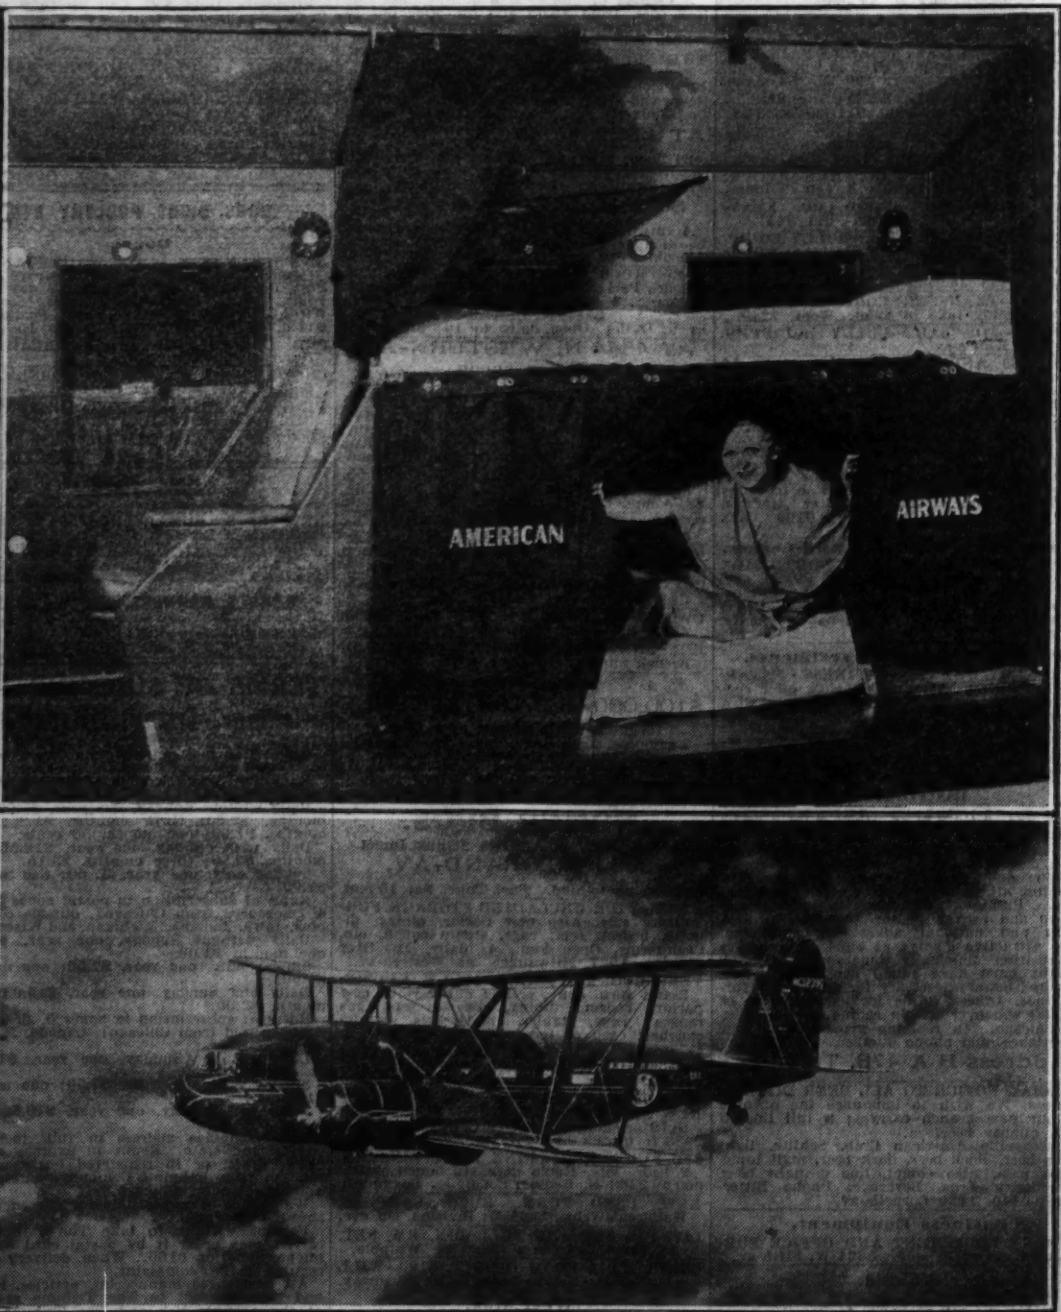

(Tribune Photo.)

CHURCHES PREPARE FOR EASTER SERVICES; HOLY THURSDAY TODAY.
The boys' choir of the St. Paul Episcopal church, 50th street and Dorchester avenue, as it rehearsed yesterday. Left to right: Robert Peterson, Robert Jacoby, Livingston Pottenger, Robert Main, David Hartman, and Donald Irwin.
(Story on page 5.)

CAPTAIN OF INSULL'S SHIP IS QUESTIONED.
Capt. Mousouris of the tramp steamer Maiotis, between two port officials after the vessel had been forced back to Athens shortly after the flight of Samuel Insull.
(Story on page 4.)

DEMONSTRATE NEW AIR LINER UPON WHICH PASSENGERS MAY SLEEP.
Above: Compartment of American Airways convertible sleeping plane made up for night flight. Six compartments provide facilities for twelve passengers. Below: The new plane as it appears cruising at speed of 160 miles an hour. These planes are said to be the first complete sleeping planes in the world.
(Story on page 11.)

THIRTEEN YOUNG SCREEN ACTRESSES NAMED AS WAMPAS BABY STARS FOR 1934; PICKED FROM FIELD OF 38 NOMINEES.
Five of the Wampas babies announced last night by the Western Association of Motion Picture Advertisers in Hollywood. Left to right: Helene Cohan, New York; Jean Carmen, Portland, Ore.; Jean Gale, San Francisco; Lucille Lund, Buckley, Wash., former Northwestern university co-ed, and Jacqueline Wells, Dallas, Tex. In addition to the thirteen winners, the publicity men chose six alternates.
(Story on page 17.)
